REGULATING COMMERCIAL GAMBLING

Past, Present, and Future

DAVID MIERS

Regulating Commercial Gambling

Alan David Littler, Cyrille Fijnaut

Regulating Commercial Gambling:

Regulating Commercial Gambling David Miers, 2004 Three quarters of the British population gamble mainly on the National Lottery and they generate around 46 billion pounds a year This volume sets recent developments in the regulation and deregulation of its three primary forms betting gaming and lotteries against an account of their social and legal history Many of the concerns that excite controversy today are little different from those with which the Home Office grappled for most of the nineteenth and twentieth centuries Based upon Home Office files and contemporary accounts this book begins by evaluating how the law was used to control and suppress popular gambling Miers shows how and why prohibition gave way to the recognition that regulation offered a more effective method of controlling a social pastime that by the mid twentieth century had become a feature of everyday life Concerns over gambling have recently resurfaced as a result of Government proposals to replace the existing strict controls with a regulatory regime that will give greater scope for licensees to adopt more competitive practices Like the introduction of the National Lottery in 1994 these proposals represent a marked departure from the traditional response to permit but not to stimulate commercial gambling The potential for expansion in opportunities to gamble raises concerns about the accessibility of gambling to children and the possibility of increased numbers of problem gamblers Miers examines the implementation and impact of the present law governing gaming and the National Lottery in terms of regulation and the enforcement of regulatory regimes He focusses on how these regimes regulate the probity of the supplier the supply of gambling opportunities the nature of the transaction and the player's participation The book concludes with an evaluation of the Gambling Bill a draft of which was published in 2003 aiming to give effect to the Government's proposals

The Regulation of Gambling Alan David Littler, Cyrille Fijnaut, 2007 In November 2005 Tilburg University hosted for the first time an international Colloquium on the European and National Perspectives of the Regulation of Gambling The results of this exciting day are reflected in this book which brings together a wide range of perspectives from the contemporary debate surrounding the regulation of gambling markets within the context of the European Union Not only does the book encompass both ends of the spectrum of the current discussion it also brings together the perspectives of academics lawyers and operators The debate on the regulation of gambling has been gathering pace following a series of judgments of the ECJ In 2006 gambling was excluded from the proposed Services Directive and the European Commission commenced infringement proceedings against a handful of Member States regarding restrictions on the supply of sports betting services Given these developments and being one of the very few publications concerned with this topic this book will serve as a timely and valuable contribution for all those interested in this emerging and at times decisive debate

The Business of Risk Vicki Abt, James Frederick Smith, 1985 *Crime, Addiction and the Regulation of Gambling* A. Spapens, Cyrille J.C.F. Fijnaut, Alan Littler, 2009-02-28 This is the third book to be produced by members of the Gambling Research Group associated with Tilburg University's Faculty of Law concerning issues closely connected with the

debate on the gambling policies that the European Union and its Member States are pursuing The first book Alan Littler and Cyrille Fijnaut eds *The Regulation of Gambling European and National Perspectives* Leiden Martinus Nijhoff Publishers 2007 mainly considers the legal aspects of gambling regulation at both European Union and Member State level The second book Tom Coryn Cyrille Fijnaut and Alan Littler eds *Economic Aspects of Gambling Regulation EU and US Perspectives* Leiden Martinus Nijhoff Publishers 2008 looks at research conducted in the United States and the European Union into the costs and benefits involved in the regulation of gambling The contributions to this third book turn the spotlight on two social problems crime and addiction both of which play a significant part in the institutional debate in the European Union concerning whether gambling should be treated as a service that like other services should be subject to the laws universally applicable to the internal market This volume is primarily devoted to the research that has been conducted in several Member States into the problems of gambling related crime and addiction It also examines developments at EU level What policy is the European Commission currently pursuing And what stance does the European Court of Justice take these days Crime and addiction problems that can arise in the context of online gambling and at possible ways of keeping them under control are also examined

Gambling Regulation and Vulnerability Malgorzata Anna Carran, 2018-03-30 Since the UK Gambling Act of 2005 was introduced gambling has stopped being seen politically and legally as an inherent vice and is now viewed as a legitimate form of entertainment *Gambling Regulation and Vulnerability* explores the laws around gambling that aim to protect society and individuals examining the differences between regulatory rhetoric and the impact of legislative and regulatory measures Malgorzata Carran finds that although the Gambling Act introduced many positive changes to gambling regulation it has created an environment in which protection of vulnerable individuals becomes difficult Carran challenges the existing legislative premise that regulation alone is able to balance the effect of liberalisation for those who are vulnerable

Member States versus the European Union Alan Littler,2011-04-11 Since the 1990s the European Court of Justice has provided an institutional backdrop from which the requirements of EU law regarding gambling regulation are evolving Given the total absence of harmonisation Member States are competent to regulate gambling conditional upon such regulation being compatible with EU law This book analyses the regulatory approaches undertaken in France the Netherlands and the United Kingdom regarding a variety of forms of online and offline gambling with a view to assessing the compatibility of these approaches Furthermore it illustrates prevailing commonalities between the regimes and injects a degree of realism into the debate softening the hard stance taken by stakeholders at opposite ends of the policy spectrum

Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2012-07-24 High street betting shops and casinos alike are currently allowed a maximum of four B2 FOBT gaming machines which allow stakes up to 100 and a 500 prize Casinos should instead be permitted to operate up to twenty B2 type gaming machines Limiting the number of B2 machines in betting shops has encouraged them to cluster in some high streets in order to satisfy customer demand Local

Authorities should have the power to permit more than the four B2 machines per shop if they believe it will help with clustering. The Committee also recommends that any local authority be able to make the decision as to whether or not they want a casino. As a step towards this existing 1968 Act Casino licences should be made portable allowing operators to relocate to any local authority provided that they continue to be constrained by the need to obtain local authority approval a premises licence and planning permission. The failure to set remote gambling taxation at a level at which online operators could remain within the UK has led to almost every online gambling operator moving offshore whilst most are still able to advertise and operate into the UK. The Committee further recommends the Gambling Commission should introduce a new licence fee structure which reduces the current anomaly where small independent bookmakers pay much higher fees per shop than large chains. Particularly given the absence of a significant UK regulated online sector or any Regional Casinos the Gambling Commission remains an overly expensive bureaucratic regulator.

Gambling Cultures Jan McMillen, 2005-12-20. First published in 1996. Routledge is an imprint of Taylor Francis an informa company.

The Law of Gambling and Regulated Gaming Anthony N. Cabot, Keith C. Miller, 2016. Gaming law and regulation has seen many developments since the first edition was published in 2011. Anti money laundering rules have been tightened as have SEC filing requirements. Legal challenges to statutes restricting sports betting illustrate the tenuous nature of these wagering limitations. Daily fantasy sports competitions a new way for people to engage and compete on the performance of their favorite players have gained massive audiences and created challenging legal issues. The United States Supreme Court continues to develop jurisprudence on the ability of Indian tribes to operate casinos off their traditional lands and has re examined fundamental tenets of tribal sovereignty. The second edition retains a solid foundation for understanding the basic regulatory structure of gaming. It also continues to illustrate that gaming is one of the most dynamic fluid and policy oriented areas of law a student will ever encounter in law school.
