Rethinking Christian Identity Medi Ann Volpe, 2013-01-04 RETHINKING CHRISTIAN IDENTITY A brilliant compelling agenda setting book Volpe has written this thoughtful passionate informed critique that invites us all to think through precisely what is involved in being formed in the Christian tradition Ian Markham Virginia Theological Seminary A model for those of us who seek to combine the vocations of academic theology and pastoral ministry *Rethinking Christian Identity* offers a compelling vision of Christian formation Volpe deftly shapes her vision in conversation with contemporary theologians and voices from the history of the Church combining erudition with a passion for Christian discipleship Kathryn Greene McCreight St John s Episcopal Church Recent decades have seen major shifts in our understanding of Christian identity This timely book explores contemporary theological theory in asking what makes a Christian in the twenty first century what unites and sets Christians apart from other social or political groups and how is this identity forged and then passed on to others Volpe engages with these changing ideas through the work of Kathryn Tanner Rowan Williams and John Milbank whose accounts of Christianity challenge older views Drawing these theologians into conversation with Gregory of Nyssa she clearly and persuasively discusses the importance of doctrine in identity formation the unexplored ideas of the significance of sin on Christian identity and its effects and the need for an inclusive account of Christian identity As Christianity declines in parts of the Western world and yet expands in others the nature of Christian identity is more crucial and vexed than ever before This important book makes a valuable contribution to these ongoing debates

Exploring Gregory of Nyssa Anna Marmodoro, Neil B. McLynn, 2018 The essays that comprise this volume were first presented at a seminar on Gregory of Nyssa that we convened in Oxford in 2016 Page v

Gregory of Nyssa John Behr, 2023 This book presents the first modern critical edition of the work of Gregory of Nyssa *On the Human Image of God* formerly known as *On the Making of Man De hominis opificio* and the first English translation since the nineteenth century This treatise is one of the most important of Gregory s texts Paralleling the structure of Plato s *Timaeus* Gregory s work

begins by offering two analyses of the human being The first presents the human being as the culmination of the ascent made by nature through the various levels of life and as made body and soul in the image of God The second considers why this is not immediately apparent the need for time to be able to grow individually and collectively to this status as the body of Christ the image of God and the role of sexuality within this growth The third part of the work brings both analyses together to see the same movement in the life span of each person The extensive introduction provided in this volume examines the philosophical and theological background of Gregory s text beginning with Anaxagoras Plato the Timaeus Philo and Origen and also compares aspects of Gregory s work with that of Irenaeus of Lyons and Maximos the Confessor **The Philokalia** Brock Bingham,Bradley Nassif,2012-08-23 The Philokalia literally love of the beautiful is after the Bible the most influential source of spiritual tradition within the Orthodox Church First published in Greek in 1782 by St Nicodemos of the Holy Mountain and St Macarios of Corinth the Philokalia includes works by thirty six influential Orthodox authors such as Maximus the Confessor Peter of Madascus Symeon the New Theologian and Gregory Palamas Surprisingly this important collection of theological and spiritual writings has received little scholarly attention With the growing interest in Orthodox theology the need for a substantive resource for Philokalic studies has become increasingly evident The purpose of the present volume is to remedy that lack by providing an ecumenical collection of scholarly essays on the Philokalia that will introduce readers to its background motifs authors and relevance for contemporary life and thought Divine Contingency Thomas Cattoi,2008 The purpose of this work is to explore the distinct notions of divine embodiment developed by Maximos the Confessor 580 662 one of the greatest Greek Fathers and Tsong kha pa 1357 1419 arguably the most important thinker in the history of Tibetan Buddhism Dynamis of Healing Pia Sophia Chaudhari,2019-08-06 This book explores how traces of the energies and dynamics of Orthodox Christian theology and anthropology may be observed in the clinical work of depth psychology Looking to theology to express its own religious truths and to psychology to see whether these truth claims show up in healing modalities the author creatively engages both disciplines in order to highlight the possibilities for healing contained therein Dynamis of Healing elucidates how theology and psychology are by no means fundamentally at odds with each other but rather can work together in a beautiful and powerful synergia to address both the deepest needs and deepest desires of the human person for healing and flourishing Resurrection as Salvation Thomas D. McGlothlin,2018-08-02 This book is the first study to focus on the reception of Paul s link between resurrection and salvation revealing its profound effect on early Christian theology not only eschatology but also anthropology pneumatology ethics and soteriology Thomas D McGlothlin traces the roots of the strong tension on the matter in ancient Judaism and then offers deep readings of the topic by key theologians of pre Nicene Christianity who argued on both sides of the issue of the fleshliness of the resurrected body McGlothlin unravels the surprising continuities that emerge between Irenaeus Origen and the Valentinians as well as deep disagreements between allies like Irenaeus and Tertullian *Thinking Nature and the Nature of Thinking* Willemien

