Since cognitive talent varies from person to person our education system can never create equal opportunity for all. Instead it teaches our children that hierarchy and competition are natural and that human value should be based on intelligence. These ideas are counter to everything that the left believes but until they acknowledge the existence of individual cognitive differences progressives remain complicit in keeping the status quo in place. This passionate voice driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed. **The Billboard**, 1943
