Regional Great Powers In International Politics:

Regional Great Powers in International Politics Iver B. Neumann, 1992-01-01 This book illuminates the complex interplay between specifically regional concerns and the wider international context which together define the regional hierarchy of states On top of that hierarchy is the regional great power Building on seven case studies of Brazil India Indonesia Israel Poland South Africa and Vietnam the authors demonstrate how this status cannot be attained simply by building up a huge military or economic power base The attitudes and ambitions of the aspiring state its regional neighbours and the great powers with global interests and reach must all be taken into consideration The sheer number of factors which sustain regional great powerhood makes that status a precarious one Although the end of the cold war may open up new regional space for regional great powers to exploit and so make them more important in providing for regional order the autonomy of regions may still easily be overestimated

Great Powers and Regional Orders Markus Kaim, 2016-04-22 Great Powers and Regional Orders explores the manifestations of US power in the Persian Gulf and the limits of American influence Significantly this volume explores both the impact of US domestic politics and the role played by the region itself in terms of regional policy order and stability Well organized and logically structured Markus Kaim and contributors have produced a new and unique contribution to the field that is applicable not only to US policy in the Persian Gulf but also to many other regional contexts This will interest anyone working or researching within foreign policy US and Middle Eastern politics

Major Powers and the Quest for Status in International Politics T. Volgy, R. Corbetta, K. Grant, R. Baird, 2011-05-11 This book explores the effects and consequences of major global power and major regional power status attribution on the foreign policies of states striving for such status and the consequences of status differentiation for the international system and the post Cold War international order

The Geopolitics of Regional Power Sören Scholvin, 2016-03-09 In the last two decades various states from the Global South have emerged as important players in international relations Most popular among them is China Brazil India and South Africa have also taken essential roles in global and regional politics Compared to traditional great powers they can be labelled regional great powers or regional powers because their influence is with the exception of China concentrated on their neighbourhood The impact of regions meaning the impact of geography on the economics and politics of regional powers is surprisingly understudied This book analyses how geographical conditions influence the regional economics and politics of South Africa allowing the author to delineate its region of influence

States, Nations, and the Great Powers Benjamin Miller, 2007-08-30 Why are some regions prone to war while others remain at peace What conditions cause regions to move from peace to war and vice versa This book offers a novel theoretical explanation for the differences in levels of and transitions between war and peace The author distinguishes between hot and cold outcomes depending on intensity of the war or the peace and then uses three key concepts state nation and the international system to argue that it is the specific balance between states and nations in

different regions that determines the hot or warm outcomes the lower the balance the higher the war proneness of the region while the higher the balance the warmer the peace The international systematic factors for their part affect only the cold outcomes of cold war and cold peace The theory of regional war and peace developed in this book is examined through case studies of the post 1945 Middle East the Balkans and South America in the nineteenth and twentieth centuries and post 1945 Western Europe It uses comparative data from all regions and concludes by proposing ideas on how to promote peace in war torn regions

South Asia and the Great Powers Sten Rynning, 2017-02-23 Where the implications of war and peace are open to question the possibility of change depends more on politics than economics This book asks whether the region's great powers can overcome opposing interests and commit to political restraint The concept of regional security is based on great power support for regional order However there are many pitfalls to consider notably the politics of contested nationalisms the Asia Pacific rivalry of China and the US and India's inclinations to function or be seen as a benevolent hegemon for the region Yet there are signs of renewed determination to move the region in new directions While China's Silk Road projects are long term regional investments that hinge on regional stability the US is attempting to fashion new partnerships and India strives to reconcile regional differences to promote a peaceful environment This book as it sets out the emerging agendas of the great powers and local powers makes a significant contribution to a better understanding of the international relations and diplomatic politics of South Asia

The Tragedy of Great Power Politics (Updated Edition)

John J. Mearsheimer, 2003-01-17 A superb book Mearsheimer has made a significant contribution to our understanding of the behavior of great powers Barry R Posen *The National Interest* The updated edition of this classic treatise on the behavior of great powers takes a penetrating look at the question likely to dominate international relations in the twenty first century Can China rise peacefully In clear eloquent prose John Mearsheimer explains why the answer is no a rising China will seek to dominate Asia while the United States determined to remain the world's sole regional hegemon will go to great lengths to prevent that from happening The tragedy of great power politics is inescapable

The international politics of the Middle East Raymond Hinnebusch, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This text aims to fill a gap in the field of Middle Eastern political studies by combining international relations theory with concrete case studies It begins with an overview of the rules and features of the Middle East regional system the arena in which the local states including Egypt Turkey Iran Israel and the Arab states of Syria Jordan and Iraq operate The book goes on to analyse foreign policy making in key states illustrating how systemic determinants constrain this policy making and how these constraints are dealt with in distinctive ways depending on the particular domestic features of the individual states Finally it goes on to look at the outcomes of state policies by examining several major conflicts including the Arab Israeli conflict and the Gulf War and the system of regional alignment The study assesses the impact of international penetration in the region including the historic reasons behind the formation of the regional state system It also analyses the

continued role of external great powers such as the United States and the former Soviet Union and explains the process by which the region has become incorporated into the global capitalist market

