Path Breaking Abigail Scott Duniway, 1914 Tenacious advocate for women's rights Abigail Scott Duniway offers her life story describing the intense decades long struggle to attain voting rights for American women Although the author recalls her own upbringing and ascendance to a position of leadership in the Women's Suffrage movement of the late 19th century she is emphatically clear almost from the start that this nationwide goal was a team effort consisting of many talented people male and female alike Portraits and anecdotes of these figures many of whom are now obscured by time are present that readers may appreciate how rallying support behind votes for women was the combined work of many Abigail describes having to doggedly persist against numerous stumbling blocks and personal difficulties the notion of women voting was then a topic of great controversy and she found herself shunned and sidelined for her campaigns Although her state of residence Oregon had a generally progressive outlook and culture it took many years of sustained protest and pressure to make votes for women a serious reform for consideration Finally in 1912 Oregon approved an amendment for women's suffrage Abigail Scott Duniway by that time elderly was present when Governor Oswald West signed the amendment into law *Applied Qualitative Research Design* Margaret R. Roller, Paul J. Lavrakas, 2015-01-30 This unique text provides a comprehensive framework for creating managing and interpreting qualitative research studies that yield valid and useful information Examples of studies from a wide range of disciplines illustrate the strengths limitations and applications of the primary qualitative methods in depth interviews focus group discussions ethnography content analysis and case study and narrative research Following a consistent format chapters show students and researchers how to implement each method within a paradigm neutral and flexible Total Quality Framework TQF comprising four interrelated components Credibility Analyzability Transparency and Usefulness Unlike other texts that relegate quality issues to one or two chapters detailed discussions of such crucial topics as construct validity inter researcher reliability researcher bias and verification strategies are featured throughout The book also addresses applications of the TQF to the writing review and evaluation of qualitative research proposals and manuscripts **KEY WORDS** SUBJECT AREAS case study content analysis ethnographic ethnography focus groups interviews narrative proposal writing qualitative research reliability research designs research methods standards studies the literacy total quality framework transparency **AUDIENCE** Graduate students and instructors in education sociology psychology social work management communications and nursing researchers and evaluators seeking guidance for their qualitative research work *Managing Path-Breaking Innovations* Shantha Liyanage, Rudiger Wink, Markus Nordberg, 2006-12-30 Path breaking innovations are about instigating fundamental changes in people organizations communities and economies They are complex continuous and evolutionary processes that take considerable time resources and the efforts of many individuals and organizations to be accomplished successfully Representing distinct departures from existing practices they differ from other types of innovation such as product extensions and incremental

improvements By examining path breaking innovation processes through in depth analysis of several large scale initiatives around the world the authors explore how profound changes in product process and service can be explained and managed and consider the practical implications for scientific organizational institutional and political leaders concerned with channeling innovation toward economic growth In depth analysis of science and technology initiatives at CERN ATLAS Airbus and in stem cell research the authors explore and illuminate how profound changes in product process and service can be explained and managed Covering such issues as organizational culture types of knowledge and large scale project management and resource distribution the authors consider the practical implications of radical innovation for scientific organizational institutional and political leaders concerned with channeling innovation toward economic growth Fifty Years of Regional Science Raymond Florax,David A. Plane,2013-04-17 This book contains the complete text of the special Golden Anniversary issue of the flagship journal of the Regional Science Association International RSAI Papers in Regional Science Volume 83 Number 1 as well as the full text of Walter Isard s Presidential Address The future near and far of regional science Professor Isard originally delivered the speech in a special plenary session of the fiftieth North American Meetings of the Regional Science Association International The session began with a ceremonial kickoff to the year long celebration of the multidisciplinary field s first 50 years At the ceremony held on the morning of Friday November 21 2004 at the DoubleTree Hotel in Philadelphia we presented Walter Isard the founder of our multidisciplinary field as well as Antoine Bailly the President of the Regional Science Association International and David Boyce the Association s Archivist with commemorative first copies of the anniversary issue This book entitled Fifty Years of Regional Science consists of a compendium of thought papers authored by a representative sampling of some of the field s leading scholars For the special journal issue we originally titled the collection The Brightest of Dawns *Knowledge and Networks* Johannes Glückler,Emmanuel Lazega,Ingmar Hammer,2017-01-05 This book discusses a core question in many fields of the social sciences namely how to create share and adopt new knowledge It creates an original space for conversation between two lines of research that have developed largely in parallel for a long time social network theory and the geography of knowledge This book considers that relational thinking has become increasingly important for scholars to capture societal outcomes by studying social relations and networks whereas the role of place space and spatial scales has been somewhat neglected outside an emergent geography of knowledge The individual contributions help integrate network arguments of connectivity geographical arguments of contiguity and contextuality into a more comprehensive understanding of the ways in which people and organizations are constrained by and make use of space and networks for learning and innovation Experts in the fields of geography sociology economics political science psychology management and organizational studies develop conceptual models and propose empirical research that illustrates the ways in which networks and geography play together in processes of innovation learning leadership and power This book is open access under a CC BY 4 0 license **Advanced**

