Past Present A Journal Of Historical S:

Bengal, Past & Present, 1924 **The Past, Present, and Future of Integrated History and Philosophy of Science** Emily Herring, Kevin Matthew Jones, Konstantin S. Kiprijanov, Laura M Sellers, 2019-05-14 Integrated History and Philosophy of Science iHPS is commonly understood as the study of science from a combined historical and philosophical perspective Yet since its gradual formation as a research field the question of how to suitably integrate both perspectives remains open This volume presents cutting edge research from junior iHPS scholars and in doing so provides a snapshot of current developments within the field explores the connection between iHPS and other academic disciplines and demonstrates some of the topics that are attracting the attention of scholars who will help define the future of iHPS Folds of Past, Present and Future Sarah Van Ruyskensvelde, Geert Thyssen, Frederik Herman, Angelo Van Gorp, Pieter Verstraete, 2021-09-07 This volume brings together important theoretical and methodological issues currently being debated in the field of history of education The contributions shed insightful and critical light on the historiography of education on issues of de colonization on the historical development of the educational sciences and on the potentiality attached to the use of new and challenging source material *Regimes of Historicity* François Hartog, 2015-01-13 François Hartog explores crucial moments of change in society's regimes of historicity or its way of relating to the past present and future Inspired by Arendt Koselleck and Ricoeur Hartog analyzes a broad range of texts positioning the *The Odyssey* as a work on the threshold of a historical consciousness and then contrasting it against an investigation of the anthropologist Marshall Sahlins's concept of heroic history He tracks changing perspectives on time in Chateaubriand's *Historical Essay and Travels in America* and sets them alongside other writings from the French Revolution He revisits the insight of the French Annals School and situates Pierre Nora's *Realms of Memory* within a history of heritage and our contemporary presentism Our presentist present is by no means uniform or clear cut and it is experienced very differently depending on one's position in society There are flows and acceleration but also what the sociologist Robert Castel calls the status of casual workers whose present is languishing before their very eyes and who have no past except in a complicated way especially in the case of immigrants exiles and migrants and no real future since the temporality of plans and projects is denied them Presentism is therefore experienced as either emancipation or enclosure in some cases with ever greater speed and mobility and in others by living from hand to mouth in a stagnating present Hartog also accounts for the fact that the future is perceived as a threat and not a promise We live in a time of catastrophe one he feels we have brought upon ourselves *The Past, Present, and Future of Southern Politics* Seth C. McKee, 2012-09-01 The apparent partisan stability of contemporary southern politics belies a complex and dynamic process that makes it doubtful one party can persist as the dominant force in the most diverse region of the United States This truly ain't your daddy's Dixie This article appears in the Fall 2012 issue of *Southern Cultures* The full issue is also available as an ebook *Southern Cultures* is published quarterly spring summer fall winter by the University

of North Carolina Press The journal is sponsored by the University of North Carolina at Chapel Hill's Center for the Study of the American South

The Social History of the Archive Liesbeth Corens, Kate Peters, Alexandra Walsham, 2016 This Supplement builds on a burgeoning body of research that approaches the archive not merely as the object but also as the subject of enquiry It explores the phenomenon of record keeping in the early modern period in the context of significant ecclesiastical political intellectual and cultural developments that served as a stimulus to its state formation religious reformation and economic transformation the advent of the mechanical press the spread of educational opportunity and the expansion of literacy changing epistemological conventions shifting attitudes towards history and memory and new modes of self representation Focusing attention on the impulses behind the surge in public and private documentation in Europe between 1500 and 1800 the contributors to this volume place the processes by which individual collective and institutional records were created compiled authorised and used under the microscope They examine the activities of curators and scribes analyse the issues of credibility and authenticity to which their endeavours gave rise and evaluate the role of textual pictorial material and financial records in managing knowledge and giving expression to senses of identity Stretching traditional technical definitions of the record and archive they investigate how writing and document making of various kinds was shaped by dynamic interactions between ordinary people and by the politics of everyday life They also illuminate the multiple ways in which archives mediate and construct the past preserving some traces of it for posterity while consigning others to oblivion

