## **Passion In Theory Conceptions Of Freud And Lacan:**

*Passion in Theory* Robin Ferrell, 2006-08-21 Philosophy had either ignored or attacked psychoanalysis such responses are neither warranted nor helpful One hundred years after its inception isn't it time to find out what psychoanalysis has to offer us In *Passion in Theory* Robyn Ferrell does just that and returns with some surprising answers Concentrating on the work of Freud and Lacan Robyn Ferrell asks why their work had been so influential in European philosophy yet so marginal in the Anglo American circles *Passion in Theory* explores their conception of the relationship between mind and body and how it provides a key to many current philosophical questions *Passion in Theory* is designed for students and researchers in psychoanalysis traditional and continental philosophy

**The Mind's Affective Life** Gemma Fiumara Corradi, 2014-06-11 The *Mind's Affective Life* is a refreshing and innovative examination of the relationship between feeling and thinking Our thoughts and behaviour are shaped by both our emotions and reason yet until recently most of the literature analysing thought has concentrated largely on philosophical reasoning and neglected emotions This book is an original and provocative contribution to the rapidly growing literature on the neglected affective dimensions of modern thought The author draws on contemporary psychoanalysis philosophy feminist theory and recent innovations in neuroscience to argue that in order to understand thought we need to consider not only both emotional and rational aspects of thought but also the complex interactions between these different aspects Only through such a rich and complicated understanding of modern thought can we hope to avoid what the author identifies as a significant contemporary problem for individuals and cultures that is suppression or denial of intolerable states of feeling The *Mind's Affective Life* will appeal to and inspire students and practitioners of philosophy psychoanalysis psychotherapy and women's studies It will also be of great interest to anyone interested in the interaction of feeling and thinking

**The Cambridge Companion to Lacan** Jean-Michel Rabaté, 2003-07-31 This collection of specially commissioned essays by academics and practising psychoanalysts first published in 2003 explores key dimensions of Jacques Lacan's life and work Lacan is renowned as a theoretician of psychoanalysis whose work is still influential in many countries He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline Advocating a return to Freud by which he meant a close reading in the original of Freud's works he stressed the idea that the unconscious functions like a language All essays in this *Companion* focus on key terms in Lacan's often difficult and idiosyncratic developments of psychoanalysis This volume will bring fresh accessible perspectives to the work of this formidable and influential thinker These essays supported by a useful chronology and guide to further reading will prove invaluable to students and teachers alike

**The SAGE Handbook of Feminist Theory** Mary Evans, Clare Hemmings, Marsha Henry, Hazel Johnstone, Sumi Madhok, Ania Plomien, Sadie Wearing, 2014-08-12 At no point in recorded history has there been an absence of intense and heated discussion about the subject of how to conduct relations between women and men This Handbook provides a comprehensive guide to these

omnipresent issues and debates mapping the present and future of thinking about feminist theory The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality Literary visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences

*Encyclopedia of Feminist Theories* Lorraine Code, 2002-06-01 The path breaking Encyclopedia of Feminist Theories is an accessible multidisciplinary insight into the complex field of feminist thought The Encyclopedia contains over 500 authoritative entries commissioned from an international team of contributors and includes clear concise and provocative explanations of key themes and ideas Each entry contains cross references and a bibliographic guide to further reading over 50 biographical entries provide readers with a sense of how the theories they encounter have developed out of the lives and situations of their authors

Sex, the Self, and the Sacred Colleen Ryan-Scheutz, 2007-01-01 Drawing upon Italy's distinct socio cultural history as well as feminist and psychoanalytic approaches to film Colleen Ryan Scheutz explores the ways in which Pasolini's representations of women reveal his concerns about the corruption of modern society

*Copula* Robyn Ferrell, 2012-02-01 How will the ability to manipulate human reproduction change our social world and the relationship between the sexes Taking an explicitly interdisciplinary approach to gender and reproductive technology Robyn Ferrell examines this question in the light of feminist theories of sexual equality and sexual difference arguing that technology itself can be seen as a kind of reproduction Invoking a concept of reproduction that understands it as generic Ferrell asserts that in any reproduction something is produced of a kind that was there before and yet that is also new Technology is therefore generically reproductive since it produces new matter of the same kind In addition to key figures in French feminism Ferrell draws from psychoanalysis and contemporary continental thinkers ranging from Heidegger to Haraway

**Poststructuralist Geographies** Marcus A. Doel, 1999 This work is the first attempt to integrate poststructuralist thought with the insights of critical human geography Doel does not seek to make conventional approximations of poststructuralist concepts but to rethink and rewrite the world through them

**Confronting Patriarchy** Mary Boufis Filou, 2009 Confronting Patriarchy Psychoanalytic Theory in the Prose of Cristina Peri Rossi examines three works of the contemporary Uruguayan author who lives in exile as she dialogues with the psychoanalytic discourse endemic

to patriarchal society Peri Rossi's prose structured like unconscious productions that give free expression to desire and passion as emanating from the forbidden recesses of the psyche powerfully reveals the message as a treatment for an ill society The language in the three works studied facilitates and reveals the male protagonist's interaction with the desired female object as a regression to a semiotic pre oedipal state in a type of return of the repressed of consuming desire that has been written out of mainstream patriarchy and that serves to challenge its rational symbolic order It is from this vantage point that the author attempts to re write the conclusions obtained through Lacanian and patriarchal discourse so that woman can emerge as a subject in her own right

*The Antipodean Philosopher* Graham Robert Oppy, Graham Oppy, Nick Trakakis, 2011-01-01 This volume presents an accessible and engaging collection of essays by prominent Australasian philosophers covering a wide array of topics and drawn from a series of public lectures on Philosophy in Australia and Zealand convened over a period of four years The essays explore the rich philosophical past of Australasia while also illustrating why philosophy in Australasia ranks highly in influence and esteem

