Teaching for Global Competence in a Rapidly Changing World Asia Society,OECD,2018-01-23 This new publication sets forward the PISA framework for global competence developed by the OECD which aligns closely with the definition developed by the Center for Global Education at Asia Society Geography for a Changing World Gerard McMahon,2005

Exploring Canada and Latin America Bert Bower,1991 How the World Changed Social Media Daniel Miller,Elisabetta Costa,Nell Haynes,Tom McDonald,Razvan Nicolescu,Jolynna Sinanan,Juliano Spyer,Shriram Venkatraman,Xinyuan Wang,2016-02-29 How the World Changed Social Media is the first book in Why We Post a book series that investigates the findings of anthropologists who each spent 15 months living in communities across the world This book offers a comparative analysis summarising the results of the research and explores the impact of social media on politics and gender education and commerce What is the result of the increased emphasis on visual communication Are we becoming more individual or more social Why is public social media so conservative Why does equality online fail to shift inequality offline How did memes become the moral police of the internet Supported by an introduction to the project s academic framework and theoretical terms that help to account for the findings the book argues that the only way to appreciate and understand something as intimate and ubiquitous as social media is to be immersed in the lives of the people who post Only then can we discover how people all around the world have already transformed social media in such unexpected ways and assess the consequences

Geographic Literacy Through Children's Literature Linda K. Rogers,1997-09-15 Combining practical student centered activities with an annotated bibliography of more than 160 children s books this guide models ways for classroom teachers to teach geography through children s literature Chapters based on the five themes of the Geographic Standards present a variety of activities that teach students important geographic concepts The extensive bibliography provides summaries of books suggested teaching activities and cross references to other books a list of teacher resources is also included Attractive line drawings accompany the conversational text Anyone looking for an effective way to teach geography at the elementary level will want this book and middle and high school educators will find useful extensions for older students The work offers a great way to integrate geography into the curriculum

Resilience Thinking Brian Walker,David Salt,2012-06-22 Increasingly cracks are appearing in the capacity of communities ecosystems and landscapes to provide the goods and services that sustain our planet s well being The response from most quarters has been for more of the same that created the situation in the first place more control more intensification and greater efficiency Resilience thinking offers a different way of understanding the world and a new

approach to managing resources It embraces human and natural systems as complex entities continually adapting through cycles of change and seeks to understand the qualities of a system that must be maintained or enhanced in order to achieve sustainability It explains why greater efficiency by itself cannot solve resource problems and offers a constructive alternative that opens up options rather than closing them down In *Resilience Thinking* scientist Brian Walker and science writer David Salt present an accessible introduction to the emerging paradigm of resilience The book arose out of appeals from colleagues in science and industry for a plainly written account of what resilience is all about and how a resilience approach differs from current practices Rather than complicated theory the book offers a conceptual overview along with five case studies of resilience thinking in the real world It is an engaging and important work for anyone interested in managing risk in a complex world *Data Book of Social Studies Materials and Resources*, 1985 *Polar Icebreakers in a Changing World* National Research Council, Transportation Research Board, Marine Board, Division on Earth and Life Studies, Polar Research Board, Committee on the Assessment of U.S. Coast Guard Polar Icebreaker Roles and Future Needs, 2007-03-14 The United States has enduring national and strategic interests in the polar regions including citizens living above the Arctic circle and three year round scientific stations in the Antarctic Polar icebreaking ships are needed to access both regions Over the past several decades the U S government has supported a fleet of four icebreakers three multi mission U S Coast Guard ships the POLAR SEA POLAR STAR and HEALY and the National Science Foundation s PALMER which is dedicated solely to scientific research Today the POLAR STAR and the POLAR SEA are at the end of their service lives and a lack of funds and no plans for an extension of the program has put U S icebreaking capability at risk This report concludes that the United States should continue to support its interests in the Arctic and Antarctic for multiple missions including maintaining leadership in polar science The report recommends that the United States immediately program budget design and construct two new polar icebreakers to be operated by the U S Coast Guard The POLAR SEA should remain mission capable and the POLAR STAR should remain available for reactivation until the new polar icebreakers enter service The U S Coast Guard should be provided sufficient operations and maintenance budget to support an increased regular and influential presence in the Arctic with support from other agencies The report also calls for a Presidential Decision Directive to clearly align agency responsibilities and budgetary authorities *World Social Science Report 2013 Changing Global Environments* International Social Science Council, United Nations Educational, Scientific and Cultural Organization, 2013-11-15 This book represents a comprehensive overview of the field gathering the thoughts and expertise of hundreds of social scientists from around the world This edition focuses on the transformative role of the social sciences in confronting climate and broader processes of environmental change *Encyclopedia of Curriculum Studies* Craig Kridel, 2010-02-16 The Encyclopedia of Curriculum Studies provides a comprehensive introduction to the academic field of curriculum studies for the scholar student teacher and administrator The study of curriculum beginning in the early 20th century served primarily the areas of school

