life on a day to day basis Take for example the three deepest internalized principles of self awareness complete expression and three for eight and ten for thirty At the beginning of 2017 when I began to internally understand and practice these they allowed me to uncover and harness my passion which had always been loosely tied to business and people From becoming self aware and understanding my passions I began to completely express myself as who I am nothing more and nothing less which uncovered access to numerous untapped gifts and strengths I had no idea existed within me This is how my startup companies of Nector and Digital Proof came into being and also how my latest project Social Proof is unfolding These have all been created as a result of me following my passions from self awareness to completely expressing myself together with living the 365 principles expressed in this book From that point forward the world and my purpose therein became clear and the companies and teams I was able to build evolved effortlessly as if an unseen yet guiding hand was directing me I realized how everything had converged and as a result was able to continue adding more ideas and further innovation which led to me understanding that I had tapped into my purpose creating a bright and futuristic feeling Thereafter I followed the principle of three for eight and ten for thirty which is the view that the future is bright and my purpose is even brighter So the understanding that it will take a while to fully come to fruition leads to the realization and acceptance of the number of years I will have to keep moving toward my goals so as to reach who I was created to be With these principles the way is now clear and I wake every day with a sense of fulfillment regardless of the understanding of how long it may take I now know what the end feels and looks like which ultimately balances my passion and my purpose This is such a powerful state of mind and the greatest gift of wisdom that has been given to me by God the creator thus far By positioning myself for greatness and following these 365 drops of wisdom I wake up every day satisfied before Ive even reached my best self These principles are not mine alone but they are ours to share with all I truly hope that my journey in following these 365 truths is emulated by many others and that they also reap the benefits and future they richly deserve The present is bright the past is forgotten and the future is clear

Go Beyond Passion Christopher James Lawrence,2016-03-16 Wouldn t it be nice if you could discover the job you were born to do without feeling like you were selling your soul just to earn a decent salary Choosing a career in today s world is more difficult than it has ever been With billions of people working on our planet we have more career options available to us than ever before The search to discover meaning and purpose in our lives has created turmoil for millions of people every day The most common phrase among dissatisfied workers is I want to do something I m passionate about but passion can be fleeting Career and life coach Christopher James Lawrence shows readers how to go beyond passion to discover create and obtain the career that they were born to do Learn why work life balance is not achievable and what can be done about it Discover five key myths that many people who are dissatisfied in their careers experience and why this keeps them from discovering their dream jobs Finally go through a five step evolution that guides readers to discover the career and life they were meant to have In this nontraditional approach to career discovery the

reader is taken through a robust program that allows them to look at every aspect of their lives and how they want to live while at the same time discovering the job that leaves them feeling fulfilled Too often traditional career counselling has relied on personality and skills assessments This approach ultimately leads to the client receiving a list of job titles Job titles do not describe the day to day activities that a client will be doing they do not take into account the clients ethics morals or values and they don t consider healthy living job satisfaction or for some spirituality As working adults we spend the best part of our days at work In fact the best parts of our lives are spent at work too Doesn t this mean that we better love what we do to earn a living so that the best parts of our days and lives are enjoyable Absolutely Remember it is not just about your job it s about your whole life

And ultimately the inspiration you need to achieve your dreams and goals *Don Quixote. The Leadership of Near-Win*
Beppe Carrella,2019-07-23 What can Don Quixote patron saint of the resilient dauntless champion of near victories teach us
about leadership And who much like him wouldn t want to be a knight To live a thousand adventures to amaze and astonish
to be rewarded with fame to be the carrier of great ideals and values What happened to that dream We are so quick to label
believers as fools and who is more of a dreamer than the don Someone who lost his marbles who has started to see beauty in
his surroundings Who calls the truth of this world into question The don has a vision which compels him to set off with nag
and squire just moving forward We too might become the heroes of the story one failure after the other Uphold our ideals
when everything around us is falling apart Take our talent into our own hands And well to quote Will Eisner it doesn t matter
whether Don Quixote truly existed what matters is that his dream did Foreword by Cristina Koch *History of Modern Soy*
