

A serene sunset scene at a beach. The sky is a mix of orange, yellow, and blue, with the sun low on the horizon. Waves are crashing onto the shore, creating white foam. The sand is a warm golden-brown color. A large, dark shadow of a person is cast onto the sand in the foreground. The overall mood is peaceful and reflective.

And let to-day embrace the
past with remembrance
and the future with longing.

Past Future Remembrances

Robert R. Archibald

Past Future Remembrances:

Prophetic Remembrance Erica Still, 2014-12-17 Using the term prophetic remembrance to articulate the expression of a constituent faith in the performative capacity of language Erica Still shows how black subjectivity is born of and interprets cultural trauma She brings together African American neo slave narratives and Black South African postapartheid narratives to reveal the processes by which black subjectivity accounts for its traumatic origins names the therapeutic work of the present and inscribes the possibility of the future The author draws on trauma studies black theology and literary criticism as she considers how writers such as Toni Morrison Charles Johnson John Edgar Wideman David Bradley Sindiwe Magona K Sello Duiker and Zakes Mda explore the possibilities for rehearsing a traumatic past without being overcome by it Although both African American and South African literary studies have addressed questions of memory narrative and trauma little comparative work has been done *Prophetic Remembrance* offers this comparative focus in reading these literatures together to address the question of what it means to remember and to recover from racial oppression

Frames of Remembrance Iwona Irwin-Zarecka, 2017-07-05 What is the symbolic impact of the Vietnam War Memorial How does television change our engagement with the past Can the efforts to wipe out Communist legacies succeed Should victims of the Holocaust be celebrated as heroes or as martyrs These questions have a great deal in common yet they are typically asked separately by people working in distinct research areas in different disciplines *Frames of Remembrance* shares ideas and concerns across such divides

Transgenerational Remembrance Jessica Nakamura, 2020-01-15 In *Transgenerational Remembrance* Jessica Nakamura investigates the role of artistic production in the commemoration and memorialization of the Asia Pacific War 1931-1945 in Japan since 1989. During this time survivors of Japanese aggression and imperialism previously silent about their experiences have sparked contentious public debates about the form and content of war memories. The book opens with an analysis of the performance of space at Yasukuni Shinto Shrine which continues to promote an anachronistic veneration of the war. After identifying the centrality of performance in long-standing dominant narratives, *Transgenerational Remembrance* offers close readings of artistic performances that tackle subject matter largely obscured before 1989: the kamikaze pilot, Japanese imperialism, comfort women, the Battle of Okinawa, and Japanese American internment. These case studies range from Hirata Oriza's play series about Japanese colonial settlers in Korea and Shimada Yoshiko's durational performance about comfort women to Kondo Aisuke's videos and gallery installations about Japanese American internment. Working from theoretical frameworks of haunting and ethics, Nakamura develops an analytical lens based on the Noh theater ghost. Noh emphasizes the agency of the ghost and the dialogue between the dead and the living. Integrating her Noh-inflected analysis into ethical and transnational feminist queries, Nakamura shows that performances move remembrance beyond current evidentiary and historiographical debates.

The New Town Square Robert R. Archibald, 2004-05-17 In this lyrical volume, Robert R. Archibald explores a growing crisis of modern America: the dissolution of place that leads to a dangerous rupture of community. Community, born historically within the collective space of the town,

square where citizens come together to share stories and make meaning of their common histories_is dissipating as Americans are increasingly isolated from that shared space and are being submerged into an individualistic consumer monoculture with disregard for the common good This volume examines how public history museums and historians can help restore community by offering a source of identity for people and their places becoming a wellspring of community and an incubator of democracy a consciousness of connection with a responsibility to those in our past and future The New Town Square offers its readers a space to understand and celebrate the shared space of community and is a vital resource for public historians and those interested in restoring the meaning of community The Way of Jesus Christ Jürgen

Moltmann,1995-08-21 The Way of Jesus Christ discusses the following topics 1 The symbol of the way embodies the aspect of process and brings out christology's alignment towards its goal This symbol can comprehend Christ's way from his birth in the Spirit and his baptism in the Spirit to his self surrender on Golgotha It also makes it possible to understand the path of Christ as the way leading from his resurrection to his parousia the way he takes in the Spirit to Israel to the nations and into the breadth and depth of the cosmos 2 The symbol of the way makes us aware that every human christology is historically conditioned and limited Every human christology is a christology of the way not yet a christology of the home country a christology of faith not yet a christology of sight So christology is no more than the beginning of eschatology and eschatology as the Christian faith understands it is always the consummation of christology 3 Finally but not least important every way is an invitation A way is something to be followed The way of Jesus Christ is not merely a christological category It is an ethical category too Anyone who enters upon Christ's way will discover who Jesus really is and anyone who really believes in Jesus and the Christ of God will follow him along the way he himself took Christology and christopraxis find one another in the full and completed knowledge of Christ This christology links dogmatics and ethics in closer detail than in the previous volumes

