paths are populated by conditions or variables known to have relatively direct effects on student success and also open to influence by effective leadership practices While the Four Path framework narrows the attention of school leaders to a still considerable number conditions known to contribute to student success it leaves school leaders the autonomy to select for improvement efforts the sub set of conditions that make the most sense in their own local circumstances The approach to leadership described in this book provides evidence based guidance on what to lead and flexibility on how to lead for purposes of improving student learning
