Regional Peacekeepers The Paradox Of Rubian Peacekeeping:

Regional Peacekeepers John Mackinlay, Peter Cross, 2003 Despite the disintegration of the Soviet Union during the 1990s Russia has continued to maintain its longstanding obligations and strategic interests in former Soviet territories This publication examines Russia's military interventions in regional conflicts to determine whether its role has been genuinely peacekeeping or more a post imperial presence that seeks to maintain former strategic interests It includes first hand accounts of the CIS peacekeeping efforts in South Ossetia Abkhazia Moldova and Tajikistan as well as contemporary assessments of Russian peacekeeping efforts alongside NATO forces as well as in Chechnya *Regional Peacekeepers*, 2008

Regional Security and Global Governance Kennedy Graham, Tânia Felício, 2006 A compelling study of the interaction between regional agencies and the UN Security Council that includes a proposal for a regional global security mechanism which should be of interest to policy makers worldwide This ground breaking exploration into how peace and security might best be attained in the 21st century its central message is the importance of realizing UN Secretary General Kofi Annan's vision of a regional global security mechanism within the next decade The book reviews the historical tussle between universalism and regionalism as the cornerstone of international security over the past century culminating in the new regionalism that has characterised international relations in recent decades The complexities of contemporary regional sub regional and other organizations blessed and burdened with overlapping membership evolving mandates and even shifting focal areas are analysed The multidimensional phenomenon of regional security is explored cultural political and legal with a view to understanding how regional organizations work today This book is one of those rare offerings a policy oriented prescription for peace and security that is based on factual analysis and creative reasoning It is a must for national diplomats regional officials and international civil servants *Unintended Consequences of Peacekeeping Operations* Chiyuki Aoi, Cedric De Coning, Ramesh Chandra Thakur, Ramesh Thakur, 2007 The deployment of a large number of soldiers police officers and civilian personnel inevitably has various effects on the host society and economy not all of which are in keeping with the peacekeeping mandate and intent or are easily discernible prior to the intervention This book is one of the first attempts to improve our understanding of unintended consequences of peacekeeping operations by bringing together field experiences and academic analysis The aim of the book is not to discredit peace operations but rather to improve the way in which such operations are planned and managed *Peace Operations* Paul F. Diehl, 2013-08-26 Peacekeeping has gradually evolved to encompass a broad range of different conflict management missions and techniques which are incorporated under the term peace operations Well over 100 missions have been deployed the vast majority within the last twenty years This book provides an overview of the central issues surrounding the development operation and effectiveness of peace operations Among many features the book Traces the historical development of peace operations from their origins in the early 20th century through the development of modern peacebuilding missions Tracks changes over time in the size mission and

organization of peace operations Analyses different organizational financial and troop provisions for peace operations as well as assessing alternatives Lays out criteria for evaluating peace operations and details the conditions under which such operations are successful As peace operations become the primary mechanism of conflict management used by the UN and regional organizations understanding their problems and potential is essential for a more secure world Drawing on a wide range of examples from those between Israel and her neighbors to more recent operations in Somalia and the Congo this book brings together the body of scholarly research on peace operations to address those concerns It will be an indispensable guide for students practitioners and general readers wanting to broaden their knowledge of the possibilities and limits of peace operations today Journal of Middle Eastern Geopolitics ,2007 Humanitarian Military Intervention Taylor B. Seybolt,2007 Military intervention in a conflict without a reasonable prospect of success is unjustifiable especially when it is done in the name of humanity Couched in the debate on the responsibility to protect civilians from violence and drawing on traditional just war principles the central premise of this book is that humanitarian military intervention can be justified as a policy option only if decision makers can be reasonably sure that intervention will do more good than harm This book asks Have past humanitarian military interventions been successful It defines success as saving lives and sets out a methodology for estimating the number of lives saved by a particular military intervention Analysis of 17 military operations in six conflict areas that were the defining cases of the 1990s northern Iraq after the Gulf War Somalia Bosnia and Herzegovina Rwanda Kosovo and East Timor shows that the majority were successful by this measure In every conflict studied however some military interventions succeeded while others failed raising the question Why have some past interventions been more successful than others This book argues that the central factors determining whether a humanitarian intervention succeeds are the objectives of the intervention and the military strategy employed by the intervening states Four types of humanitarian military intervention are offered helping to deliver emergency aid protecting aid operations saving the victims of violence and defeating the perpetrators of violence The focus on strategy within these four types allows an exploration of the political and military dimensions of humanitarian intervention and highlights the advantages and disadvantages of each of the four types Humanitarian military intervention is controversial Scepticism is always in order about the need to use military force because the consequences can be so dire Yet it has become equally controversial not to intervene when a government subjects its citizens to massive violation of their basic human rights This book recognizes the limits of humanitarian intervention but does not shy away from suggesting how military force can save lives in extreme circumstances **The United Nations and Security Sector Reform** Adedeji Ebo, Heiner Haenggi, 2020 Multilateral organizations the United Nations UN in particular have played and continue to play an important role in shaping the security sector reform SSR agenda both in terms of policy development and the provision of support to a wide range of national SSR processes This volume presents a variety of perspectives on UN support to SSR past and present with attention

