## **Passion For Democracy American Essays:**

A Passion for Democracy Benjamin R. Barber, 2000-04-02 Benjamin Barber is one of America's preeminent political theorists. He has been a significant voice in the continuing debate about the nature and role of democracy in the contemporary world. *A Passion for Democracy* collects twenty of his most important writings on American democracy. Together they refine his distinctive position in democratic theory. Barber's conception of strong democracy contrasts with traditional concepts of liberal democracy, especially in its emphasis on citizen participation in central issues of public debate. These essays critique the thin representation of liberal democracy and buttress the arguments presented in Barber's twelve books, most recently in his well-received *Jihad vs McWorld: How Globalism and Tribalism Are Reshaping the World*. In these pieces, Barber argues for participatory democracy without dependence on abstract metaphysical foundations, and he stresses the relationship among democracy and civil society, civic education, and culture. *A Passion for Democracy* is divided into four sections. In the first, *American Theory: Democracy, Liberalism, and Rights*, Barber addresses issues of ongoing relevance to today's debates about the roots of participatory democracy, including individualism vs. community, the importance of consent, and the irrelevance of Marxism. Essays in the second section, *American Practice: Leadership, Citizenship, and Censorship*, provide a strong democracy critique of American democratic practice. *Education for Democracy: Civic Education Service and Citizenship* applies Barber's theories to three related topics and includes his much-discussed essay *America Skips School*. The final section, *Democracy and Technology: Endless Frontier or End of Democracy*, provides glimpses into a future that technology alone cannot secure for democracy. In his preface, Barber writes, "In these essays, I have been hard on my country. Like most ardent democrats, I want more for it than it has achieved, despite the fact that it has achieved more than most people have dared to want." This wide-ranging collection displays not only his passion for democracy but also his unique perspective on issues of abiding importance for the democratic process.

**Democracy in America** Alexis de Tocqueville, 2003-12 Offers an examination of American institutions and the fabric of American life. Doubting whether the American experiment in equality could work, the author conjectured that democracy would erect a society that would succumb to a different type of tyranny than that of a monarchy or aristocracy: that of the majority.

**Herbert Aptheker on Race and Democracy** Herbert Aptheker, 2006 Presenting a collection of essays by Aptheker, including topics like the maroons, black abolitionists, Reconstruction, and W. E. B. Du Bois, this book shows the critical connection between political commitment and the advancement of scholarship and points to Aptheker's central place in the development of African American studies.

Ambition in America Jeffrey A. Becker, 2014-04-18 One of the largest southern cities and a hub for the cotton industry, Memphis, Tennessee, was at the forefront of black political empowerment during the Jim Crow era. Compared to other cities in the South, Memphis had an unusually large number of African American voters. Black Memphians sought reform at the ballot box, formed clubs, ran for

office and engaged in voter registration and education activities from the end of the Civil War through the Brown v Board of Education decision of 1954 In this groundbreaking book Elizabeth Gritter examines how and why black Memphians mobilized politically in the period between Reconstruction and the beginning of the civil rights movement Gritter illuminates in particular the efforts and influence of Robert R Church Jr an affluent Republican and founder of the Lincoln League and the notorious Memphis political boss Edward H Crump Using these two men as lenses through which to view African American political engagement this volume explores how black voters and their leaders both worked with and opposed the white political machine at the ballot box River of Hope challenges persisting notions of a Solid South of white Democratic control by arguing that the small but significant number of black southerners who retained the right to vote had more influence than scholars have heretofore assumed Gritter s nuanced study presents a fascinating view of the complex nature of political power during the Jim Crow era and provides fresh insight into the efforts of the individuals who laid the foundation for civil rights victories in the 1950s and 60s