Regional Great Powers in International Politics Iver B. Neumann, 1992-06-18 Illuminates the interplay between regional concerns and the international context which together define the hierarchy of states Building on case studies this book demonstrates that this status cannot be attained solely by building a military or economic power base

The Great Powers and Global Struggle, 1490-1990 Karen A. Rasler, William R. Thompson, 2021-10-21 In *The Great Powers and Global Struggle* Karen A Rasler and William R Thompson focus on two themes the rise and fall as well as the relative decline of major world powers over the past five hundred years and the way in which these processes have set the stage for the outbreak of global war Their interdisciplinary approach encompasses political science economics sociology geography and history The most significant wars occur when regional leaders historically in Western Europe challenge global leaders By studying the wars of Napoleon Louis XIV Phillip II and the Italian Indian Ocean wars of the sixteenth century through World Wars I and II to the present the authors challenge the long held idea that prosperity leads to over consumption and underinvestment and thus decline a theory traceable to ancient times that remains the principal explanation for global decline today Arguments about global structural change and its implications abound but rarely is the abstract translated into concrete historical terms with emphases on specific actors and empirical documentation Rasler and Thompson reinterpret the past five hundred years of major power warfare and provide extensive tests of the eighteen generalizations critical to their argument They conclude that those who argue that global war and repositioning are no longer a concern among the major powers lack critical understanding of the behavior that contributes to such conflict

International Relations Theory and Regional Transformation T. V. Paul, 2012-02-23 A comprehensive treatment of regional transformation offering insights from different theoretical perspectives and generating a range of policy relevant ideas

Regional Powers and Regional Orders Nadine Godehardt, Dirk Nabers, 2011-05-12 *Regional Powers and Regional Orders* presents a re examination and re conceptualization of the concept of region and its function within power and order systems Utilising a comparative and case study approach the

volume examines new regional powers such as Brazil China India Russia and South Africa These territories as regional powers are novel phenomenon in the field of international politics and even more so in the field of international relations The book focuses on the emerging role of these new regional powers within their respective region and asks how other members of these regions cope with and react to that role Regional Powers and Regional Orders will be of interest to students and scholars of international and regional politics and power and international relations

Beyond Great Powers and Hegemons Kristen P. Williams, Steven E. Lobell, Neal G. Jesse, 2012-03-28 This book adds a new dimension to the discussion of the relationship between the great powers and the weaker states that align with them or not Previous studies have focused on the role of the larger or super power and how it manages its relationships with other states or on how great or major powers challenge or balance the hegemonic state Beyond Great Powers and Hegemons seeks to explain why weaker states follow more powerful global or regional states or tacitly or openly resist their goals and how they navigate their relationships with the hegemon The authors explore the interests motivations objectives and strategies of these followers including whether they can and do challenge the policies and strategies or the core position of the hegemon Through the analysis of both historical and contemporary cases that feature global and regional hegemons in Europe Latin America the Middle East Africa Asia and South Asia and that address a range of interest areas from political to economic and military the book reveals the domestic and international factors that account for the motivations and actions of weaker states

Restraining Great Powers T. V. Paul, 2018-01-01 At the end of the Cold War the United States emerged as the world's most powerful state and then used that power to initiate wars against smaller countries in the Middle East and South Asia According to balance of power theory the bedrock of realism in international relations other states should have joined together militarily to counterbalance the United States rising power Yet they did not Nor

have they united to oppose Chinese aggression in the South China Sea or Russian offensives along its western border This does not mean balance of power politics is dead argues renowned international relations scholar T V Paul instead it has taken a different form Rather than employ familiar strategies such as active military alliances and arms buildups leading powers have engaged in soft balancing which seeks to restrain threatening powers through the use of international institutions informal alignments and economic sanctions Paul places the evolution of balancing behavior in historical perspective from the post Napoleonic era to today s globalized world This book offers an illuminating examination of how subtler forms of balance of power politics can help states achieve their goals against aggressive powers without wars or arms races

China's Ascent Robert S. Masys,2021-06-22 Over the past decade the international political system has come to be characterized as a Great Power Competition in which multiple would be hegemons compete for power and influence Instead of a global climate of unchallenged United States dominance revisionist powers notably China and Russia alongside other regional powers are vying for dominance through political military and economic means A critical battleground in the Great Power Competition is the Middle East the Horn of Africa and the Central Asia South Asia CASA also known as the Central Region With the planned withdrawal of U S military forces from Afghanistan the U S has stated its intention of shifting attention away from the CASA Region in favor of a more isolationist foreign policy approach This book provides an in depth understanding of the implications for this shift related to regional diplomacy politics economic opportunities rivalries security considerations interests and the information environment Amplifying the vital importance of success in the Central Region to U S prosperity and security this volume advances dialogue in identifying key issues for stakeholders within and beyond the Central Region to gain a holistic perspective that better informs decision making at various levels This collection of work comes from scholars strategic thinkers and subject matter experts who participated in the Great Power Competition Conference hosted by the University of South Florida in partnership with the National Defense University Near East South Asia Center for Strategic Strategies in January 2020
