Regional Politics In The Gulf Saudi Arabia Oman Yemen:

Regional Politics in the Gulf Elham Manea, Ilhām Mānī', 2005 An absorbing account of three neighbouring Islamic countries with greatly differing political systems *Centers of Power in the Arab Gulf States* Kristian Coates Ulrichsen, 2024-02-01 How are authority and influence accumulated and wielded across the six Gulf states Mixing theoretical and empirical insights and utilising both historical and contemporary examples this book offers a comparative analysis of military political economic and religious power in Bahrain Kuwait Oman Qatar Saudi Arabia and the UAE as well as of the power of narrative While many volumes examine each of these states individually *Centers of Power in the Arab Gulf States* assesses the Arabian Peninsula as a whole filling a significant gap in the literature It surveys the myriad factors which have influenced the emergence of these states societies and political economies which have become increasingly assertive actors in today's global order Exploring domestic regional and transnational pressures Kristian Coates Ulrichsen sheds light on the varying concepts of power and authority the different forms they take the ways they are projected and the practical constraints on their exercise From whom does power derive Is it something different from influence and ambition Is decision making top down or bottom up or a mixture of both From bureaucrats to scholars and from royals to opposition figures Coates Ulrichsen uncovers the power relations shaping the Gulf today **Security in the Gulf: Historical Legacies and Future Prospects** Matteo Legrenzi, 2013-09-13 This book examines Gulf Security in a holistic way seeing past the narrow military aspect and also trying to debunk the conventional narratives propagated by regional and external actors In particular the emphasis is on the historical legacy of Gulf security and the fundamental domestic and international vulnerabilities of the various states in the region This approach proves important in light of the recent efforts by Gulf states to recast their position in the international arena trying to peddle an image of self assertiveness and autonomy in the security sphere These new diplomatic stances do not seem to be borne out by their current security policies that are marked by apparent continuity with past practices In particular the new Gulf Asia nexus and the claims by Gulf monarchies that regional confidence building measures are appearing on the horizon are placed under critical scrutiny This is done by a sobering examination of the balance of threat in the region the historical amity enmity patterns and the evolving American stance A shorter modified version of this book was previously published as a special issue of the *British Journal of Middle Eastern Studies* **Sectarian Politics in the Gulf** Frederic M. Wehrey, 2013-12-17 One of Foreign Policy's Best Five Books of 2013 chosen by Marc Lynch of The Middle East Channel Beginning with the 2003 invasion of Iraq and concluding with the aftermath of the 2011 Arab uprisings Frederic M Wehrey investigates the roots of the Shi'a Sunni divide now dominating the Persian Gulf's political landscape Focusing on three Gulf states affected most by sectarian tensions Bahrain Saudi Arabia and Kuwait Wehrey identifies the factors that have exacerbated or tempered sectarianism including domestic political institutions the media clerical establishments and the contagion effect of external regional events such as the Iraq war the 2006 Lebanon

conflict the Arab uprisings and Syria's civil war. In addition to his analysis, Wehrey builds a historical narrative of Shia activism in the Arab Gulf since 2003, linking regional events to the development of local Shia strategies and attitudes toward citizenship, political reform, and transnational identity. He finds that while the Gulf Shia were inspired by their coreligionists in Iraq, Iran, and Lebanon, they ultimately pursued greater rights through a nonsectarian nationalist approach. He also discovers that sectarianism in the region has largely been the product of the institutional weaknesses of Gulf states, leading to excessive alarm by entrenched Sunni elites and calculated attempts by regimes to discredit Shia political actors as proxies for Iran, Iraq, or Lebanese Hizballah. Wehrey conducts interviews with nearly every major Shia leader, opinion shaper, and activist in the Gulf Arab states, as well as prominent Sunni voices, and consults diverse Arabic language sources.