to policy and operational practice Drawing from the experience of UN practitioners combined with external experts on SSR this volume offers an in depth exploration of the UN approach to SSR from a global perspective *Making Gender, Making War* Annica Kronsell,Erika Svedberg,2011-09-08 Making Gender Making War is a unique interdisciplinary edited collection which explores the social construction of gender war making and peacekeeping It highlights the institutions and processes involved in the making of gender in terms of both men and women masculinity and femininity The war question for feminism marks a thematic red thread throughout it is a call to students and scholars of feminism to take seriously and engage with the task of analyzing war Contributors analyze how war making is intertwined with the making of gender in a diversity of empirical case studies organized around four themes gender violence and militarism how the making of gender is connected to a re making of the nation through military practices UN SCR 1325 and gender mainstreaming in institutional practices and gender subjectivities in the organization of violence exploring the notion of violent women and non violent men *Cascades of Violence* John Braithwaite,Bina D'Costa,2018-02-01 As in the cascading of water violence and nonviolence can cascade down from commanding heights of power as in waterfalls up from powerless peripheries and can undulate to spread horizontally flowing from one space to another As with containing water conflict cannot be contained without asking crucial questions about which variables might cause it to cascade from the top down bottom up and from the middle out The book shows how violence cascades from state to state Empirical research has shown that nations with a neighbor at war are more likely to have a civil war themselves Sambanis 2001 More importantly in the analysis of this book war cascades from hot spot to hot spot within and between states Autesserre 2010 2014 The key to understanding cascades of hot spots is in the interaction between local and macro cleavages and alliances Kalyvas 2006 The analysis exposes the folly of asking single level policy questions like do the benefits and costs of a regime change in Iraq justify an invasion We must also ask what other violence might cascade from an invasion of Iraq The cascades concept is widespread in the physical and biological sciences with cascades in geology particle physics and the globalization of contagion The past two decades has seen prominent and powerful applications of the cascades idea to the social sciences Sunstein 1997 Gladwell 2000 Sikkink 2011 In his discussion of ethnic violence James Rosenau 1990 stressed that the image of turbulence developed by mathematicians and physicists could provide an important basis for understanding the idea of bifurcation and related ideas of complexity chaos and turbulence in complex systems He classified the bifurcated systems in contemporary world politics as the multicentric system and the statecentric system Each of these affects the others in multiple ways at multiple levels and in ways that make events enormously hard to predict Rosenau 1990 2006 He replaced the idea of events with cascades to describe the event structures that gather momentum stall reverse course and resume anew as their repercussions spread among whole systems and subsystems 1990 299 Through a detailed analysis of case studies in South Asia that built on John Braithwaite s twenty five year project Peacebuilding Compared and coding of conflicts in different parts of the globe we

expand Rosenau's concept of global turbulence and images of cascades In the cascades of violence in South Asia we demonstrate how micro events such as localized riots land grabbing pervasive militarization and attempts to assassinate political leaders are linked to large scale macro events of global politics We argue in order to prevent future conflicts there is a need to understand the relationships between history structures and agency interest values and politics global and local factors and alliances Making States Work United Nations University,2005 The point of departure for this collection of articles is the idea that there is a link between international peace and strong states respectful of human rights and robust civil societies Presented by Chesterman New York U School of Law US Ignatieff Harvard U's John F Kennedy School of Government US and Thakur United Nations University World Development Report 2011 World Bank,2011-05-01 The 2011 WDR on Conflict Security and Development underlines the devastating impact of persistent conflict on a country or region's development prospects noting that the 1.5 billion people living in conflict affected areas are twice as likely to be in poverty Its goal is to contribute concrete practical suggestions on conflict and fragility **Humanitarian Reason** Didier Fassin,2011-10-03 In the face of the world's disorders moral concerns have provided a powerful ground for developing international as well as local policies Didier Fassin draws on case materials from France South Africa Venezuela and Palestine to explore the meaning of humanitarianism in the contexts of immigration and asylum disease and poverty disaster and war He traces and analyzes recent shifts in moral and political discourse and practices what he terms humanitarian reason and shows in vivid examples how humanitarianism is confronted by inequality and violence Deftly illuminating the tensions and contradictions in humanitarian government he reveals the ambiguities confronting states and organizations as they struggle to deal with the intolerable His critique of humanitarian reason respectful of the participants involved but lucid about the stakes they disregard offers theoretical and empirical foundations for a political and moral anthropology *New Perspectives on Liberal Peacebuilding* Edward Newman,Roland Paris,Oliver P. Richmond,2009 Africa Sierra Leone Afghanistan Bosnia Herzegovina Timor Leste Sri Lanka Palestine Israel United Nations Lebanon Cambodia Central America Cosmopolitan dystopia Philip Cunliffe,2020-01-31 Cosmopolitan Dystopia shows that rather than populists or authoritarian great powers it is cosmopolitan liberals who have done the most to subvert the liberal international order Cosmopolitan Dystopia explains how liberal cosmopolitanism has led us to treat new humanitarian crises as unprecedented demands for military action thereby trapping us in a loop of endless war Attempts to normalize humanitarian emergency through the doctrine of the responsibility to protect has made for a paternalist understanding of state power that undercuts the representative functions of state sovereignty The legacy of liberal intervention is a cosmopolitan dystopia of permanent war insurrection by cosmopolitan jihadis and a new authoritarian vision of sovereignty in which states are responsible for their peoples rather than responsible to them This book will be of vital interest to scholars and students of international relations IR theory and human rights *Peacebuilding, Power, and Politics in Africa* Devon Curtis,Gwinyayi A.