**Living Attention** Alice A. Jardine, Shannon Lundeen, Kelly Oliver, 2012-02-01 As an internationally respected feminist philosopher radical social and political theorist and tireless activist Teresa Brennan 1952-2003 was one of the most provocative thinkers of our time *Living Attention* is a tribute to the significance of her thought and a testament to the transformative power of her life This book demonstrates the scope of Brennan's thought as it continues to challenge academics public intellectuals and government leaders Her concerns ranged from the implications of psychoanalytic theory to relations between men and women to the effects of globalization on our ecological system The contributors to this volume from a broad variety of disciplines including philosophy literature government literary and critical theory and women's studies take up Brennan's call to radical thinking and by examining different aspects of Brennan's work critically engage with her oeuvre

*Social Theory, Psychoanalysis and Racism* Simon Clarke, 2017-03-04 Sociological explanations of racism tend to concentrate on the structures and dynamics of modern life that facilitate discrimination and hierarchies of inequality In doing so they often fail to address why racial hatred arises as opposed to how it arises as well as to explain why it can be so visceral and explosive in character Bringing together sociological perspectives with psychoanalytic concepts and tools this text offers a clear accessible and thought provoking synthesis of varieties of theory with the aim of clarifying the complex character of racism discrimination and social exclusion in the contemporary world

**Theories of Race and Ethnicity** Karim Murji, John Solomos, 2015-01-08 An authoritative and cutting edge collection of theoretically grounded and empirically informed essays exploring the contemporary terrain of race and racism

**Differential Aesthetics** Penny Florence, Nicola Foster, 2017-11-30 This title was first published in 2000 This is an interdisciplinary and international collection on aesthetics with contributions from artists and philosophers and the range of thinkers about art in between It aims to provide a forum for the kinds of question that used to be addressed within traditional aesthetics but which have until recently been sidelined in critical writing about

art and indeed in many of the most important art practices The collection as a whole is situated in relation to feminists approaches but the editors hope that it will not be read as limited to them      **Subjectivity and Intersubjectivity in**

**Modern Philosophy and Psychoanalysis** Roger Frie,1997 Using a European style of analysis Frie examines the complex relationship between the theories of intersubjectivity subjectivity language and love in the work of a diverse body of philosophers and psychoanalysts      *Engaging Film* Tim Cresswell,Deborah Dixon,2002-03-20 Engaging Film is a creative

interdisciplinary volume that explores the engagements among film space and identity and features a section on the use of films in the classroom as a critical pedagogical tool Focusing on anti essentialist themes in films and film production this book examines how social and spatial identities are produced or dissolved in films and how mobility is used to create different experiences of time and space From popular movies such as Pulp Fiction Bulworth Terminator 2 and The Crying Game to home movies and avant garde films the analyses and teaching methods in this collection will engage students and researchers in film and media studies cultural geography social theory and cultural studies      *New Media* Kelli

Fuery,2017-09-16 New media is becoming integral to our lives But for how long can we refer to emerging media as new in this fast moving digital age What makes it new And what problems do interactive media create for us as cultural beings This book investigates the culture and context of new media Exploring and critiquing debates drawn from media and cultural theory Fuery clearly explores and defines the concepts of new media and interactivity With a clear and structured approach the book questions existing ideas about digital culture and explains the problems that emerging technologies can present to our culture from issues of surveillance and power to the digitalisation of the body In particular the book includes A variety of perspectives and approaches to the idea of the new Consideration and evaluation of work from key media theorists from Foucault to Bourdieu Relevant and innovative examples that bring the complexities of new media to life A glossary for quick reference and explanation of complex concepts New Media Culture and Image interrogates the key concepts models and approaches surrounding the formation and evolution of new media It will encourage all students of Cultural Studies and Media Studies to question and reconsider their ideas about media and cultural theory      Lacan, Psychoanalysis, and

Comedy Patricia Gherovici,Manya Steinkoler,2016-08-02 This collection of essays explores laughter humor and the comic from a psychoanalytic perspective Edited by two leading practicing psychoanalysts and with original contributions from Lacanian practitioners and scholars this cutting edge volume proposes a paradigm swerve a Freudian slip on a banana peel Psychoanalysis has long been associated with tragedy and there is a strong warrant to take up comedy as a more productive model for psychoanalytic practice and critique Jokes and the comic have not received nearly as much consideration as they deserve given the fundamental role they play in our psychic lives and the way they unite the fields of aesthetics literature and psychoanalysis Lacan Psychoanalysis and Comedy addresses this lack and opens up the discussion      **Dangerous**

**Discourses of Disability, Subjectivity and Sexuality** M. Shildrick,2009-08-28 This innovative and adventurous work now

in paperback uses broadly feminist and postmodernist modes of analysis to explore what motivates damaging attitudes and practices towards disability The book argues for the significance of the psycho social imaginary and suggests a way forward in disability s queering of normative paradigms      *Between Winnicott and Lacan* Lewis A. Kirshner, 2011-03-25 D W

Winnicott and Jacques Lacan are arguably two of the most important psychoanalytic theoreticians since Freud and somewhat ironically seemingly two of the most incompatible Lewis Kirshner and his colleagues attempt to demonstrate how the intellectual contributions of these two figures such as Winnicott s self and Lacan s subject complement productively despite their apparent contrast Throughout the book their major concepts are clarified and differentiated but always with an eye toward points of intersection and a more effective psychoanalytic practice Furthermore these contri