Remembrance of Things Present Nick Yablon,2019-06-12 Time capsules offer unexpected insights into how people view their own time place and culture as well as their duties to future generations *Remembrance of Things Present* traces the birth of this device to the Gilded Age when growing urban volatility prompted doubts about how the period would be remembered or if it would be remembered at all Yablon details how diverse Americans from presidents and mayors to advocates for the rights of women blacks and workers constructed prospective memories of their present They did so by contributing not just written testimony to time capsules but also sources that historians and archivists considered illegitimate such as photographs phonograph records films and everyday artifacts By offering a direct line to posterity time capsules stimulated various hopes for the future *Remembrance of Things Present* delves into these treasure chests to unearth those forgotten futures **Beyond Superlatives** Roland Faber,J. R. Hustwit,Hollis Phelps,2014-04-23 This collection of essays drawn from the latest generation of Whitehead scholars explores how in the deconstruction of certain concepts an unceasing invitation of possibility and change is released both in relation to ongoing philosophical conversations and as applied to lived

experience The essays make a significant intervention in the field of Whiteheadian scholarship by creating new intersections and paths that extend Whitehead's thought in novel and often unexpected directions The philosophy of Alfred North Whitehead proposes a radical reconceptualization of experience one in which we and all other things are composed of mutually implicated series of events in an infinite universe of interaction generating and regenerating experience Far from indicating a new superlative of holistic integrity Whitehead prefers the always incomplete movement of all realities which is the source of vitality for every new generation This volume applies Whitehead's philosophy to superlatives those valued concepts that limit and define our categories amid the flux of experience The first half of this book probes the superlatives that have historically defined philosophical method in the West These essays trace the adventures of concepts like substance novelty system and truth Ossified oppositions that define these superlatives are fractured indicating new directions for growth The essays in the second half of the book reflect on the influx fragility and impossibility of superlatives like care tragedy love and loss in human experience generating new matters of philosophical discourse Superlatives abound But Whitehead cautions us to attend to their multiplicity The mutual immanence of events constantly generates new constellations of importance and so superlatives because they are contingent upon unstable modes of togetherness cannot be taken for granted Any of these concepts may have a particular significance today but as events coalesce into new constellations those ideals will continue to take on new meaning

Religious Resistance to Neoliberalism Keri Day, 2016-04-29 Religious Resistance to Neoliberalism offers compelling and intersectional religious critiques of neoliberalism Neoliberalism is the normative rationality of contemporary global capitalism that orders people to live by the generalized principle of competition in all social spheres of life Keri Day asserts that neoliberalism and its moral orientations consequently breed radical distrust lovelessness disconnection and alienation within society She argues that engaging black feminist and womanist religious perspectives with Jewish and Christian discourses offers more robust critiques of a neoliberal economy Employing womanist and black feminist religious perspectives this book provides six theoretical theologically constructive arguments to challenge the moral fragmentation associated with global markets It strives to envision a pragmatic politics of hope

Feminist Eschatology Emily Pennington, 2016-08-25 Many feminist theologians have made timely and valuable contributions to rethinking the eschaton by framing it as cyclical and by embracing endings as they are experienced by present relational fluid and sensuous bodies However any sense of eschatological finality or ultimacy has either been rejected or ignored Feminist Eschatology seeks to think differently about Christian eschatology in light of contributions from feminist theologians noting the numerous and varied critiques they have made of traditional models These critiques are identified as being directed towards three key claims eschatology is understood to be actuated by a domineering God populated by masculinised beings and disassociated from present lives Using a form of strategic feminism wherein traits associated with female bodies and some women's experiences of their bodies are used to rethink the end time

of the eschaton this book contributes to the meaning and significance of both bodies and eschatology *Remembrance and Forgiveness* Ajlina Karamahić-Muratović, Laura Kromják, 2020-10-26 An enquiry into the social science of remembrance and forgiveness in global episodes of genocide and mass violence during the post Holocaust era this volume explores the ways in which remembrance and forgiveness have changed over time and how they have been used in more recent cases of genocide and mass violence With case studies from Rwanda Ethiopia South Sudan South Africa Australia Cambodia Indonesia Timor Leste Israel Palestine Argentina Guatemala El Salvador the United States Bosnia and Herzegovina and Chechnya the volume avoids a purely legal perspective to open the interpretation of post genocidal societies communities and individuals to global and interdisciplinary perspectives that consider not only forgiveness and thus social harmony but remembrance and disharmony This volume will appeal to scholars across the social sciences with interests in memory studies genocide remembrance and forgiveness

