What if getting into your reach schools didn't require four years of excessive AP classes, overwhelming activity schedules, and constant stress? In *How to Be a High School Superstar*, Cal Newport explores the world of relaxed superstars: students who scored spots at the nation's top colleges by leading uncluttered, low-stress and authentic lives. Drawing from extensive interviews and cutting-edge science, Newport explains the surprising truths behind these superstars' mixture of happiness and admissions success, including why doing less is the foundation for becoming more impressive, why demonstrating passion is meaningless but being interesting is crucial, and why accomplishments that are hard to explain are better than accomplishments that are hard to do. These insights are accompanied by step-by-step instructions to help any student adopt the relaxed superstar lifestyle, proving that getting into college doesn't have to be a chore to survive but instead can be the reward for living a genuinely interesting life.

**The Rugged Entrepreneur** Scott Andrew, 2021-01-12 Have you ever dreamed about owning your own business? Maybe becoming a market disruptor? Would you know where to start? Do you have a coach, a mentor, or a teacher who can show you how? Well, now you do. If we are lucky, we have been taught to dream since the time we were very young. If we are luckier still, we have also been taught to establish a sturdy foundation for those dreams to stand upon. When building the business you've always dreamed of, you must first establish a rock-solid foundation, something I've learned from many years of experience as a Rugged Entrepreneur. What is a Rugged Entrepreneur? It's what I call a special breed of entrepreneur. Ruggeders make the leap toward success in a way that separates them from the millions who fall short because they invest the time and effort to develop and hone the specific set of powerful skills you'll discover in these pages. I've identified four elements to becoming a Rugged Entrepreneur. These elements can be developed by anyone and are helpful to every type of entrepreneur. But all four of them are necessary to do the job well. The Four Foundational Elements of being a Rugged Entrepreneur are: A fervent work ethic, A humble and healthy pride (what I call Rugged Pride), Fortitudo mentis (aka mental toughness), and Faith. The Rugged Entrepreneur provides a roadmap to your journey of lasting self-discovery. It's about identifying and acquiring the skills to achieve sustained success and to build on top of that success. It's about passionately pursuing a productive business life for yourself and your family using the economic engines accessible to us all. But be warned: do not read this book if you do not want to be challenged.

 Moldoveanu,Nitin Nohria,2002-03-15 An exploration of the powerful role of anxiety ambition and envy in shaping both our  
 individual lives and society as a whole At the heart of the human experience lies anxiety caused by the realization that the  
 world is unknown forever eluding our control And out of this anxiety arises the master passions of ambition and envy which  
 we repress to mask their power over our lives Discussion of the role of the emotions in our lives is not new but Mihnea  
 Moldoveanu and Nitin Nohria go much further showing how these passions shape not only our individual lives but our social  
 and organizational culture as well The master passions are not pretty and so we cover them with the more socially acceptable  
 faces of reason and morality Moldoveanu and Nohria guide the reader in revealing the real impetus behind such actions as  
 firing a friend leaving a lover or even pillaging your own people Below the rational explanation they show often lies a  
 willingness to hurt or even destroy others to fuel our own ambitions or quench the fires of envy The authors offer intriguing  
 thought experiments and examples from their own lives as they expose the power of the master passions Deftly weaving

**Passion of the Western Mind** Richard Tarnas,2011-10-19 This magnificent critical survey with its inherent respect for both the Westt s mainstream high culture and the radically changing world of the 1990s offers a new breakthrough for lay and scholarly readers alike Allows readers to grasp the big picture of Western culture for the first time SAN FRANCISCO CHRONICLE Here are the great minds of Western civilization and their pivotal ideas from Plato to Hegel from Augustine to Nietzsche from Copernicus to Freud Richard Tarnas performs the near miracle of describing profound philosophical concepts simply but without simplifying them Ten years in the making and already hailed as a classic THE PASSION OF THE WESERN MIND is truly a complete liberal education in a single volume      **Action and Ethics in Aristotle and Hegel** Gary

Pendlebury,2017-07-05 Pendlebury alleges that abstraction and rationalization have had a strong and malign influence on normative moral philosophy in the 20th century Criticizing writers such as Hare Rawls and Scanlon for pursuing a conception of moral philosophy that bears little resemblance to the way in which human beings actually think and conduct themselves Pendlebury instead suggests a Virtue Ethics inspired by Hegel s and Aristotle s accounts of action as a corrective to this trend showing that moral activity is historically and socially based and must address the formed character of individual agents This trend which began with the responses by Locke Hume and Kant to Descartes Meditations rendered moral philosophy individualistic and psychologistic in contrast to Aristotle and Hegel s claim that man is essentially a social creature Pendlebury argues that this should be the starting point of any account and understanding of morality which roots the concept of will in the practical activity involved in being a member of an ethical community rather than an abstract metaphysical entity that is supposedly in the possession of individuals In providing a critique of modern moral philosophy from this perspective Pendlebury s line of enquiry lends much support to Virtue Ethics as exemplified in the work of Hursthouse and Slote while taking a more combative approach with those with whom he disputes In doing so he shows that serious considerations of continental philosophy highlights the richness of moral activity absent from analytical tradition