Wireless Networks Savo G. Glisic, 2016-07-22 The third edition of this popular reference covers enabling technologies for building up 5G wireless networks Due to extensive research and complexity of the incoming solutions for the next generation of wireless networks it is anticipated that the industry will select a subset of these results and leave some advanced technologies to be implemented later This new edition presents a carefully chosen combination of the candidate network architectures and the required tools for their analysis Due to the complexity of the technology the discussion on 5G will be extensive and it will be difficult to reach consensus on the new global standard The discussion will have to include the vendors operators regulators as well as the research and academic community in the field Having a comprehensive book will help many participants to join actively the discussion and make meaningful contribution to shaping the new standard

Imagineering Cultural Vienna Johannes Suitner, 2015-05-15 Media discourses always consider Vienna as a cultural city This study shows how such a perception is skilfully shaped by political constructions of cultural imaginaries in and of the city The book unveils how simplistic cognitive interpretations of culture not only define an unquestioned reductionist idea of the city's cultural character it also explains how these imaginaries influence the recent urban development practice in one of Europe's globalizing cities

The Changing Governance of Renewable Natural Resources in Northwest Russia Soili Nysten-Haarala, 2016-04-01 Bringing together scholars of human geography environmental sociology law economics and international policy from Finland Russia Sweden and Germany this book examines how local communities and enterprises

adjust to transition and institutional changes in Northwest Russia A unique and important facet of the book is that it analyzes the law and legal institutions focusing on how those involved in law use or abuse it in relation to unofficial institutions and the interplay of different interest groups in governing forest and fishery resources The local view is approached empirically with data gathered through interviews which is then compared against institutional change at national level and in the global arena Multidisciplinary in nature the book demonstrates innovative ways of adjusting to change combining old and new local and global and providing a holistic view of the Russian economy and a society in transition Turnaround Management and Bankruptcy Jan Adriaanse, Jean-Pierre van der Rest, 2017-03-27 Written by leading experts in the field of business finance law and economics this edited volume brings together the latest thoughts and developments on turnaround management and business rescue from an academic judiciary and turnaround insolvency practitioner perspective Turnaround Management and Bankruptcy presents different viewpoints on turnarounds and business rescue in Europe Presenting a state of the art review of failure research in finance such as on bankruptcy prediction causes of decline or distressed asset valuation It also presents the latest insights from turnaround management research as well as giving a contemporary insight into law debates on insolvency legislation reform cross border judicial issues bankruptcy decision making by judges and competition policy in distressed economies Finally the book provides a regional and sector perspective on how the current crisis affects Europe its government policies and industry performance In this way the volume presents a modern interdisciplinary and scholarly overview of the latest insights issues and debates in turnaround management and business rescue developing a European perspective in an attempt to redress the predominance of an American orientation in the academic literature It aims at a wider audience interested in turnarounds and failure such as faculty and students in the fields of law business economics accountancy finance strategic management and marketing but also at judges insolvency practitioners lawyers accountants and turnaround professionals as well as the EU and government officials staff of trade unions and employer s associations

What Future for Social Security? Jochen Clasen, 2002-07-27 By drawing on data and theories in a broad spectrum of disciplines including political science economics sociology and law this work provides an authoritative assessment of the current state of social security reform **Feynman's Thesis** Richard Phillips Feynman, Laurie M. Brown, 2005 Richard Feynman s never previously published doctoral thesis formed the heart of much of his brilliant and profound work in theoretical physics Entitled The Principle of Least Action in Quantum Mechanics its original motive was to quantize the classical action at a distance electrodynamics Because that theory adopted an overall space time viewpoint the classical Hamiltonian approach used in the conventional formulations of quantum theory could not be used so Feynman turned to the Lagrangian function and the principle of least action as his points of departure The result was the path integral approach which satisfied and transcended its original motivation and has enjoyed great success in renormalized quantum field theory including the derivation of the ubiquitous Feynman diagrams for elementary particles Path integrals have many other

applications including atomic molecular and nuclear scattering statistical mechanics quantum liquids and solids Brownian motion and noise theory It also sheds new light on fundamental issues like the interpretation of quantum theory because of its new overall space time viewpoint The present volume includes Feynman s Princeton thesis the related review article Space Time Approach to Non Relativistic Quantum Mechanics Reviews of Modern Physics 20 1948 367 387 Paul Dirac s seminal paper The Lagrangian in Quantum Mechanics Physikalische Zeitschrift der Sowjetunion Band 3 Heft 1 1933 and an introduction by Laurie M Brown

Now and Rome Ika Willis,2010-11-11 Now and Rome is about the way that sovereign power regulates the movement of information and the movement of bodies through space and time Through a series of readings of three key Latin literary texts alongside six contemporary cultural theorists Ika Willis argues for an understanding of sovereignty as a system which enforces certain rules for legibility transmission and circulation on both information and bodies redefining the relationship between the virtual and the material This book is both innovative and important in that it brings together several key strands in recent thinking about sovereignty history space and telecommunications especially in the way it brings together textual theories reception deconstruction with political and spatial thinking It also serves as a much needed crossing point between Classical Studies and cultural theory

