Passion For The Possible:

A Passion For the Possible Jean Houston, 1997-08-26 Heralded and championed by Deepak Chopra and Marianne Williamson Jean Houston has served as an advisor to President and Hillary Rodham Clinton and she worked closely with Mary Catherine Bateson in helping Hillary Clinton write *It Takes a Village* Now comes her most accessible book yet the companion to her PBS special **A Passion for the Possible** Brian Treanor, Henry Isaac Venema, 2010 Paul Ricoeur's entire philosophical project narrates a passion for the possible expressed in the hope that in spite of death closure and sedimentation life is opened by superabundance by how the world gives us much more than is possible Ricoeur's philosophical anthropology is a phenomenology of human capacity which gives onto the groundless ground of human being namely God Thus the story of the capable man beginning with original goodness held captive by a servile will and ending with the possibility of liberation and regeneration of the heart underpins his passion for the more than possible The essays in this volume trace the fluid movement between phenomenological and religious descriptions of the capable self that emerges across Ricoeur's oeuvre and establish points of connection for future developments that might draw inspiration from this body of thought **The Passionate Mind of Maxine Greene** William F. Pinar, William Pinar, 1998 This collection of work is an analysis and investigation into Maxine Greene the most important philosopher of education in the United States today The book opens and concludes with Greene's own autobiographical statements *Follow Your Passion, Find Your Power* Bob Doyle, 2011-06-01 Wondering how to make the Law of Attraction work in your life With the publication of *The Secret* the Law of Attraction has become a worldwide phenomenon Yet many people are still not getting the results they want and have been left disappointed and confused Now motivational coach Bob Doyle one of the teachers featured in the film version of *The Secret* dispels the misconceptions and myths about the Law of Attraction and offers a practical easy to use program for creating abundance and happiness Doyle addresses head on the objections questions and comments that many still have about creating abundance to get the things they want in life *Follow Your Passion Find Your Power* is a down to earth no hype motivational approach to take control of your life and get the things you want Doyle makes it clear that the Law is not a personal development tool you can use the right way or the wrong way it's a profound statement of how energy works in the universe It has to do with paying attention recognizing where you are and aggressively striving for what you want It is all about passion vision and purpose Get clear on your vision for your life and follow a step by step plan to live your life by design **Act of Passion** Georges Simenon, 1952 **Passion to Protect** Colleen Thompson, 2012-11-01 Hotshot wilderness firefighter Jake Whitaker had been lucky to escape a massive blaze with his life Now with a body as scarred as his heart the last thing he needs much less wants is to see his first love walk back into his life With her abusive marriage behind her Liane Mason brought her children home to Wolf River Lodge in a search for peace a peace she can maintain only by keeping a cool distance from Jake But when her children become hostages in a murderous plan Jake is the only one she can

turn to And while love may never die a passionate hatred can kill In a battle of love versus vengeance which side will win

Dalferth,2023-02-20 For Kierkegaard the most important thing in life is to become a single individual or a true self We are all born as human beings but this makes us only members of a crowd not true selves To become a true self we must transcend what we are at any given time and orient ourselves to the possible and to the actuality of the possible to which all that is possible owes itself True selves exist only in becoming they are fragile and that is their

strength They are not grounded by their own activities but in a reality extra se the flip side of which is a deep passivity that underlies all their activity and allows them to continually leave themselves and move beyond their respective actualities toward the new and the possible Therefore without the passion of possibility there is no truly single individual This study of Kierkegaard s post metaphysical theology outlines his existential phenomenology of the self by exploring in three parts what Kierkegaard has to say about the sense of self finitude uniqueness self interpretation and alienation about selfless passion anxiety trust hope and true love and about how to become a true self a Christian in Christendom and a neighbor of God s neighbors

A Passion for Ignorance Renata Salecl,2022-11-29 An original and provocative exploration of our capacity to ignore what is inconvenient or traumatic Ignorance whether passive or active conscious or unconscious has always been a part of the human condition Renata Salecl argues What has changed in our post truth postindustrial world is that we often feel overwhelmed by the constant flood of information and misinformation It sometimes seems impossible to differentiate between truth and falsehood and as a result there has been a backlash against the idea of expertise and a rise in the number of people actively choosing not to know The dangers of this are obvious but Salecl challenges our assumptions arguing that there may also be a positive side to ignorance and that by addressing the role of ignorance in society we may also be able to reclaim the role of knowledge Drawing on philosophy social and psychoanalytic theory popular culture and her own experience Salecl explores how the passion for ignorance plays out in many different aspects of life today from love illness

trauma and the fear of failure to genetics forensic science big data and the incel movement and she concludes that ignorance is a complex phenomenon that can on occasion benefit individuals and society as a whole The result is a fascinating investigation of how the knowledge economy became an ignorance economy what it means for us and what it tells us about the world today