*Rhetorics for Community Action* Phyllis Mentzell Ryder, 2012-07-10 *Rhetorics for Community Action* Public Writing and Writing Publics by Phyllis Mentzell Ryder offers theory and pedagogy to introduce public writing as a complex political and creative action To write public texts we have to invent the public we wish to address Such invention is a complex task with many components to consider exigency that brings people together a sense of agency and capacity a sense of how the world is and what it can become All these components constantly compete against texts that put forward other public ideals opposing ideas about who really has power and who really can create change Teachers of public writing must adopt a generous response to those who venture into this arena Some scholars believe that to prepare students for public life university classes should partner with grassroots community organizations rather than nonprofits that serve food or tutor students They worry that a service related focus will create more passive citizens who do not rally and resist or grab the attention of government leaders or corporations With carefully contextualized study of an after school arts program an area soup kitchen and parks organizations among others Ryder shows that many so called service organizations are not passive places at all and she argues that the main challenge of public work is precisely that it has to take place among all of these compelling definitions of democracy Ryder proposes teaching public writing by partnering with multiple community nonprofits She develops a framework to help students analyze how their community partners inspire people to action and offers a course design that support them as they convey those public ideals in community texts But composing public texts is only part of the challenge Traditional newspapers and magazines through their business models and writing styles reinforce a dominant role for citizens as thinking and reading but not necessarily acting This civic role is also professed in the university where students are taught writing that extends inquiry Phyllis Mentzell Ryder s *Rhetorics for Community Action* Public Writing and Writing Publics turns to the rhetorical practices of nondominant American communities and counterpublics whose resistance to good public speech and proper public behavior reveals alternate modes

of composing and acting in democracy     The Persuasion Handbook James Price Dillard, 2002 Vienna 1909 When the celebrated actor Eugen Bischoff is found dead in his garden pavilion suspicion falls immediately on Baron von Yosch a well to do army officer who was once the lover of the dead man's wife By all appearances the door was locked from the inside when the two shots rang out the actor took his own life but someone or something drove him to it The baron sets out to learn all he can about the actor's death in order to clear his name Meanwhile within a few days similar apparent suicides are reported What started out as a straightforward quest to establish Bischoff's last deeds and discover the truth of his death becomes a search through the ages for an invisible enemy identified only by the actor's dying breath when he whispered the Day of Judgment Leo Perutz combines his hallmark blend of suspense and the fantastic in this spine tingling mystery

**Compassion and Education** Andrew Peterson, 2016-12-01 This book makes a defence of compassion as an essential and significant quality that should be at the heart of the education of young people It provides a careful exploration of what compassion means how it is relevant to the various relationships among students teachers and the wider community and the particular pedagogical processes that can and might develop compassion Understanding and justifying compassion as a virtue this book argues that compassion is a virtue central to all human relationships from the familial to the communal and to the global It will be of interest to academics research and students of education     **The Truth of Power** Benjamin R.

Barber, 2001 Ideas and the presidency flirt with each other but can they really get along My Affair with Clinton captures how the president's seductive charisma and the high hopes of the 60s generation came together in an exhilarating and disappointing affair     If Mayors Ruled the World Benjamin R. Barber, 2013-11-05 In the face of the most perilous challenges

of our time climate change terrorism poverty and trafficking of drugs guns and people the nations of the world seem paralyzed The problems are too big for governments to deal with Benjamin Barber contends that cities and the mayors who run them can do and are doing a better job than nations He cites the unique qualities cities worldwide share pragmatism civic trust participation indifference to borders and sovereignty and a democratic penchant for networking creativity innovation and cooperation He demonstrates how city mayors singly and jointly are responding to transnational problems more effectively than nation states mired in ideological infighting and sovereign rivalries The book features profiles of a dozen mayors around the world making a persuasive case that the city is democracy's best hope in a globalizing world and that great mayors are already proving that this is so     *Con\$umed* Benjamin R. Barber, 2007 An examination of the effects of capitalism on American culture and society reveals how consumer capitalism overproduces goods targets children as consumers and replaces public goods with private commodities     **Cool Cities** Benjamin R. Barber, 2017-04-24 A pointed

argument that cities not nation states can and must take the lead in fighting climate change Climate change is the most urgent challenge we face in an interdependent world where independent nations have grown increasingly unable to cooperate effectively on sustainability In this book renowned political theorist Benjamin R Barber describes how cities by