The New Faces of Political Islam in the Middle East Nostalgiaawan Wahyudhi, M. Hamdan Basyar, Dhurorudin Mashad, M. Fakhry Ghafur, Defbry Margiansyah, 2025-06-20. This book provides a survey of the political situation in 15 Arab countries in the Middle East and North Africa and provides overviews of associated post-Arab Spring politics, with an emphasis on political Islamist movements. A translation from its original in Bahasa Indonesia, the book critically assesses the concept of post-Islamism from an Indonesian perspective. It argues that the wave of democratization in the Middle East following the Arab Spring failed to create an open democratic life in the region, except in the country where the Arab Spring began, Tunisia. Rather, it has left growing conflicts and

destabilization in the region with the rise of new authoritarianism The authors simultaneously show that Islamic political movements in general are adaptive in the face of the changing political environment post Arab Spring They present the example of the Muslim Brotherhood as a movement with distinctive characteristics and high levels of adaptability in changing socio political environments It is relevant to advanced undergraduate and graduate students studying and researching contemporary Arab or Islamist movements and to scholars look for a neat comparative survey of countries after the Arab Spring

Yemen Uzi Rabi, 2014-12-17 Yemen tucked into the southwestern corner of the Arabian Peninsula has often escaped regional and international attention And yet its history illuminates some of the most important issues at play in the modern Middle East from Cold War rivalries to the growth of Islamic extremism in the 1990s and from the rise of Al Qaeda in the Arabian Peninsula AQAP in the post 9 11 period to Obama era drone strikes Uzi Rabi looks at this country and its economic and political history through the prism of state failure He examines Yemen s trajectory from revolutions and civil war in the 1960s to unification in the 1990s and on to the 2011 uprisings which eventually saw the fall from power of Ali Abdallah Salih in 2012 Covering the twentieth century history of Yemen from traditional society to a melting pot of revolutions accompanied by foreign intervention Uzi Rabi s book offers an analysis of a state that is failing both in terms of day to day functioning and in terms of offering its citizens a modicum of security Rabi covers the initial rulers of the country Imam Yahya and his descendents who ruled Yemen until 1962 But with the growing influence of Gamal Abd al Nasser s vision of Arab nationalism and the defeat the British and their allies in November 1967 the way was paved for the formation of South Yemen the only declared Marxist regime in the Arab world Rabi tracks the turbulent political history of the two Yemens in particular South Yemen which between 1967 and 1986 saw five presidents come and go three of whom were ousted by violent means But with unification came a new set of problems concerning poverty terrorism and corruption Rabi s analysis of the political beginnings rule and eventual downfall of Salih are key to understanding all of these and how they have contributed to Yemen s current explosive condition Drawing extensively on Arabic sources many of which are not available in the English language Rabi offers important analysis on the volatility of the state in Yemen Based on freshly examined materials this book is a vital reference of any examination of the country s twentieth century history and its impact on the current unstable situation in the wider Middle East

Global, Regional, and Local Dynamics in the Yemen Crisis

Stephen W. Day, Noel Brehony, 2020-02-10 This international relations study investigates the underlying causes of the Yemen crisis by analyzing the interactions of global regional and local actors At all phases GCC member states played a key role from political negotiations amidst street protests in 2011 to formation of an international military coalition in 2015 Using a multi actor model the book shows that various actors whether state or non state foreign or domestic combined to create a disastrous armed conflict and humanitarian crisis Yemen s tragedy is often blamed on Saudi Arabia and its rivalry with Iran which is usually defined in sectarian Sunni Shia terms yet the book presents a more complex picture of what happened due to involvement by many other foreign actors such as the UAE UN UK US EU Russia China Turkey Oman Qatar and African states of the Red Sea and Horn of Africa Politics of Change in Middle East and North Africa since Arab Spring Md.

