Pastoral Development Planning Oxfam Development Guidelines:

The Oxfam Handbook of Development and Relief Deborah Eade, Suzanne Williams, 1995 This slipcase of three volumes offers an expression of Oxfam's fundamental principles that everyone has the right to an equitable share in the world's resources. It analyzes policy procedure and practice in health, human rights, emergency relief and agricultural production.

Perspectives on Pastoral Development Isobel Birch, Halima A. O. Shuria, 2001 An objective account of a major Oxfam initiative, the Wajir pastoral development project in northeast Kenya, with its distinctive emphasis on community participation. It explains how marginalized groups are developing their own pastoral associations to represent their interests and Oxfam's role in facilitating that process. It describes an integrated approach to pastoral development supporting the livelihoods of livestock keepers and those who have lost their animals, devising strategies to address drought and conflict as part of a longer term agenda for sustainable development and working to influence key decisions made by high level policy makers.

The Oxfam Handbook of Development and Relief Deborah Eade, 1995 *Towards Negotiated Co-management of Natural Resources in Africa* L. B. Venema, 1999 Within the field of management of natural resources, this book focuses on the various approaches of policy formulation and implementation. The question central to this book is how to co-operate with people, the various categories of residents as well as non-residents in the rural areas, in a top-down, a participatory or a contractual co-management way. On the basis of a comparative analysis of 12 case studies in the book, these three approaches are thoroughly discussed and their internal and external constraints examined. The book starts with an editorial chapter discussing the recent administrative and political developments in Africa as well as the new opportunities which they offer for policies in the field of environment and development. The question is brought up whether the recent processes of decentralization, democratization and empowerment of local organizations have indeed created new opportunities or that they have only superficially changed the political culture of the countries concerned. In the concluding chapter of the book, the approaches are contrasted to each other as logical models, each with its own potentiality and limitations. Conclusions are formulated why the top-down approach must result in improvisation to escape from failure and why the participatory approach risks to end up into a mixed balance. Special attention is given to the conditions and the prospects for the contractual or co-management approach which has been introduced into Africa only recently. Under certain conditions, this approach seems rather promising.

Eastern and Southern Africa Debby Potts, T.A.S. Bowyer-Bower, 2016-02-04 A unique and comprehensive introduction to contemporary development issues in East and Southern Africa and represents a significant departure from the often descriptive approach adopted by existing regional and development texts on African regions. Each contribution is carefully chosen to highlight the theoretical basis to development issues and the practical problems of implementing development plans in this vital subregion. Overall, this produces comprehensive and balanced coverage of historical, economic, political and social issues. The twin issues of globalisation and modernisation give the book a

clear focus *Sustainable Rural Development* A. Shepherd,1998-01-19 This book examines the paradigm shift in rural development from an industrial to an holistic approach to technology development from a technocratic to a participatory approach to management and from resource control by big organisations to local resource management It provides a broad ranging assessment of agriculture and local level institutional development and sets out a range of agendas for development practice management and policy into the twenty first century **Traditional occupations of indigenous and tribal peoples: Emerging trends** ,2000 Comprises ten case studies written by indigenous authors active in their communities Describes traditional economies and occupations and analyzes the effects of globalization and industrialization on indigenous and tribal peoples Includes proposals for development models that respect indigenous rights and preserve traditional knowledge Wiping the Tears of the African Cattle Owners Solomon Haile Mariam,2010-08-30 This book is a collective work of many professionals who were involved in all aspects of the activities during the implementation of the Pan African Rinderpest Campaign PARC The various country and regional technical reports of all the actors during those days were however compiled by the three officers who were working with AU IBAR at that time Dr Solomon Haile Mariam the chief livestock project officer CLPO of IBAR was the task team leader assisted by Dr Rene Bessin while Dr D Karuiki did most of the information compiling job **Impacts of Changing Pastoral Strategies on Environmental Resources and Livelihoods in Tanzania's Lake Victoria Basin** Elliott Phillemons Niboye,2010 Land tenure in pastoral and agro pastoral areas of Tanzania is under stress The stress emanates mainly from changing natural and demographic environments Other underlying causes are social economic and political changes In the past three to four decades both pastoral and agro pastoral areas have been experiencing rapid population increase with a national mean population growth rate estimated at 3 per cent per annum Kurian 1992 This has increased demand for cultivation lands forcing pastoralists and agro pastoralists to more marginal areas and triggering off in some cases environmental degradation process These processes are paralleled by overall climatic changes with concomitant increasing droughts The combined effect of these processes has culminated into a general decline of pastoral and agro pastoral community's welfare and increased livelihood insecurity This study explored the impacts of these changes in agro pastoral land use on the physical environment as well as livelihood and welfare of the community in Missungwi District *Nomadic Peoples and Human Rights* Jérémie Gilbert,2014-03-26 Although nomadic peoples are scattered worldwide and have highly heterogeneous lifestyles they face similar threats to their mobile livelihood and survival Commonly nomadic peoples are facing pressure from the predominant sedentary world over mobility land rights water resources access to natural resources and migration routes Adding to these traditional problems rapid growth in the extractive industry and the need for the exploitation of the natural resources are putting new strains on nomadic lifestyles This book provides an innovative rights based approach to the issue of nomadism looking at issues including discrimination persecution freedom of movement land rights cultural and political rights and effective management of natural resources

Jeremie Gilbert analyses the extent to which human rights law is able to provide protection for nomadic peoples to perpetuate their own way of life and culture The book questions whether the current human rights regime is able to protect nomadic peoples and highlights the lacuna that currently exists in international human rights law in relation to nomadic peoples It goes on to propose avenues for the development of specific rights for nomadic peoples offering a new reading on freedom of movement land rights and development in the context of nomadism