assuming important aspects of sovereignty can take the lead from faltering nation states in fighting climate change Barber argues that with more than half the world's population now in urban areas where 80 percent of both GDP and greenhouse gas emissions are generated cities are the key to the future of democracy and sustainability In this compelling sequel to *If Mayors Ruled the World* Barber assesses both broad principles of urban rights and specific strategies of sustainability such as fracking bans walkable cities above ground mining of precious resources energy and heating drawn from garbage incineration downtown wind turbines and skyscrapers built from wood He shows how cities working together on climate change despite their differences in wealth development and culture can find common measures by which to evaluate the radically different policies they pursue This is a book for a world in which bold cities are collaborating to combat climate change and inspire hope for democracy even as reactionary populists take over national governments in the United States and Europe It calls for a new social contract among citizens and municipalities to secure not only their sustainability but their survival

*Consumed: How Markets Corrupt Children, Infantilize Adults, and Swallow Citizens Whole* Benjamin R. Barber, 2008-03-17 Powerful and disturbing No one who cares about the future of our public life can afford to ignore this book Jackson Lears A powerful sequel to Benjamin R Barber's best selling *Jihad vs McWorld* *Consumed* offers a vivid portrait of a global economy that overproduces goods and targets children as consumers in a market where there are never enough shoppers and where the primary goal is no longer to manufacture goods but needs Disturbing provocative and compelling this book examines phenomena as seemingly disparate as adolescent fashion trends for adults megachurches declining voter participation the privatization of the public sphere branding and the rise of online shopping to show how the freedoms of the free market have undermined the freedoms of the deliberative adult citizen Barber brings together extensive empirical research with an original theoretical framework for understanding our contemporary predicament

**Democratic Education and the Teacher-As-Prophet** Jeffery Dunn, 2018-06-28 This volume aims to reveal how Dewey's notion of the religious understood as faith in the human relational condition offers a way to think differently about the aims and purposes of education After exploring the effects of neoliberal conceptions of schooling against broader democratic forms of education this book suggests that Dewey's vision of the teacher as prophet is a useful model for positioning teachers as agents of social change By catalysing the religious work of schools understood not as teaching religion but as a process of social unification the Deweyan teacher as prophet can stimulate experimentation towards a democratic ideal of schooling

**Defending**

**Privilege** Nicole Mansfield Wright, 2020-03-10 A critique of attempts by conservative eighteenth and nineteenth century authors to appropriate the rhetoric of victimhood and appeals to rights to safeguard the status of the powerful As revolution and popular unrest roiled the final decades of the eighteenth century authors activists and philosophers across the British Empire hailed the rise of the liberal subject valorizing the humanity of the marginalized and the rights of members of groups long considered inferior or subhuman Yet at the same time a group of conservative authors mounted a reactionary attempt to cultivate sympathy for the privileged In *Defending Privilege* Nicole Mansfield Wright examines works by Tobias Smollett Charlotte Smith Walter Scott and others to show how conservatives used the rhetoric of victimhood in attempts to convince ordinary readers to regard a privileged person's loss of legal agency as a catastrophe greater than the calamities and legally sanctioned exclusion suffered by the poor and the enslaved In promoting their agenda these authors resuscitated literary modes regarded at the time as derivative or pass including romance the gothic and epistolarity or invented subgenres that are neglected today due to widespread revilement of their politics the proslavery novel Although these authors are not typically considered alongside one another in scholarship they are united by their firsthand experience of legal conflict each felt that their privilege was degraded through lengthy disputes In examining the work of these eighteenth and early nineteenth century authors Wright traces a broader reactionary framework in the Anglophone literary legacy Each novel seeks to reshape and manipulate public perceptions of who merits legal agency the right to initiate a lawsuit serve as a witness seek counsel from a lawyer and take other legal actions As a result *Defending Privilege* offers a counterhistory to scholarship on the novel's capacity to motivate the promulgation of human rights and champion social ascendance through the upwardly mobile realist character
