definition of justice is set against this background whose doctrinal conflicts because of the characteristic as sociations of its key terms it may be taken to reflect just as it may be held to epitomize by virtue of its elaboration in the opening chapter of *De l Esprit des Lois* and its close terminological affinities with the defini tion of law there given an undoubtedly related conflict between the implications of causal determinism and the aspirations of idealist meta physics surviving at the heart of Montesquieu s outlook and remaining unresolved often said to impair the coherence if not the validity of his theory of society