The Rhetoric of Remembrance Jerry Hwang, 2012-05-09 To whom is Moses speaking in Deuteronomy This question is controversial in OT scholarship Some passages in Deuteronomy indicate that Moses is addressing the first exodus generation that witnessed Horeb Deut 5 3 4 while other passages point to the second exodus generation that survived the wilderness Deut 1 35 2 14 16 Redaction critics such as Thomas R mer and John Van Seters view the chronological problems in Deuteronomy as evidence of multiple tradition layers Although other scholars have suggested that Deuteronomy s conflation of chronology is a rhetorical move to unify Israel s generations no analysis has thus far explored in detail how the blending of you and the fathers functions as a rhetorical device However a rhetorical approach to the fathers is especially appropriate in light of three features of Deuteronomy First a rhetorical approach recognizes that the repetitiveness of the Deuteronomic style is a homiletical strategy designed to inculcate the audience with memory The book is shot through with exhortations for Israel to remember the past Second a rhetorical approach recognizes that collective memory entails the transformation of the past through actualization for the present Third a rhetorical approach to Deuteronomy accords well with the book s self presentation as the words that Moses spoke 1 1 The book of Deuteronomy assumes a canonical posture by embedding the means of its own oral and written propagation thereby ensuring that the voice of Moses speaking in the book of Deuteronomy resounds in Israel s ears as a perpetually authoritative speech act The Rhetoric of Remembrance demonstrates that Deuteronomy depicts the corporate solidarity of Israel in the land promised to the fathers part 1 under the sovereignty of the same God of the fathers across the nation s history part 2 as governed by a timeless covenant of the fathers between YHWH and his people part 3 In the narrative world of Deuteronomy the fathers begin as the patriarchs while frequently scrolling forward in time to include every generation that has received YHWH s promises but nonetheless continues to await their fulfillment Hwang s study is an insightful innovative approach that addresses crucial aspects of the Deuteronomic style with a view to the theological effect of that style Jerry Hwang Ph D Wheaton College serves as Assistant Professor of Old Testament at Singapore Bible College

The Annihilation of Hell

Nik Ansell,2013-10-01 For Jürgen Moltmann Hell is the nemesis of Hope The annihilation of Hell thus refers both to Hell's annihilative power in history and to the overcoming of that power as envisioned by Moltmann's distinctive theology of the cross in which God becomes all in all through Christ's descent into Godforsakenness The negation of Hell and the fulfillment of history are inseparable Attentive to the overall contours and dynamics of Moltmann's thinking especially his *zimzum* doctrine of creation his eschatologically oriented philosophy of time and his expanded understanding of the nature-grace relationship this study asks whether the universal salvation that he proposes can honor human freedom promise vindication for those who suffer and do justice to biblical revelation As well as providing an in-depth exposition of Moltmann's ideas *The Annihilation of Hell* also explores how a covenantal universalism might revitalize our web of beliefs in a way that is attuned to the authorizing of Scripture and the spirituality of existence If divine and human freedom are to be reconciled as Moltmann believes the confrontation between Hell and Hope will entail rethinking issues that are not only at the center of theology but at the heart of life itself

Memories of Asaph Karl N. Jacobson, 2017-06-15 Although the Psalms of Asaph Pss 50 73 83 contain a concentration of historical referents unparalleled in the Psalter they have rarely attracted sustained historical interest Karl N Jacobson identifies these psalms as containing cultic historiography historical narratives written for recitation in worship and explores them through mnemohistory attending to how the past is remembered and to the rhetorical function of recitation in the cultic setting Jacobson describes mnemohistory at the intersection of memory and history explores the singularity of the rhetorical and formal aspects of remembrance in the Asaph material and discusses residual mnemohistory material that is not intentionally called to remembrance Jacobson shows that Asaph remembers the past as a movement from henotheism to a more orthodox form of Yahwism as the core memory that informs a new historical situation for worship participants By describing the way Asaph remembers Jacobson highlights symbolic and individualized elements of the psalms mnemohistorical work that earlier formal critical approaches failed to recognize
