Regions and Regionalism in South Asian Studies: an Exploratory Study Robert I. Crane, 1967 *Regionalism in South Asia* Kishore C. Dash, 2008-02-19 The dramatic surge in regional integration schemes over the past two decades has been one of the most important developments in world politics This book examines regionalism in South Asia exploring the linkages between institutional structures government capabilities and domestic actors preferences to explain the dynamics of regional cooperation **South Asian Regionalism** Chakma, Bhumitra, 2020-07-22 Leading South Asia expert Bhumitra Chakma explains the politics of regionalism in South Asia and traces the origins and evolution of the South Asian Association for Regional Cooperation SAARC from its inception to the present day He takes an International Relations perspective and engages three major IR theoretical approaches neorealism institutionalism and constructivism to explain the complex dynamics of South Asian regionalism Using comparative perspectives based on the experiences of similar regional organizations the author provides an in depth analysis of the challenges of cooperation in the region and explores how progress might be made in the future **South Asia in the New World Order** Shahid Javed Burki, 2011-03-24 Rapid changes have taken place in the structure of the global economy and this book looks at how South Asia can take advantage of these changes The author argues that the developing global economy will be more complex than originally thought that instead of a bipolar model with two countries the US and China at the centre it will be multipolar with eight centres of economic activity including India The book goes on to suggest that in the context of such a model there should be regional cooperation between India and its immediate neighbouring countries for South Asia to advance as an economic region It argues that South Asia will need to look at its history and that changes in attitudes particularly in India and Pakistan are necessary The possible benefits to the region in terms of increases in the rates of economic growth if the regional approach is adopted are discussed The book presents a useful contribution to studies in South Asia as well as Asian Economics

Regional Integration and Economic Development in South Asia Sultan Hafeez Rahman, Sridhar Khatri, Hans-Peter Brunner, 2012-04-01 South Asian leaders have made it a priority to tackle key regional issues such as poverty environment degradation trade and investment barriers and food insecurity among others *Regional Cooperation in South Asia and Southeast Asia* Kripa Sridharan, 2007 Provides a comparative sketch of regional cooperation in South and Southeast Asia in the light of various political economic and social developments in the two regions **Regionalism and Regional Security in South Asia** Zahid Shahab Ahmed, 2016-04-08 Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation SAARC This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation environmental security human welfare and cooperation in security matters According to the author SAARC is making progress in addressing the myriad of issues on its agenda The transition from agreements to actions and frequent interactions among the member states has boosted confidence The progress of

SAARC is more evident in the less controversial areas of human security such as poverty alleviation health and safety human resources development and higher education Notwithstanding enthusiastic commitments reflected in agreements and action plans there is a gulf between rhetoric and implementation most notably in sensitive areas relating to traditional security In the light of the findings of this study the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature particularly terrorism
