Regionalism In Canada:

The Theory, Practice and Potential of Regional Development Kelly Vodden, David J.A. Douglas, Sean Markey, Sarah Minnes, Bill Reimer, 2019-07-04 Canadian regional development today involves multiple actors operating within nested scales from local to national and even international levels Recent approaches to making sense of this complexity have drawn on concepts such as multi level governance relational assets integration innovation and learning regions These new regionalist concepts have become increasingly global in their formation and application yet there has been little critical analysis of Canadian regional development policies and programs or the theories and concepts upon which many contemporary regional development strategies are implicitly based This volume offers the results of five years of cutting edge empirical and theoretical analysis of changes in Canadian regional development and the potential of new approaches for improving the well being of Canadian communities and regions with an emphasis on rural regions It situates the Canadian approach within comparative experiences and debates offering the opportunity for broader lessons to be learnt This book will be of interest to policy makers and practitioners across Canada and in other jurisdictions where lessons from the Canadian experience may be applicable At the same time the volume contributes to and updates regional development theories and concepts that are taught in our universities and colleges and upon which future research and analysis will build Asian Regionalism, Canadian and Indian Perspectives Charan D. Wadhwa, Yuen Pau Woo, 2005 Canada and India are in many ways natural partners two middle powers sharing a common political and legal tradition derived from the British Commonwealth as well as a commitment to multiculturalism democracy and international institutions India's founding Prime Minister Jawaharlal Nehru had a personal friendship with Canadian Prime Ministers Trudeau and Pearson Despite this promising start bilateral relations never took flight a function of Cold War politics India's relative isolation through much of the post independence period the enormous distance between the two countries and deep disagreements over India's testing of nuclear weapons in 1974 and 1998 By the start of the new millennium India and Canada were ready to embark on a new phase in bilateral relations one defined not only by trade and investment interests but also by a contemporary understanding of their standing in the world and the potential contribution that both countries can make to issues of regional and global significance **The Political Economy of Canadian Regionalism** M. Janine Brodie, 1990 **A Social Geography of Canada** Guy M. Robinson, 1991-01-01 This collection of essays focus on subjects which formed the basis of his life's work the changing character of Canadian landscape and society and the urbanization of that society including aspects of its historical evolution its present spatial forms and current social issues **Regionalism and Party Politics in Canada** Keith Archer, Lisa Young, 2002 Arising from a conference held at the University of Calgary in honour of Mildred Schwartz Regionalism and Party Politics in Canada brings together current scholarship on regionalism and parties in order to make sense of the transition of the party system Canada's party system is clearly in a state of flux we are moving from the two and a half party

system that has dominated the country for most of the past century to something new A look at the current Parliament suggests that regionalism has become the most dominant and important cleavage in Canada Divided into four sections the text first examines different approaches to the study of regionalism It then moves on to the place of regionalism in Canadian society before turning towards regionalism s relationship to the Canadian party system The volume concludes with an examination of how Canada compare with the rest of the world in terms of the regionalsim of its parties and party systems

The Maritime Rights Movement, 1919-1927 Ernest R. Forbes, 1979 This book provides the first full account of a major social and political movement of the interwar years in Canada the campaign for Maritime Rights which erupted in the Atlantic provinces after World War I Ernest R Forbes traces the history of the movement from its origins in the decline in relative status and influence of the Maritimes that accompanied the rise of the West and the growing dominance of the Central Canadian metropolises The Canadian Environment in Political Context Andrea Olive, 2015-12-21 Politics and

Ideology in Canada Michael Ornstein, Michael Stevenson, 2003-02-18 Winner of the Harold Adams Innis Prize Politics and Ideology in Canada examines a period of crucial historical change in Canada beginning in the mid 1970s when the crisis of the Keynesian welfare state precipitated a transition to a new political order based on the progressive downsizing of state involvement in the economy and society Using class and ideology as key concepts Michael Ornstein and Michael Stevenson examine this transition in terms of the nature of hegemony and hegemonic crisis and the conditions of political order and instability These concepts guide the interpretation of three large surveys of representative samples of the Canadian public and two unique elite surveys conducted between 1975 and 1981 The surveys cover an exceptionally broad spectrum of political issues including social programs civil and economic rights economic policy foreign ownership labour relations and language issues and sovereignty A wide ranging analysis of public and elite attitudes reveals a hegemonic order through the early 1980s built around public support for the institutions of the Canadian welfare state But there was also widespread public alienation from politics Public opinion was quite strongly linked to class but not to party politics Regional variation in political ideology on a broad range of issues was less pronounced than differences between Quebec and English Canada Much deeper ideological divisions separated the elites with a dramatic polarization between corporate and labour respondents State elites fell between these two though generally more favourable to capital The responses of the business elites reveal the ideological roots of the Mulroney years in support for cuts in social programs free trade privatization and deregulation **Networked Regionalism as Conflict Management** Anna Ohanyan, 2015-04-15 Most regions of the world