Human Resource Management in Nonprofit Organizations Alina McCandless Baluch,2011-11-28 Human resource management HRM can aid nonprofit organizations NPOs in facing uncertain changing environments of funding pressures increasing competition and demand for services as well as internal challenges As the distinguishing features of NPOs can render the professionalization of HRM different from the private and public sectors this book fills a gap in the literature by offering an in depth look at how this distinctive nature of NPOs shapes the development and implementation of their HR practices Timely and topical this book addresses the professionalization of HRM in the nonprofit sector using examples from an exploratory multiple case study of NPOs selected across different fields Not only does it offer both students and practitioners in the field of HRM and nonprofit management a better understanding of the specific challenges for HRM that stem from the management of several contradictory bottom lines in NPOs but it also highlights the opportunities that distinguishing nonprofit features create for the development and implementation of HR practices By illustrating how NPOs can invest in learning and adapting processes that aid them in the alteration of HRM this book is an essential resource for those involved in designing implementing and studying HRM in NPOs

Energy from the Desert Keiichi Komoto, 2013 This 4th volume in the established Energy From The Desert series examines and evaluates the potential and feasibility of Very Large Scale Photovoltaic Power Generation VLS PV systems which have capacities ranging from several megawatts to gigawatts and to develop practical project proposals toward implementing the VLS PV systems in the future Comprehensively analysing all major issues involved in such large scale applications based on the latest scientific and technological developments and by means of close international co operation with experts from different countries From the perspective of the global energy situation global warming and other environmental issues it is apparent that VLS PV systems can contribute substantially to global energy needs become economically and technologically feasible soon contribute significantly to the global environment protection contribute significantly to socio economic development Energy policies around the world are gradually changing direction to focus less on nuclear energy with the expectation to turn to denuclearization entirely with the negative impacts of nuclear energy while in parallel the importance of and expectations for renewable energy technologies are increasing drastically as possible energy infrastructure as well as environmental friendly technology This book recognises that very large scale solar electricity generation provides economic social and environmental benefits security of electricity supply and fair access to affordable and sustainable energy solutions and that VLS PV systems must be one of the promising options for large scale deployment of PV systems and renewable energy technologies

Toward a New Legal Common Sense Boaventura de Sousa Santos, 2020-10-01 Paradigmatic transition is the idea that ours is a time of transition between the paradigm of modernity which seems to have exhausted its regenerating capacities and another emergent time of which so far we have seen only signs Modernity as an ambitious and revolutionary sociocultural paradigm based on a dynamic tension between social regulation and social emancipation the prevalent dynamic in the sixteenth century has by the twenty first century tilted in favour of regulation to the detriment of emancipation The collapse of emancipation into regulation and hence the impossibility of thinking about social emancipation consistently symbolizes the exhaustion of the paradigm of modernity At the same time it signals the emergence of a new paradigm or new paradigms This updated 2020 edition is written for students taking law and globalization courses and political science philosophy and sociology students doing optional subjects

Pension Reform in Europe Camila Arza, Martin Kohli, 2007-08-07 This new book provides a cross country comparative analysis of the key issues shaping the latest pension reforms in Europe political games welfare models and pathways population reactions and observed and expected outcomes Pension reform has been a top policy priority for European governments in the last decade Ageing populations changing labour market patterns and the process of European integration are the irresistible forces pushing for reform throughout the region The Political Economy of Pension Reform evaluates the political forces that make pension reform viable in different

national and institutional contexts and the nature of political bargains actors and cleavages surrounding policy change The volume also examines the nature and outcomes of pension reform experiences in Europe searching for a solution to the financial challenge posed by growing pension budgets By addressing the nature of change the pathways of reform and the outcomes of the new pension mix in the region the authors conclude with an analysis of people s perceptions and attitudes towards pension policy and their acceptance or otherwise of different reform options This book will be of interest to students and scholars of international political economy European politics and social policy *Corpora, Constructions, New Englishes* Samantha Laporte, 2021-06-15 This book takes an integrated approach to the fields of Corpus Linguistics Construction Grammar and World Englishes through a thorough constructional and corpus based examination of the patterning of the versatile high frequency verb make in British English and New Englishes It contributes to Construction Grammar theory by adopting a verb based rather than construction based perspective on argument structure This allows the probing of the interface between verb independent generalizations and item specificity from an underexplored angle that offers new insights into the shape of the constructicon From a variationist perspective it seeks to i identify features of New Englishes and gauge whether these features exhibit traces of conventionalization and ii assess whether the degree of institutionalization of the New Englishes correlates with linguistic behavior both from a social and cognitive perspective thereby contributing to the budding effort to integrate the cognitive and social dimensions into the modeling of linguistic variation in World Englishes
