King, 1888

Reading Epic Peter Toohey, 2003-09-02 Readers new to ancient epic are hampered in two ways they do not know the ancient languages and they are unfamiliar with the ancient world This survey addresses the needs of these readers by offering guidance through the major classical writers of epic it begins with Homer and concludes with an overview of the development of late ancient epic and of the interface between the epic and the novel **Sport and Festival in the Ancient Greek World** David Phillips, David Pritchard, 2003-12-31 How did sport and festival affect the ancient Greek city How did the

values of athletics pervade Greek culture This collection of fifteen new studies from an international cast took its inspiration from the exceptional Sydney Olympics of 2000 The focus here is on the ancient world but additionally there is a sophisticated look at how Greek artefacts linked with sport can best be presented to the modern world *The First Christians in the Roman World* E. A. Judge, 2008 Collection of previously published essays and lectures **Jerusalem and Athens** E. A. Judge, 2010 E A Judge's third collection of essays moves on from Rome and the New Testament to the interaction of the classical and biblical traditions to the cultural transformation of late antiquity and to the contested heritage of Athens and Jerusalem in the modern West A lifelong interest in Rome bridges this range Christianity emerges as essentially a movement of ideas opposed at first to the cultic practice of ancient religion which had been meant to secure the existing order of things The new message with its demanding morality laid the foundations for our radically different sense of religion as the quest for the ideal life The Judge method tackles such momentous questions by starting with textual detail translated from Latin and Greek Inspired by the project of the Dolger Institut in Bonn the interaction of antiquity and Christianity he brings to it a particular focus on those documents of the times retrieved from stone or papyrus The collection reflects the more holistic approach to history starting with the ancient world that has been developed at Macquarie University in Sydney where diverse interests are now drawn together from as far back as ancient Egypt or China in an attractive approach to the modern world

Byzantine Chronicles and the Sixth Century Roger Scott, 2018-02-06 Byzantine chronicles have traditionally been regarded as a somewhat inferior form of Byzantine history writing especially in comparison with classicizing historians The aim of many of these papers is both to rescue the reputation of the Byzantine chroniclers especially Malalas and Theophanes and also to provide some examples of how these two chroniclers in particular can be exploited usefully both to reveal aspects of the past itself notably of the period of Justinian and also of how the Byzantines interpreted their own past which included on occasions rewriting that past to suit altered contemporary needs For the period of Justinian in particular proper attention to aspects of the humble Byzantine chronicle can also help achieve a better understanding of the period than that provided by the classicizing Procopius with his emphasis on war and conquest By considering more general aspects of the place of history writing in Byzantine culture the papers also help explain why history remained such an important aspect of Byzantine culture

APAIS 1992: Australian public affairs information service , *The Cambridge Economic History of Australia* Simon Ville, Glenn Withers, 2014-10-08 Australia's economic history is the story of the transformation of an indigenous economy and a small convict settlement into a nation of nearly 23 million people with advanced economic social and political structures It is a history of vast lands with rich exploitable resources of adversity in war and of prosperity and nation building It is also a history of human behaviour and the institutions created to harness and govern human endeavour This account provides a systematic and comprehensive treatment of the nation's economic foundations growth resilience and future in an engaging contemporary narrative It examines key themes such as the centrality of land and its usage the role of

migrant human capital the tension between development and the environment and Australia's interaction with the international economy Written by a team of eminent economic historians The Cambridge Economic History of Australia is the definitive study of Australia's economic past and present Past, Present, and Future Australian Society for Classical Studies, 1990 The Past, Present and Future of Sustainable Management Stephen Cummings, Todd Bridgman, 2021-06-05 We might think sustainable management is a new idea created in the 1960s by enlightened modern scientists We might think that it puts us on a new path beyond what management was originally about But this is not true Sustainable management is as old as civilization and was a foundation stone of management science as it was formed in the first decade of the 20th century Recovering this forgotten past provides deeper roots and greater traction to advance sustainable management in our own times This book charts a history of sustainable management from premodern times through the birth of management science as an offshoot of the conservation movement to the present day The authors argue that modern tools like Triple Bottom Line reporting and multiple Sustainable Development Goals may be less useful than a return to a more fundamental and holistic view of management **The Americana** Frederick Converse Beach, George Edwin Rines, 1911 **Espionage: Past, Present and Future?** Wesley K. Wark, 2012-12-06 Highlights of the volume include pioneering essays on the methodology of intelligence studies by Michael Fry and Miles Hochstein and the future perils of the surveillance state by James Der Derian Two leading authorities on the history of Soviet Russian intelligence Christopher Andrew and Oleg Gordievsky contribute essays on the final days of the KGB Also the mythology surrounding the life of Second World War intelligence chief Sir William Stephenson The Man Called Intrepid is penetrated in a persuasive revisionist account by Timothy Naftali The collection is rounded off by a series of essays devoted to unearthing the history of the Canadian intelligence service *Work Teams: Past, Present and Future* M.M. Beyerlein, 2013-06-29 This book places current and future work team practices in historical context Researchers from 10 countries have contributed chapters that represent developments specific to their regions and that illustrate the way ideas spread around the world Some principles of effective teaming were independently discovered in different countries and some principles emerged from the work of researchers like Trist Emery and Lewin and spread around the world But all of the practices were driven by the dynamic tension between the psychology of the employee and business necessities Theories and cases describe autonomous work groups self managed work teams cell teams and other collaborative work structures Contributions to the design of such structures came from psychology management sociology industrial engineering and manufacturing Because of the challenges inherent in reorganising work around teams instead of individuals organizations are at different stages in evolving into 21st century work systems **Maritime Men of the Asia-Pacific** Diane Kirkby, 2022-09-15 Winner of the Australia and New Zealand Law and History Society ANZLHS Prize for 2023 Maritime workers occupy a central place in global labour history This new and compelling account from Australia shows seafaring and waterside unions engaged in a shared history of activism for