Muddassir Quamar, 2022-12-29 A decade since the eruption of Arab Spring protests in the Middle East and North Africa the region continues to confront the primary causes of the popular disenchantment including economic deprivation bad governance corruption and limited avenues for political expression Democratisation the buzzword in 2011 has given way to debates around conflict management and resolution Simultaneously there are mounting economic challenges throughout the region that have been aggravated by the COVID 19 pandemic But there are some silver linings such as a focus on reforms greater scrutiny against corruption demand for better governance and awareness regarding women empowerment and rights of minorities The volume Politics of Change in the Middle East and North Africa since Arab Spring A Lost Decade commemorates the ten years of the eruption of Arab Spring protests It captures some of the prevailing political economic strategic and social issues in MENA through thematic or country specific essays that explore the ongoing transformations and underline how despite the hopelessness the MENA societies have made progress on various fronts Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan **The Rise of the GCC States and Turkey**

Emad Y. Kaddorah, 2021-09-24 The GCC states and Turkey have recently experienced economic growth and played influential regional roles In tandem their relationships grew significantly and Turkey was considered for a while as a strategic partner Common challenges have made them consider an alliance to balance other powers and threats However many emerging issues have turned them into rivals for regional influence on divergent agendas during the last decade All in all their relations are dynamic and rapidly changing Some regional crises were subjects of political agreement and coordination in their early stages such as the cases in Libya Syria and Yemen However this agreement has diminished and sometimes turned into conflict Iran s policies have also led to its change from being a factor of agreement to a factor of difference On the other hand some tensions which were major causes of escalation were resolved or eased such as the Gulf crisis and the contest over Egypt These relations affected the whole region as well as the great powers involved there Therefore this book studies the commonalities between the GCC states and Turkey and analyzes their differences All parties expressed their desire to restore cooperation despite continuing competition on some regional issues The book proposes some ideas that can be

considered to make convergence possible again **The Indian Ocean as a New Political and Security Region** Frédéric Grare, Jean-Loup Samaan, 2022-01-18 This book analyses the emergence of the Indian Ocean as security complex and a strategic space of central importance and also looks at its prospective future As well as US China rivalry the India China rivalry is now the defining factor in the Indian Ocean irrespective of the strategic asymmetry This new situation has opened a space for middle powers old and new to intervene The authors argue that this situation may turn into an additional source of instability and that the creation of an inclusive and comprehensive regional security architecture as well as the strengthening of regional multilateralism should be the priority of all stakeholders in the coming decade Women and Shari'a Law Elham Manea, 2016-05-27 In response to recent media controversy and public debate about legal pluralism and multiculturalism Manea argues against what she identifies as the growing tendency for people to be treated as homogenous groups in Western academic discourse rather than as individuals with authentic voices Building on her knowledge of the situation for women in Middle Eastern and Islamic countries she undertakes first hand analysis of the Islamic shari'a councils and Muslim arbitration tribunals in various British cities Based on meetings with the leading sheikhs including the only woman on their panels as well as interviews with experts on extremism lawyers and activists in civil society and women's rights groups Manea offers an impassioned critique of legal pluralism connecting it with political Islam and detailing the lived experiences of women in Muslim communities **Yemen and the Gulf States** Helen Lackner, Daniel Martin Varisco, 2018 Yemen is the only state on the Arabian Peninsula that is not a member of the GCC Gulf Cooperation Council It is also the only local state not ruled by a royal family Relations between Yemen and the GCC states go back for centuries with some tribes in Saudi Arabia Kuwait Qatar the United Arab Emirates and Oman tracing genealogy back to ancient Yemen In this timely volume six scholars analyze Yemen's relations with Saudi Arabia the United Arab Emirates Oman and Iran with a focus on recent developments including the conflict after the fall of Ali Abdullah Salih in Yemen This volume is based on a workshop held at the Gulf Research Meeting organized by the Gulf Research Center Cambridge in summer 2016 **Routledge Handbook of the Arab Spring** Larbi Sadiki, 2014-12-17 The self immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the Arab Spring a startling yet not unprecedented era of profound social and political upheaval The meme of the Arab Spring is characterised by bottom up change or the lack thereof and its effects are still unfurling today The Routledge Handbook of the Arab Spring seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics including Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints specialisms biases and degrees of proximity and distance from events that shook the Arab world to its core the Handbook is written with the reader in mind to provide students practitioners diplomats policy makers and lay readers with contextualization and knowledge and to set the stage for further discussion of the Arab Spring