Dzinesa, 2012-09-21 *Peacebuilding Power and Politics in Africa* is a critical reflection on peacebuilding efforts in Africa. The authors expose the tensions and contradictions in different clusters of peacebuilding activities including peace negotiations, statebuilding, security sector governance and disarmament, demobilization and reintegration. Essays also address the institutional framework for peacebuilding in Africa and the ideological underpinnings of key institutions including the African Union, NEPAD, the African Development Bank, the Pan African Ministers Conference for Public and Civil Service, the UN Peacebuilding Commission, the World Bank and the International Criminal Court. The volume includes on the ground case study chapters on Sudan, the Great Lakes Region of Africa, Sierra Leone and Liberia, the Niger Delta, Southern Africa and Somalia, analyzing how peacebuilding operates in particular African contexts. The authors adopt a variety of approaches but they share a conviction that peacebuilding in Africa is not a script that is authored solely in Western capitals and in the corridors of the United Nations. Rather, the writers in this volume focus on the interaction between local and global ideas and practices in the reconstitution of authority and livelihoods after conflict. The book systematically showcases the tensions that occur within and between the many actors involved in the peacebuilding industry as well as their intended beneficiaries. It looks at the multiple ways in which peacebuilding ideas and initiatives are reinforced, questioned, reappropriated and redesigned by different African actors. A joint project between the Centre for Conflict Resolution in Cape Town, South Africa and the Centre of African Studies at the University of Cambridge.

US Nation-Building in Afghanistan Conor Keane, 2016-03-31 Why has the US so dramatically failed in Afghanistan since 2001? Dominant explanations have ignored the bureaucratic divisions and personality conflicts inside the US state. This book rectifies this weakness in commentary on Afghanistan by exploring the significant role of these divisions in the US's difficulties in the country that meant the battle was virtually lost before it even began. The main objective of the book is to deepen readers' understanding of the impact of bureaucratic politics on nation building in Afghanistan, focusing primarily on the Bush Administration. It rejects the rational actor model according to which the US functions as a coherent monolithic agent. Instead, internal divisions within the foreign policy bureaucracy are explored to build up a picture of the internal tensions and contradictions that bedeviled US nation building efforts. The book also contributes to the vexed issue of whether or not the US should engage in nation building at all and if so under what conditions.

The Dilemmas of Statebuilding Roland Paris, Timothy D. Sisk, 2009-01-13 This book explores the contradictions that emerge in international statebuilding efforts in war-torn societies. Since the end of the Cold War, more than 20 major peace operations have been deployed to countries emerging from internal conflicts. This book argues that international efforts to construct effective legitimate governmental structures in these countries are necessary but fraught with contradictions and vexing dilemmas. Drawing on the latest scholarly research on postwar peace operations, the volume addresses cutting edge issues of statebuilding including coordination, local ownership, security elections, constitution making and delivery of development aid. Features contributions by leading and up and coming scholars, provides empirical

case studies including Afghanistan Cambodia Croatia Kosovo Liberia Sierra Leone South Africa and others presents policy relevant findings of use to students and policymakers alike The Dilemmas of Statebuilding will be vital reading for students and scholars of international relations and political science Bringing new insights to security studies international development and peace and conflict research it will also interest a range of policy makers [Dealing With Conflict in Africa](#) J. Boulden,2015-11-09 Dealing with Conflict in Africa analyzes the role of the various organizations involved in conflict resolution in Africa The bulk of the chapters examine case studies of the major conflicts in Africa such as the Congo War For each case study the author looks at what responsibilities and tasks were taken on by different organizations the relationship between the organizations and seeks to determine which kind of organization is the most effective in working towards successful conflict resolution The contributors also examine the effectiveness of coalitions of states or eminent leaders to that of UN cooperation with regional organizations and what directions this cooperation should take in the future The contributors are an international group of scholars and consultants all of whom are well positioned to analyze these issues

The Peacebuilding Puzzle Naazneen Barma,2017 Demonstrates how post conflict elites interact with international peacebuilding interventions to construct hybrid political orders over time This title is also available as Open Access
