**Patently Erotic** Richard Ross, 2005 *Patently Erotic* is Richard Ross's foray into the nexus of capitalism inventiveness and sex. In this latest collection of actual patent applications the author delves into the archives to take a look at contraptions designed to titillate and facilitate. Accompanied by commentary from Ross and illustrated by the inventors' own diagrams, inventions such as source sensitive sound playing condoms and lap dance liners provide a revealing look to society's issues with intimacy. *Digital Property* Wendy W. Fok, Antoine Picon, 2017-03-09 Even more than authorship ownership is challenged by the rise of digital and computational methods of design and production. These challenges are simultaneously legal, ethical, and economic. How are new methods of fabrication and manufacture going to irreversibly change not only ways of working but also designers' ethics and their stance on ownership? In his 2013 second term State of the Union address, President Obama stated that 3D printing has the potential to revolutionize the way we make almost everything. Nowhere will the impact of 3D printing be felt greater than in the architectural and design communities. When anyone can print out an object or structure from a digital file, will designers still exert the same creative rights or will they need to develop new practice and payment models? As architecture becomes more collaborative with open source processes, will the emphasis on signature as the basis of ownership remain relevant? How will wider teams working globally be accredited and compensated? This issue of AD explores this subject; it features the work of designers who are developing wholly new approaches to practice by exploring means of commercialising process-based products rather than objects. Contributors: Phil Bernstein, Mark Garcia, Antoine Picon, Carlo Ratti, and David Ruy. Featured architects: Francis Bitonti, Marjan Colletti, Wendy W. Fok, Panagiotis Michalatos, Jose Sanchez Thibault, Schwartz Aaron, Sprecher Feng Xu, and Philip Yuan. **Extraterrestrial Sex Fetish**

What Kubrick did to the science fiction film *EXTRATERRESTRIAL*, does to the science fiction novel a kind of 2001 *A Space Sodomy*. Dr. H. Floyd, if the Marquis de Sade invented an astonishing new branch of mathematics in which series and sets of bodies were subject to formal operations of pain and degradation, *EXTRATERRESTRIAL* is the first to apply this new math to cosmology, a kind of 120 Days of Saturn.
