Past Shock The Origin Of Religion And Its Impact On The Human Soul:

Past Shock Jack Barranger,1994-11 **Past Shock** Jack Barranger,1998-11 Alvin Toffler once coined the term future shock when people are overwhelmed by the future Past Shock suggests that events from thousands of years ago strongly impact humanity today It reveals why religion was created what organized religion wont tell you the reality of the slave chip programming that we all have what really happened in the Garden of Eden what the Tower of Babel was and why we were stopped from building it how we were conditioned by gods to remain spiritually ignorant and much more Exposes the pretender gods advanced beings who were not divine but had advanced knowledge of scientific principles including genetic engineering Our advanced science of today has begun to unravel their secrets Learn how to overcome the slave chip conditioning and begin living life as it was meant to be as a spiritually fulfilled being The Origin and Evolution of Religion Albert Churchward,2000 Other than Sir James Frazer The Golden Bough Churchward is the only person to have written such a monumental work on religion In it he encompasses the complete evolution of religious ideas over millions of years The first humans from Africa worshipped elemental powers progressed into ancestor worship then finally began to recognize what we could term a Great Spirit Some of our earliest mythological stories are told including tales of Resurrection journeys to the underworld and the first hero stories Also explored are the meanings and true origins of sun worship tree worship phallic worship and serpent worship Ends with something we should all take to heart our religious evolution is definitely not over

That Old-Time Religion Jordan Maxwell,Paul Tice,Alan Snow,2000 This book proves there is nothing new under the sun regarding many of our modern religious beliefs This includes Christianity and how many of its beliefs could be far older than what we have suspected It gives a complete run down of the stellar lunar and solar evolution of our religious systems and contains new long awaited exhaustive research on the gods and our beliefs *The History of the Christian Religion and Church During the First Three Centuries* Augustus Neander,2000-02 Neander was one of the greatest religious historians to have ever lived In this abbreviated version of a larger work he covers the current of Gnostic ideas during the formation of Christianity This topic is important because it outlines all of the competitive beliefs that were at work at the time and how they affected the Christian struggle in both good and bad ways This rare book may cause one to never look at Christianity in quite the same way again due to its immense scholarship and interesting array of facts **Space Travelers and the**

Genesis of the Human Form Joan D'Arc,2000 Can Darwinian evolution actually prove that we are alone in the Universe This book illustrates that Darwinian evolution is not an empirically predictable or testable scientific paradigm Also shows that ancient artifacts on Mars and the Moon are evidence of Game Wardens in our own solar system Could the Earth be a controlled DNA repository for the ongoing creation and dissemination of life forms including humans The author puts forth compelling evidence in this well researched work **Prodigal Genius** James O'Neill,2007-07 This was the first true biography written on the genius inventor Nikola Tesla The author was a personal friend of Tesla who once said the author

understood him better than any man An up close view into the mind of the inventor The immense genius of Tesla resulted from a mind that could see an invention in 3 D before it was built *Science of Breath* Yogi Ramacharaka,2007 Few people are aware of the true power of breath They take it for granted despite the fact that it is the most essential function for life This book may allow one for the first time to truly understand this power This powerful book reveals numerous exercises that will amaze and invigorate the reader **Experiments With Alternate Currents of High Potential and High Frequency** Nikola Tesla,2007-08 This was a lecture delivered by Tesla before the Institution of Electrical Engineers in London Alternate Current AC was in a large part created and perfected by Tesla His ideas and inventions were real and legitimate They revolutionized the world and many of his ideas could continue to do so well into the future [A Description of the Cards of the Tarot](#) Aleister Crowley,2007-07 This book originally appeared in Crowley s larger volume *The Equinox* in 1912 A complete and thorough study of all the cards Recommended to serious students of the tarot [The Human Aura](#) Swami Panchadasi,2005-02 The human aura is believed to be an energy field that surrounds the body Those gifted with a psychic sense and are able to perceive it Glowing colors associated with the aura are said to change with mood or emotion and with practice one can begin seeing and reading auras for themselves This book covers human magnetism the effects of color thought forms building and developing the aura for one s benefit and includes detailed instructions on how to create a protective shield around oneself and offer healing energies to others [Mysteries Explored](#) Jack Barranger,Paul Tice,2000 An overall investigation into human origins religion mythology UFOs and other unexplained phenomena Begins by covering the most ancient mysteries about mankind and proceeds up to modern times exploring the evidence and ending with where we currently are from a religious and spiritual standpoint A fascinating look at the development of mankind with the possibility that we have experienced some form of outside intervention in remote times In some ways this intervention may still be with us today **The History of Spiritualism Volume 2** Arthur Conan Doyle,2007-07 One of the greatest proponents of spiritualism was Arthur Conan Doyle best known as the creator of Sherlock Holmes Spiritualists believe in the continuation of life after death and that we can communicate with those on the other side in ways that can be helpful In the early 1900 s there was a large Spiritualist movement taking place in the world and Doyle chose to document its entire history in this two volume set Chapters include The Career of Eusapia Palladino Great Mediums from 1870 to 1900 The Society for Psychical Research Ectoplasm Spirit Photography Voice Mediumship and Moulds French German and Italian Spiritualism Some Great Modern Mediums The Religious Aspects of Spiritualism The After Life as Seen by Spiritualists and more To this day the movement has continued to grow with Spiritualist churches existing around the world Many people believe in their principles or have experienced them first hand making this work important to those who wish to investigate further **The Archko Volume** ,2000 Historical document or a forgery The Archko Volume contains the testimonies of Jesus contemporaries especially his enemies concerning his arrest crucifixion and resurrection Readers can decide for themselves

if they truly contain the recorded testimonies of Caiaphas Herod and Pontius Pilate **Ancient Pagan and Modern Christian Symbolism** Thomas Inman,2002-06 An important key to the origins of Christianity and Western religion Contains clear documented images that can be traced to remote times and shown to be in direct connection to certain origins of belief The symbolic connections between Christianity and the cultures of India Babylonia Assyria and Egypt among others are astounding An indispensable reference for anyone interested in early pagan religions and the foundations of Christianity Little known fact During the filming of The Da Vinci Code movie this book was special ordered as reading material for all cast and crew **The World As I See It** Albert Einstein,2007 Often called he most advanced and celebrated mind of the 20th Century this book allows us to meet Albert Einstein as a person Explores his beliefs philosophical ideas and opinions on many subjects The Open Conspiracy H.
