Heritage Regimes and the State Regina Bendix, Aditya Eggert, Arnika Peselmann, 2012 What happens when UNESCO heritage conventions are ratified by a state How do UNESCO's global efforts interact with preexisting local regional and state efforts to conserve or promote culture What new institutions emerge to address the mandate The contributors to this volume focus on the work of translation and interpretation that ensues once heritage conventions are ratified and implemented With seventeen case studies from Europe Africa the Caribbean and China the volume provides comparative evidence for the divergent heritage regimes generated in states that differ in history and political organization The cases illustrate how UNESCO's aspiration to honor and celebrate cultural diversity diversifies itself The very effort to adopt a global heritage regime forces myriad adaptations to particular state and interstate modalities of building and managing heritage

UNESCO on the Ground Michael Dylan Foster, Lisa Gilman, 2015-10-12 For nearly 70 years the United Nations Educational Scientific and Cultural Organization UNESCO has played a crucial role in developing policies and recommendations for dealing with intangible cultural heritage What has been the effect of such sweeping global policies on those actually affected by them How connected is UNESCO with what is happening every day on the ground in local communities Drawing upon six communities ranging across three continents from India South Korea Malawi Japan Macedonia and China and focusing on festival ritual and dance this volume illuminates the complexities and challenges faced by those who find themselves drawn in different ways into UNESCO's orbit Some struggle to incorporate UNESCO recognition into their own local understanding of tradition others cope with the fallout of a failed intangible cultural heritage nomination By exploring locally by looking outward from the inside the essays show how a normative policy such as UNESCO's intangible cultural heritage policy can take on specific associations and inflections A number of the key questions and themes emerge across the case studies and three accompanying commentaries issues of terminology power struggles between local national and international stakeholders the value of international recognition and what forces shape selection processes With examples from around the world and a balance of local experiences with broader perspectives this volume

provides a unique comparative approach to timely questions of tradition and change in a rapidly globalizing world

Intangible Heritage Laurajane Smith, Natsuko Akagawa, 2008-12-03 *Intangible Heritage* fills a significant gap in the heritage literature available and represents a significant cross section of ideas and practices associated with intangible cultural heritage. The authors brought together for this volume represent some of the key academics and practitioners working in the area and discuss research and practices from a range of countries. *The Routledge Companion to Intangible Cultural Heritage* Michelle Stefano, Peter Davis, 2016-12-08 This collection provides an in depth and up to date examination of the concept of Intangible Cultural Heritage and the issues surrounding its value to society. Critically engaging with the UNESCO 2003 Convention for the Safeguarding of the Intangible Cultural Heritage the book also discusses local level conceptualizations of living cultural traditions practices and expressions and reflects on the efforts that seek to safeguard them. Exploring a global range of case studies the book considers the diverse perspectives currently involved with intangible cultural heritage and presents a rich picture of the geographic socioeconomic and political contexts impacting research in this area. With contributions from established and emerging scholars public servants professionals students and community members this volume is also deeply enhanced by an interdisciplinary approach which draws on the theories and practices of heritage and museum studies anthropology folklore studies ethnomusicology and the study of cultural policy and related law. *The Routledge Companion to Intangible Cultural Heritage* undoubtedly broadens the international heritage discourse and is an invaluable learning tool for instructors students and practitioners in the field. **Thinking Through Craft** Glenn Adamson, 2019-02-07 This book is an introduction to the way that artists working in all media think about craft. Workmanship is key to today's visual arts when high production values are becoming increasingly commonplace. Yet craft's centrality to contemporary art has received little serious attention from critics and historians. Dispensing with clichéd arguments that craft is art Adamson persuasively makes a case for defining craft in a more nuanced fashion. The interesting thing about craft he argues is that it is perceived to be inferior to art. The book consists of an overview of various aspects of this second class identity: supplementarity sensuality skill the pastoral and the amateur. It also provides historical case studies analysing craft's role in a variety of disciplines including architecture design contemporary art and the crafts themselves. *Contracubierta*

Learning to Draw Ann Bermingham, 2000 As early as the sixteenth century drawing in England came to be seen as something more than an activity exclusive to artists it became a polite and useful art a practice of everyday life. This generously illustrated book explores the social and cultural processes that enabled drawing to emerge as an amateur pastime as well as the meanings that drawing had for people who were not artists. Ann Bermingham shows how the history of drawing in England from the age of Elizabeth I to the era of early photography mirrored changes in society politics the practical world and notions of self. The book examines how drawing intersected with a wide range of social phenomena from political absolutism writing empirical science and Enlightenment pedagogy to nationalism industrialism tourism bourgeois gentility

and religious instruction Bermingham discusses the central role of drawing and the visual arts in Renaissance debates about government and self government then considers the relations between seventeenth century drawing natural science and the masculine ideal of the honest gentleman She also investigates landscape drawing in the context of eighteenth century views on sens
