## **Past Present Personal:**

*Present Past, Past Present* Eugène Ionesco, Helen R. Lane, 1998-03      **The Present Personal** Hagi Kenaan, 2005-02-09

Is philosophy deaf to the sound of the personal voice While philosophy is experienced at admiring resenting celebrating and at times renouncing language philosophers have rarely succeeded in being intimate with it Hagi Kenaan argues that philosophy's concern with abstract forms of linguistic meaning and the objective propositional nature of language has obscured the singular human voice In this strikingly original work Kenaan explores the ethical and philosophical implications of recognizing and responding to the individual presence in language In pursuing the philosophical possibility of listening to language as the embodiment of the human voice Kenaan explores the phenomenological notion of the personal He defines the personal as the irresolvable tension that exists between the public character of language necessary for intelligibility and the ways in which we as individuals remain riveted to our words in a contingently singular manner The Present Personal fuses phenomenology and aesthetics and the traditions of Continental and Anglo American philosophy drawing on Wittgenstein J L Austin Kant Kierkegaard and Heidegger as well as literary works by Kafka Kundera and others By asking new questions and charting fresh terrain Kenaan does more than offer innovative investigations into the philosophy of language The Present Personal and its concern with the intimate and personal nature of language uncovers the ethical depth of our experience with language Kenaan begins with a discussion of Kierkegaard's existential critique of language and the ways in which the propositional structure of language does not allow the spoken to reflect the singularity of the self He then compares two attempts to subvert the hegemony of content the pragmatic turn of J L Austin and the poetic path of Heidegger Kenaan concludes by turning to Kant and discovering an analogy between the experience of meaning in language and the aesthetic experience of encountering beauty Kenaan's reconceptualization of philosophy's approach to language frees the contingent singularity of language while at the same time permitting it to continue to dwell within the confines of content

**Solipsism, Physical Things and Personal Perceptual Space** Safak Ural, 2019-09-30 Solipsism indicates an epistemological position that denies the existence of others by asserting that the self is the only thing that can be known to exist For sophist philosophers the belief that we can not know anything and even if we do so we cannot communicate it is central to this theory However until now there has been little academic scholarship that has tried to provide answers to the pressing issues raised by solipsism In Solipsist Ontology Physical Things and Personal Perceptual Space Ural aims to redefine solipsism by analyzing and elaborating on traditional philosophical problems such as empiricism and rationalism as well as discussing problems of language communication and meaning Ural reveals where solipsism has been previously ignored pseudo problems have arisen that disguise the sources of the problems with prejudices that concern the philosophical problems in question Notably many current as well as traditional

problems of ontology epistemology and language are bound up in discourses of solipsism Ural argues that discarding solipsism as a philosophical discourse hinders new interpretations of traditional philosophical thought This book offers a fresh perspective to solipsism by defining it in relation to concepts such as physical things personal perceptual space and identity Importantly Ural proposes that an understanding of identity is not necessary in order to redefine solipsism By building a logical system that fashions communication and solipsism as interrelated it is possible to reject identity as a useless concept and thus overcome the classic solipsist dilemma of we are not able to communicate This original piece of research is an important and timely contribution to the field of philosophy that will be of great interest to teachers researchers and students

*Fulbright Labyrinths* Virginia Hall-Milhouse, 2011-11-28 In this provocative work Virginia Milhouse demonstrates how autoethnography combines creative and analytical practices to help bring to consciousness some complex social and political agendas hidden in narratorial writings It demonstrates how an arts based qualitative research method narrative inquiry can be fused with a scientific based quantitative method DMIS IDI and compliment support and or correct each other It also demonstrates how writing as a method of inquiry can be a viable way for researchers to learn about themselves and their research as well as features standards for evaluating creatively and analytically constructed text Further the author s examination of the aesthetics of inner readiness and in betweenness will be very helpful to people doing this kind of self reflexive fieldwork The reader will also appreciate this author s recognition of the importance of combining qualitative and quantitative methodologies something not many writers can do with great success Also this book will be a real contribution to sojourners and others traveling or living abroad The work is very smart and is beautifully and clearly written The labyrinth quote at the beginning of her work is very fitting and certainly promises to illustrate those words