Otten,2020-03-17 A fresh and more capacious reading of the Western religious tradition on nature and creation Thinking Nature and the Nature of Thinking puts medieval Irish theologian John Scottus Eriugena 810 877 into conversation with American philosopher Ralph Waldo Emerson 1803 1882 Challenging the biblical stewardship model of nature and histories of nature and religion that pit orthodoxy against the heresy of pantheism Willemien Otten reveals a line of thought that has long made room for nature s agency as the coworker of God Embracing in this more elusive idea of nature in a world beset by environmental crisis she suggests will allow us to see nature not as a victim but as an ally in a common quest for re attunement to the divine Putting its protagonists into further dialogue with such classic authors as Augustine Maximus the Confessor Friedrich Schleiermacher and William James her study deconstructs the idea of pantheism and paves the way for a new natural theology Forthcoming Books Rose Army,2004 *A Charitable Orthopathy* John W. Morehead,Brandon C. Benziger,2020-04-07 Evangelicals and other conservative Christians of the twenty first century face enormous challenges in the pluralistic public square not least with Muslims and atheists Contrary to biblical injunctions to keep in step with the Spirit Gal 5 25b and to love our neighbors as ourselves e g Matt 22 37 40 Luke 10 25 37 both of which involve not only behavioral but also important affective elements we often harbor deep seated antipathies toward atheists and adherents of other religions While such feelings are at times justified and help us cope with conflict related tragedies they are also often baseless misconstrued and counterproductive priming us to avoid religious others support discriminatory policies against them and even confront them in verbal or physical ways The purpose of this volume is to offer an academically informed yet practically oriented collection of essays that challenges and encourages Christians to engage their religious neighbors in a much more loving compassionate hopeful and courageous indeed orthopathic manner whether in the realm of politics in debate and conference venues on the mission field or in their own homes schools churches and neighborhoods As such a set of reflection and discussion questions is included to facilitate individual and or group study *On the Soul and the Resurrection* St. Gregory of Nyssa,Wyatt North, St Gregory of Nyssa c 335 after 394 was a Christian bishop and saint He was a younger brother of Basil the Great and a good friend of Gregory of Nazianzus His significance has long been recognized in the Eastern Orthodox Oriental Orthodox Eastern Catholic and Roman Catholic branches of Christianity Some historians identify Theosebia the deaconess as his wife others hold that she like Macrina the Younger was actually a sister of Gregory and Basil Gregory along with his brother Basil of Caesarea and Gregory of Nazianzus are known as the Cappadocian Fathers They attempted to establish Christian philosophy as superior to Greek philosophy You can purchase other religious works directly from Wyatt North Publishing Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004 **Gregory of Nyssa** HarperCollins Spiritual Classics,2006-02-28 St Gregory of Nyssa 335 394 CE who came from an illustrious Christian family of Capadocia became bishop of the small town of Nyssa in 371 and is known as one of the founders of mystical theology in the Church In *The Life of Moses* one of the most important books in the study of Christian mysticism Gregory

retells the story of Moses's life from the biblical account in Exodus and Numbers and then refers back to these stories as the basis for profound spiritual lessons. The ultimate goal of Gregory's spirituality is to strive for infinite progress in the never-completed journey to God. His exhortations to lead a life of virtue will inspire all who hope to increase their knowledge and love of God.

