Oregon Blue Book Oregon. Office of the Secretary of State,1983 **PEFA, Public Financial Management, and Good Governance** Jens Kromann Kristensen,Martin Bowen,Cathal Long,Shakira Mustapha,Urška Zrinski,2019-11-24 This project based on the Public Expenditure and Financial Accountability PEFA data set researched how PEFA can be used to shape policy development in public financial management PFM and other major relevant policy areas such as anticorruption revenue mobilization political economy analysis and fragile states The report explores what shapes the PFM system in low and middle income countries by examining the relationship between political institutions and the quality of the PFM system Although the report finds some evidence that multiple political parties in control of the legislature is associated with better PFM performance the report finds the need to further refine and test the theories on the relationship between political institutions and PFM The report addresses the question of the outcomes of PFM systems distinguishing between fragile and nonfragile states It finds that better PFM performance is associated with more reliable budgets in terms of expenditure composition in fragile states but not aggregate budget credibility Moreover in contrast to existing studies it finds no evidence that PFM quality matters for deficit and debt ratios irrespective of whether a country is fragile or not The report also explores the relationship between perceptions of corruption and PFM performance It finds strong evidence of a relationship between better PFM performance and improvements in perceptions of corruption It also finds that PFM reforms associated with better controls have a stronger relationship with improvements in perceptions of corruption compared to PFM reforms associated with more transparency The last chapter looks at the relationship between PEFA indicators for revenue administration and domestic resource mobilization It focuses on the credible use of penalties for noncompliance as a proxy for the type of political commitment required to improve tax performance The analysis shows that countries that credibly enforce penalties for noncompliance collect more taxes on average *Government Finance Statistics Manual 2014* Mrs.Sage De Clerck,Tobias Wickens,2015-03-10 The 2007 09 international financial crisis underscored the importance of reliable and timely statistics on the general government and public sectors Government finance statistics are a basis for fiscal analysis and they play a vital role in developing and monitoring sound fiscal programs and in conducting surveillance of economic policies The Government Finance Statistics Manual 2014 represents a major step forward in clarifying the standards for compiling and presenting fiscal statistics and strengthens the worldwide effort to improve public sector reporting and transparency **China's Local Public Finance in Transition** Joyce Y. Man,Yu-hung Hong,2011 China s economy has developed rapidly since the economic reforms in 1978 but public finance reforms have proceeded more slowly This book looks at three major policy options addressing the underlying imbalance between revenues and expenditures at the local level in China This is a valuable resource for anyone interested in local fiscal issues in China Theory of Public Finance in a Federal State Dietmar Wellisch,2000-01-13 The central question of this book is whether the assignment of

government functions to the individual jurisdictions in a federal state can ensure an optimal allocation of resources and a fair income distribution. The analysis thereby gives a new answer to the old question about the optimal degree of fiscal decentralization in a federal state. It shows that fiscal decentralization is a method to disclose the preferences of currently living and future generations for local public goods to limit the size of the government and to avoid excessive public debt finance. While the allocative branch of the government benefits from fiscal decentralization, it is difficult to obtain a distribution of incomes that differs from the outcome that the market brings along.

Public Finance in China Jiwei Lou, Shuilin Wang, 2008-01-31. Since 1980 China's economy has been the envy of the world. Its annual growth rate of more than 9 percent during this period makes China today the world's fourth largest economy. And this sustained growth has reduced the poverty rate from 60 percent of the population to less than 10 percent. However, such rapid growth has also increased inequalities in income and access to basic services and stressed natural resources. The government seeks to resolve these and other issues by creating a harmonious society, shifting priorities from the overriding pursuit of growth to more balanced economic and social development. This volume compiles analyses and insights from high-level Chinese policy makers and prominent international scholars that address the changes needed in public finance for success in the government's new endeavor. It examines such key policy issues as public finance and the changing role of the state, fiscal reform and revenue and expenditure assignments, intergovernmental relations and fiscal transfers and financing and delivery of basic public goods such as compulsory education, innovation, public health and social protection. And it offers concrete recommendations for immediate policy changes and for China's future reform agenda. *Public Finance in China* is a must read for specialists in public finance and for those seeking an understanding of the complex and daunting challenges China is facing.