legally regulated wages and safe liveable conditions for all who go to sea Maritime Men of the Asia Pacific provides a corrective to studies which overlook this region's significance as a provider of the world's maritime labour force and where unions have a rich history of reaching across their differences to forge connections in solidarity From the militant young Australian Harry Bridges whose progressive unionism transformed the San Francisco waterfront to Australia's successful implementation of the Maritime Labour Convention 2006 this is a story of vision and leadership on the international stage Unionists who saw themselves as internationalists were also operating within a national and imperial framework where conflicting interests and differences of race and ideology had to be overcome Union activists in India China and Japan struggled against indentured labour and coolie standards They linked with their fellow unionists in pursuing an ideal of international labour rights against the power of shipowners and anti union governments This is a complex story of endurance cooperation and conflict and its empowering legacy

Time, Religion and History William Gallois, 2014-06-11 What is time How does our sense of time lead us to approach the world How did the peoples of the past view time This book answers these questions through an investigation of the cultures of time in Christianity Islam Buddhism Judaism and the Australian Dreamtime It argues that our contemporary world is blind as to the significance and complexity of time preferring to believe that time is natural and unchanging This is of critical importance to historians since the base matter of their study is time yet there is almost no theoretical literature on time in history This book offers the first detailed historiographical study of the centrality of time to human cultures It sets out the complex ways in which ideas of time developed in the major world religions and the manner in which such conceptions led people both to live in ways very different to our contemporary world and to make very different kinds of histories It goes on to argue that modern scientific descriptions of time such as Einstein's Theory of Relativity lie much closer to the complex understandings of time in religions such as Christianity than they do to our common sense notions of time which are centred on progress through a past present and future

Australian Perspectives on Global Air and Space Power Nicole Townsend, Kus Pandey, Jarrod Pendlebury, 2023-03-01 This book surveys historical and emerging global air and space power issues and provides a multidisciplinary understanding of the application of air and space power in the past and present while exploring potential future challenges that global air forces may face Bringing together leading and emerging academics professionals and military personnel from Australia within the field of air and space power this edited collection traces the evolution of technological innovations as well as the ethical and cultural frameworks which have informed the development of air and space power in the 20th and 21st centuries and contemplates the future It covers topics such as the insurgents use of drones the ethics of air strikes the privatisation of air power the historical trajectory of air power strategy and the sociological implications of an air force identity While many of the chapters use Australian based case studies for their analysis they have broader applicability to a global readership and several chapters examine other nations experiences including those of the United States and the United Kingdom This

accessible illuminating book is an important addition to contemporary air and space power literature and will be of great interest to students and scholars of air and space power air warfare military and international history defence studies and contemporary strategic studies as well as military professionals Decolonising Australian History Education Rebecca Cairns, Aleryk Fricker, Sara Weuffen, 2024-06-25 This book is the first of its kind to showcase a range of fresh and expert perspectives on decolonising history education in Australia The research informed chapters by First Nations and non Indigenous educators and scholars provide guidance on applying practical strategies for decolonising learning and teaching and moving beyond the history wars History has long been the most contentious area of education in Australia This book tackles the narrow and overtly politicised history wars debates and foregrounds the need to re examine impacts of settler colonialism on Australia s history First hand knowledge and much needed teaching practices are presented demonstrating how decolonisation can be put into action through Australian history education The chapters present a range of perspectives from the early years right through to higher education settings and argues that there is an increased need for greater awareness appreciation and willingness to explore and engage with multiple narratives of truth telling that are so often contested Readers are guided to discover how this translates to classroom practice through unique provocative and research informed strategies that foreground applied decolonising approaches Combining theoretical perspectives and practical ideas this book is an essential resource to support pre and in service teachers in all education contexts in navigating the decolonisation of Australian history education This makes it an important contribution to local as well as global decolonising efforts
