

*the passionate camera photography and politics of desire*  
edited by **deborah bright**

*the passionate camera* brings together over fifty artists, scholars, and critics to document and celebrate the explosive growth in independent and radical photographic work over the past decade. The essays range from conventional scholarly writing to personalized memoirs, short fiction, and self-interviews.

*the authors* present provocative queer readings of photographs from diverse historical archives, investigate critical approaches to the photographing of outlawed desire, and document militant activism, conservative backlash, and the effects of triumphant consumer capitalism.

*the passionate camera* provides both a history of queer and sex-radical photography and a showcase for many of the most exciting and innovative contemporary artists and photographers, whose work has been inspired by militancy and mourning in the wake of AIDS and bolstered by the growth of queer studies.

*Illustrated* with nearly two hundred black and white and color plates, *the passionate camera* features work from artists as diverse as Ajana, Rotimi Fani-Kayode, Felix Gonzalez-Torres, Scott Geyse, Lyle Ashton Harris, Glenn Ligon, Youssef Mounim, Catherine Opie, Hank Thi Pham, and John O'Reilly. Gathering these works together for the first time in a critical, lucid, and accessible context, *the passionate camera* is a prominent source on queer and sex-radical photography at the end of the twentieth century.

ubiquitous too unremarkable too personal Zuromskis argues for its significance Snapshot photographers she contends are not so much creating spontaneous records of their lives as they are participating in a prescriptive cultural ritual A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of domestic harmony to public ideas of social conformity Through a series of case studies Zuromskis explores the social life of snapshot photography in the United States in the latter half of the twentieth century She examines the treatment of snapshot photography in the 2002 film *One Hour Photo* and in the television crime drama *Law and Order: Special Victims Unit* the growing interest of collectors and museum curators in vintage snapshots and the snapshot aesthetic of Andy Warhol and Nan Goldin She finds that Warhol's photographs of the Factory community and Goldin's intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of family values In today's digital age snapshot photography has become even more ubiquitous and ephemeral and significantly more public But buried within snapshot photography's mythic construction Zuromskis argues is a site of democratic possibility