Government Finance Statistics Manual 2001 International Monetary Fund, 2001-12-19. This Manual, which updates the first edition published in 1986, is a major advance in the standards for compilation and presentation of fiscal statistics. It is intended as a reference volume for compilers of government finance statistics, fiscal analysts and other users of fiscal data. The Manual introduces accrual accounting, balance sheets and complete coverage of government economic and financial activities. It covers concepts, definitions, classifications and accounting rules and provides a comprehensive framework for analysis, planning and policy determination. To the extent possible, the Manual has been harmonized with the System of National Accounts 1993.

Climate-Sensitive Management of Public Finances—"Green PFM" Mr. Fabien Gonguet, Mr. Claude P Wendling, Ozlem Aydin Sakrak, Bryn Battersby, 2021-08-11. Public financial management (PFM) consists of all the government's institutional arrangements in place to facilitate the implementation of fiscal policies. In response to the growing urgency to fight climate change, green PFM aims at adapting existing PFM practices to support climate-sensitive policies. With the cross

cutting nature of climate change and wider environmental concerns green PFM can be a key enabler of an integrated government strategy to combat climate change This note outlines a framework for green PFM emphasizing the need for an approach combining various entry points within across and beyond the budget cycle This includes components such as fiscal transparency and external oversight and coordination with state owned enterprises and subnational governments The note also identifies principles for effective implementation of a green PFM strategy among which the need for a strong stewardship located within the ministry of finance is paramount

Texts Adopted Congress of Local and Regional Authorities of Europe,2009-03-27 This publication brings together the texts adopted by the Standing Committee of the Congress of Local and Regional Authorities of the Council of Europe The Congress a consultative body of the Council of Europe is made up of two chambers one representing local authorities the other the regions Its aim is to reinforce democratic structures at local and regional level and in particular to help the newly emerging democracies in central and eastern Europe The Congress adopts three different types of texts recommendations opinions and resolutions Recommendations are proposals to the Committee of Ministers and their application is left up to each member government Sometimes they are also addressed to other international organisations Opinions usually refer to questions to the Congress from the Committee of Ministers or the Parliamentary Assembly The Committee of Ministers and the Parliamentary Assembly consult the Congress on questions which are likely to affect the competence and the basic interests of the local and regional authorities which the Congress represents Resolutions reflect the decisions that the Congress is authorised to take or make recommendations to local and or regional authorities and their associations

Fiscal Decentralization and Local Finance in Developing Countries Roy Bahl,Richard M. Bird,2018-03-30 This book draws on experiences in developing countries to bridge the gap between the conventional textbook treatment of fiscal decentralization and the actual practice of subnational government finance The extensive literature about the theory and practice is surveyed and longstanding problems and new questions are addressed It focuses on the key choices that must be made in decentralizing on how economic and political factors shape the choices that countries make and on how by paying more attention to the need for a more comprehensive approach and the critical connections between different components of decentralization reform everyone involved might get more for their money

Regional Government Law Yahya Ahmad Zein,Mawardi Khairi,Rinda Philona,2022-02-17 This Regional Government Law book is highly recommended to be used as a reference book related to the provisions and laws that apply in the regional government order This book also reviews regional government laws in countries that adhere to a federal and unitary system other than Indonesia Detailed description of regional government in Indonesia is also written in this book based on reference sources and current laws Complete information related to regional government makes this book not only as a reference book in universities it can also be used as a reading by anyone who has a concern for regional government especially in Indonesia