administration and teaching and was seen as a method to design and develop programs of study. The field subsequently expanded to draw upon disciplines from the arts, humanities and social sciences and to examine larger educational forces and their effects upon the individual, society and conceptions of knowledge. Curriculum studies has now emerged to embrace an expansive and contested conception of academic scholarship while focusing upon a diverse and complex dynamic among educational experiences, practices, settings, actions and theories in relation to personal and institutional needs and interests. The Encyclopedia of Curriculum Studies serves to inform and to introduce terms, events, documents, biographies and concepts to assist the reader in understanding aspects of this rapidly changing field of study. Representative topics include: Origins, definitions, dimensions and variations on Curriculum Studies; Curriculum development and design for schools; Curricular purpose, implementation and evaluation; Contemporary issues e.g. standards, tests and accountability; Curricular dimensions of teaching and teacher education; Interdisciplinary perspectives on institutionalized curriculum; Informal curricula of homes, mass media, workplaces, organizations and relationships; Impact of race, class, gender, health, belief, appearance, place, ethnicity, language; Relationships of curriculum and poverty, wealth and related factors; Modes of curriculum inquiry and research; Curriculum as cultural studies exploring the formation of identities and possibilities; Corporate, state, church and military influence as curriculum; Global and international perspectives on curriculum; Curriculum organizations, journals and resources; Summaries of books and articles on curriculum studies; Biographic vignettes of key persons in curriculum studies; Relevant photographs.

Resources in Education, 2001 *Regional Businesses in a Changing Global Economy* Quamrul Alam, Robert Grose, 2022-03-23. In a highly globalised trade and investment environment, businesses in regional areas must learn to take advantage of the benefits that stem from their geographical location. This book explains the immense value regional businesses bring to local communities and to Australia as a whole through case studies. The case studies are diverse in nature and highlight how regional businesses utilise their competitive advantage to introduce innovative practices and use local expertise, knowledge, skills and networks to benefit from local social capital in a synergetic manner. The case studies in the book will help readers better understand the processes of industrial localisation. The examples of how innovative regional businesses have used innovative practices, local resource leverage, social and entrepreneurial skills and knowledge of international markets to develop and expand their businesses will provide insights into how regional businesses can achieve growth and secure jobs in an innovative and sustained manner.

WORLD REGIONAL GEOGRAPHY. (PRODUCT ID 23958336). CAITLIN. FINLAYSON, 2019 [Social Studies Education in East Asian Contexts](#) Kerry J. Kennedy, 2020-07-28. The book explores the state of social studies education within selected East Asian societies and provides some insights into distinctive classroom practices. In an increasingly volatile and unpredictable world, the education of young people who both understand the contexts in which they are growing up and see the need for engaging with them is a top priority. This task falls to social studies education which carries the responsibility for inducting young people into their social world and helping

them to see the role they can play within it This is particularly important in East Asia where strong economic growth long held cultural values and diverse political systems create an environment that challenges young people on multiple fronts This book with its team of regional authors shows how different societies in the region are dealing with these challenges and what can be expected from future citizens The book will appeal to policy makers researchers and teachers interested in the current state of social studies education in East Asian societies