The Past in the Present Ioannis Poullos, 2014-08-07 The Past in the Present deals with the complexities in the operation and management of living heritage sites It presents a new interpretation of such sites based on the concept of continuity and its evolution to the present It is demonstrated that the current theoretical framework and practice of conservation as best epitomised in a values based approach and the World Heritage concept is based on discontinuity created between the monuments considered to belong to the past and the people of the present thus seemingly unable to embrace living heritage sites From this position the study suggests an innovative approach that views communities and sites as an inseparable entity a Living Heritage Approach This approach brings a new insight into key concepts such as authenticity and sustainable development Through the use of the monastic site of Meteora Greece as a case study the discussion generated aims to shift the focus of conservation from preservation towards a continual process of creation in an ongoing present attempting to change the way heritage is perceived protected and more importantly further created The Past in the Present is an important and much needed contribution to the debate about living heritage and it is particularly significant in the context of the heritage of the past in the modern world Anyone concerned with how the past is or should be integrated within modern lives and identities will need to read this book

Leslie Brubaker Director Centre for Byzantine Ottoman and Modern Greek Studies University of Birmingham UK This interesting and thoroughly researched book by Ioannis Poullos is a useful tool in promoting the Living Heritage Approach and provides a sound theoretical basis for future work Living Heritage

Approach is a paradigm shift that suggests a new way of addressing conservation for our heritage ICCROM is proud to have introduced this approach also with the contribution of Ioannis Gamini Wijesuriya Project Manager ICCROM **A**

Forging a New South Maury Nicely,2023-05-19 On the morning of August 21 1861 John T Wilder a brash young colonel of a Union mounted infantry unit nicknamed the Lightning Brigade ordered his men to open fire on the city of Chattanooga Tennessee damaging buildings sinking steamboats along the riverfront and injuring men women and children In the midst of Reconstruction and an emerging new South a mere eight years later Wilder was elected mayor of Chattanooga While Wilder is most closely associated with the Lightning Brigade which helped to pioneer the use of both mounted infantry and repeating firearms during the American Civil War his military accomplishments occupied only five years of his eighty seven year life His immense postwar success however left a permanent mark on the industrial development of the war torn South in the second half of the nineteenth century It is the comprehensive picture of Wilder s nearly nine decades that Maury Nicely seeks to capture in *Forging a New South The Life of General John T Wilder* For many war heroes there was not much beyond the war worth telling Nicely writes Such was not the case with Wilder A successful entrepreneur and industrialist after the war Wilder relocated to East Tennessee where he created dozens of businesses factories mines hotels and towns was elected mayor of the city he had shelled during the war and cultivated close personal and business relationships with Federal and Confederate veterans alike helping to create a new South in the wake of a devastating conflict Presented in two parts and accompanied by more than sixty detailed photographs and maps Nicely s balanced study fills a significant void the first complete biography of General John T Wilder

Among Empires Charles S. Maier,2006-04-24 Contemporary America with its unparalleled armaments and ambition seems to many commentators a new empire Others angrily reject the designation What stakes would being an empire have for our identity at home and our role abroad A preeminent American historian addresses these issues in light of the history of empires since antiquity This elegantly written book examines the structure and impact of these mega states and asks whether the United States shares their traits and behavior Eschewing the standard focus on current U S foreign policy and the recent spate of pro and anti empire polemics Charles S Maier uses comparative history to test the relevance of a concept often invoked but not always understood Marshaling a remarkable array of evidence from Roman Ottoman Moghul Spanish Russian Chinese and British experience Maier outlines the essentials of empire throughout history He then explores the exercise of U S power in the nineteenth and twentieth centuries carefully analyzing

its economic and strategic sources and the nation's relationship to predecessors and rivals To inquire about empire is to ask what the United States has become as a result of its wealth inventiveness and ambitions It is to confront lofty national aspirations with the realities of the violence that often attends imperial politics and thus to question both the costs and the opportunities of the current U S global ascendancy With learning dispassion and clarity Among Empires offers bold comparisons and an original account of American power It confirms that the issue of empire must be a concern of every citizen

Marshall,2005 This bibliography is a record of British relations with Tibet in the period 1765 to 1947 As such it also involves British relations with Russia and China and with the Himalayan states of Ladakh Lahul and Spiti Kumaon and Garhwal Nepal Sikkim Bhutan and Assam in so far as British policy towards these states was affected by her desire to establish relations with Tibet It also covers a subject of some importance in contemporary diplomacy It was the legacy of unresolved problems concerning Tibet and its borders bequeathed to India by Britain in 1947 which led to border disputes and ultimately to war between India and China in 1962 These borders are still in dispute today It also provides background information to Tibet's claims to independence an issue of current importance The work is divided into a number of sections and subsections based on chronology geography and events The introductions to each of the sections provide a condensed and informative history of the period and place the books and article in their historical context Most entries are also annotated This work is therefore both a history and a bibliography of the subject and provides a rapid entry into a complex area for scholars in the fields of international relations and military history as well as Asian history