Divine Scripture and Human Emotion in Maximus the Confessor Andrew J. Summerson, 2020-12-29. In *Exegesis of the Human Heart* Andrew J. Summerson explores how Maximus the Confessor uses biblical interpretation to develop an account of human passibility from fallen human passions to perfected human emotions among the divinized. This book features Maximus's role as a creative interpreter of tradition. Maximus inherits Christian thinking on emotion which revises Stoic and Platonic thought according to biblical categories. Through a close reading of *Quaestiones ad Thalassium* and a wide selection of Maximus's works, Andrew J. Summerson shows that Maximus understands human emotion in an exegetical milieu and that Maximus places human emotion at the heart of his soteriology. Christ redeems passibility so the divinized can enjoy perfected emotional activity in the ever-moving repose of eternal life.

The Hermeneutics of Doctrine Anthony C. Thiselton, 2007-11-08. Throughout the book, Thiselton shows how perspectives that arise from hermeneutics shed fresh light on the theological method, reshape horizons of understanding, and reveal the relevance of doctrine for formation and for life.

Passionate Deification Henry L. Novello, 2019-11-01. In the past, the passions were regarded as sicknesses of the soul due to Adam's sin. As the Redeemer, Christ shares in our humanity and experiences the passions, but given his divine status, he quickly overcomes the passions by his superior reason. As the Word, in effect, Christ is displayed as a Stoic sage who is unperturbed by the passions. The book is critical of this traditional perspective for its inability to think of the Incarnation as the Word's real participation in our humanity. Christ is not a Stoic sage who displays an uninvolved holiness, but the Word become flesh who displays an astonishing breadth and intensity of emotional life which reveals what it means for the fullness of divinity to dwell bodily in him. Reformed theology moved beyond the traditional perspective in affirming the strong emotions of Christ as proof of his humanity, but Christ's divinity was given insufficient attention. The book proposes a complex view of Christ's emotions which are regarded not merely as proof of his humanity but reveal the personal attributes of divinity communicated to his humanity. To observe Christ's emotions is to witness the mutual interaction of humanity and divinity in his person which accomplishes our salvation, deification. To imitate Christ then means that Christ's emotions become the emotions of his followers so that by seeing as God sees and feeling as God feels, they go forth in obedience to Christ's commandment to love one another as he has loved us, which is to live the way of the cross for the sake of the ongoing embodiment of God in the world.

St. Gregory of Nyssa and the Tradition of the Fathers Michael Azkoul, 1995. This study refutes the ordinary description of St. Gregory as would-be philosopher in the Greek tradition. First, it describes the world view of the holy Fathers, holding that it is to their fellowship that he belonged, not the Platonic tradition of the philosophies of Plotinus, Philo, and Origen of Alexandria. Chapters compare St. Gregory to these alleged models and sources, and it is argued

that he matches none of them The study also holds that the works of St Gregory were adulterated by his enemies probably during the 6th century Origenist revival as his orthodoxy was never questioned by anyone until the time that the latter followers of Origen associated him with their cause

On the Making of Man Saint Gregory of Nyssa, Aeterna Press, This is the book of the generation of heaven and earth saith the Scripture when all that is seen was finished and each of the things that are betook itself to its own separate place when the body of heaven compassed all things round and those bodies which are heavy and of downward tendency the earth and the water holding each other in took the middle place of the universe while as a sort of bond and stability for the things that were made the Divine power and skill was implanted in the growth of things guiding all things with the reins of a double operation for it was by rest and motion that it devised the genesis of the things that were not and the continuance of the things that are driving around about the heavy and changeless element contributed by the creation that does not move as about some fixed path the exceedingly rapid motion of the sphere like a wheel and preserving the indissolubility of both by their mutual action as the circling substance by its rapid motion compresses the compact body of the earth round about while that which is firm and unyielding by reason of its unchanging fixedness continually augments the whirling motion of those things which revolve round it and intensity is produced in equal measure in each of the natures which thus differ in their operation in the stationary nature I mean and in the mobile revolution for neither is the earth shifted from its own base nor does the heaven ever relax in its vehemence or slacken its motion