are plagued by conflicts that are made insoluble by a confluence of complex threads from history geography politics and culture These frozen conflicts defy conflict management interventions by both internal and external agents and institutions Worse they constantly threaten to extend beyond their local geographies as in the terrorist bombings in Boston by ethnic Chechens or to escalate from skirmishes to full scale war as in Nagorno Karabakh Consequently such conflicts cry out for

alternative approaches to the classic state focused and sovereignty based conflict management models that are practiced in traditional diplomacy which most often produce rather short term ad hoc fragmented interventions and outcomes Drawing upon the cases of the South Caucasus the Western Balkans Central America South East Asia and Northern Ireland Networked Regionalism as Conflict Management offers a theoretical and practical solution to this impasse by arguing for regional collective interventions that involve a long term reengineering of existing conflict management infrastructure on the ground Such approaches have been attracting the attention of scholars and practitioners alike yet thus far these concepts have rarely involved more than simple prescriptions for regional cooperation between grassroots actors and traditional diplomacy Specifically says Anna Ohanyan only the cultivation and establishment of regional peace systems can provide an effective path toward conflict management in these standoffs in such intractably divided regions

The Meeting of Time and Space George Woodcock,1981

Social Regionalism in the Global Economy Adelle Blackett,Christian Lévesque,2010-12-20 Regional trade agreements have expanded exponentially over the past decade and have become a significant if controversial factor in the expanse of economic globalization Social Regionalism in the Global Economy attempts to take a fresh interdisciplinary approach to addressing labour regulation by drawing upon insights from industrial relations comparative capitalism and new governance schools of thought It stands for the proposition that an interdisciplinary study of regional regulation holds the potential to offer a fuller account of social regionalism Its focus is to consider how institutions and labour market actors reconstruct and renegotiate regulatory space in a changing economic environment characterized by regional impulses It argues that there is a dynamic interplay between institutions and actors of social regulation This interplay occurs at many levels The book therefore maps both how actors shape institutions as well as how institutions shape social actors ability to affect regulatory processes The editors bring together leading international specialists willing to move beyond textual analyses of regional agreements to offer alternative accounts of regional integration The work emphasizes that institutional context and social actors at multiple governance levels are integral to the progressive construction and regulation of regional space It further contributes to the literature by combining insights from overlooked regional entities in transition and developing countries with original analyses from the European Union and the NAFTA These aims will be achieved by combining original research that is empirically grounded with theoretically informed analysis

Borders, Culture, and Globalization

Victor Konrad, Melissa Kelly, 2021-05-18 Border culture emerges through the intersection and engagement of imagination affinity and identity It is evident wherever boundaries separate or sort people and their goods ideas or other belongings It is the vessel of engagement between countries and peoples assuming many forms exuding a variety of expressions changing shapes but border culture does not disappear once it is developed and it may be visualized as a thread that runs throughout the process of globalization Border culture is conveyed in imaginaries and productions that are linked to borderland identities constructed in the borderlands These identities underlie the enforcement of control and resistance to power that also comprise border cultures Canada s borders in globalization offer an opportunity to explore the interplay of borders and culture identify the fundamental currents of border culture in motion and establish an approach to understanding how border culture is placed and replaced in globalization Published in English

The World in Canada David Carment, David Bercuson, 2008-02-07 In response to these questions contributors trace changes in Canada s demographic make up explore the relationship between domestic politics and Canadian foreign policy across the fields of diplomacy development defense and security and immigration and determine

the extent to which Quebec's sensibilities to international issues differ from those of the rest of the country. The World in Canada argues that under certain conditions the motivation to pursue certain policy choices arises as much from domestic considerations as from the international conditions associated with them.

The New Canadian Political Economy Wallace Clement, Glen Williams, 1989. Studies in political economy are now at a crossroads. The revival of political economy as an important area of research in Canada began in the early 1970s with the publication of Kari Levitt's *Silent Surrender*. In 1976 it was launched in earnest by the first Regionalism in Africa Daniel Bach, 2015-12-22. Africa, which was not long ago discarded as a hopeless and irrelevant region, has become a new frontier for global trade, investment, and the conduct of international relations. This book surveys the socio-economic, intellectual, and security-related dimensions of African regionalisms since the turn of the 20th century. It argues that the continent deserves to be considered as a crucible for conceptualizing and contextualizing the ongoing influence of colonial policies, the emergence of specific integration and security cultures, the spread of cross-border regionalisation processes at the expense of region-building, the interplay between territory, space, and trans-state networks, and the intrinsic ambivalence of global frontier narratives. This is emphasized through the identification of distinctive threads of regionalism which, by focusing on genealogies, trajectories, and ideals, transcend the binary divide between old and new regionalisms. In doing so, the book opens new perspectives not only on Africa in international relations but also Africa's own international relations. This text will be of key interest to students and scholars of African politics, African history, regionalism, comparative regionalism, and more broadly to international political economy, international relations, and global and regional governance.

Regions and Crises Lorenzo Fioramonti, 2012-06-26. Investigates the intimate relationship between regional governance processes and global crises. Analysing the current turmoil in the European Union, it also looks at regional cooperation and integration in the Arab world, Africa, Asia, and Latin America through topical case studies.