Regional Public Finances Jan Mønnesland,2003 Regional and

local governments play a crucial role in regional development. They both constitute themselves as a key industrial sector where employment and activities may have a significant impact on total regional activity figures and they may engage in schemes and initiatives in order to support the industrial life in their region to attract newcomers. In such a situation it is of vital importance to understand how the regional and local levels of government are financed and to what extent there are national schemes and/or regulations aiming to influence the distribution of finances between the local and regional units. Having legislative power the state can attempt to influence the scope of action of local government units. The question is how and to what extent should the state influence local government. The state can act legislatively as well as economically where transfer systems as well as tax regulations will be important aspects of the policy towards the local government sector. This book offers a broad range of analysis on the regional finance systems operating in various European countries. It focuses on the aims as well as the mechanisms, discussing outcomes as well as side effects. At a time when the financial situation of regional and local governments has come under stress and the division of power between the different governmental levels is under discussion in most European countries it is important to look closely at these experiences in a broader European context. P 4 of cover A *The Oxford Handbook of State and Local Government Finance* Robert D. Ebel, John E.

Petersen, 2012-03-21 This handbook evaluates the persistent problems in the fiscal systems of state and local governments and what can be done to solve them. Each chapter provides a description of the discipline area, examines major developments in policy practices and research, and opines on future prospects. *Regional Public Goods* Antoni Esteve, de Oñativia, Brian Frantz, Tam Robert Nguyen, 2004 *Financial Strategy for Public Managers* Sharon Kioko, *Financial Strategy for Public Managers* is a new generation textbook for financial management in the public sector. It offers a thorough applied and concise introduction to the essential financial concepts and analytical tools that today's effective public servants need to know. It starts at the beginning and assumes no prior knowledge or experience in financial management. Throughout the text Kioko and Marlowe emphasize how financial information can and should inform every aspect of public sector strategy from routine procurement decisions to budget preparation to program design to major new policy initiatives. They draw upon dozens of real world examples, cases and applied problems to bring that relationship between information and strategy to life. Unlike other public financial management texts the authors also integrate foundational principles across the government, non-profit and hybrid for benefit sectors. Coverage includes basic principles of accounting and financial reporting, preparing and analyzing financial statements, cost analysis and the process and politics of budget preparation. The text also includes several large case studies appropriate for class discussion and/or graded assignments. Open Textbook Library **Spain**

International Monetary Fund. European Dept., 2017-01-30 This 2016 Article IV Consultation highlights that Spain's economy has continued its recovery. Real GDP expanded by 3.2 percent in 2015 with the same growth rate expected for 2016 despite a prolonged period of domestic political uncertainty. Nearly 1.1 million jobs were created over the past two years. The rebound

in private consumption exports and investment aided by past reforms has remained the main driver of growth The current account is projected to record its fourth consecutive annual surplus Private sector balance sheets have further strengthened while public debt remains high at about 100 percent of GDP Real GDP growth is projected to moderate to 2.3 percent in 2017

Multi-level Finance and the Euro Crisis Ehtisham Ahmad, Massimo Bordignon, Giorgio Brosio, 2016-01-29 Representing a unique contribution to the analysis and discussion of the unfolding Eurozone crisis in terms of the relationship between central and local government this book addresses a number of important fiscal and political economy questions To what extent have local and regional governments contributed to the crisis To what degree have sub national services and investments borne the brunt of the adjustments How have multi level fissures affected tensions between different levels of government from the supranational to the local This volume covers these and many other critical issues that have been largely ignored despite their relevance The book first addresses general issues of fiscal coordination and management across levels of government in the context of incentives which can be altered by the existence of a supranational tier The country specific chapters prepared by leading experts provide a thorough review of the key problems of multi levels of government in the biggest economies in the Eurozone France and Germany and Southern Europe Portugal Spain Italy and Greece In further chapters the juxtaposition of Barcelona and Turin provides an opportunity to evaluate large investments in a multi level context associated in this case with the Olympics Macedonia provides a discussion of the related issues in an EU accession country As a whole the book explores the long term impact of the crisis on local service delivery and investment and the consequences for sustainable growth and political cohesion It also offers rarely found insights and suggestions to increase the stability and strength of multi level European institutions This is an enlightening resource for all those from academics and graduates to policy makers and practitioners seeking a comprehensive understanding of European fiscal federal and financial issues
