Longacre, 2017-08-04 *Worthy Opponents* tells the parallel stories of Confederate general Joseph E Johnston and Union general William Tecumseh Sherman Their armies clashed repeatedly so it was only natural for these two commanding officers to become adversaries Yet as the war continued Johnston and Sherman came to respect each other eventually becoming close friends Edward G Longacre masterfully investigates the entwined lives of these two celebrated generals bringing to life their personalities their military styles and their friendship in this fascinating dual biography The Cumulative Book Index , 1976 A world list of books in the English language Department of Defense Dictionary of Military and Associated Terms United States. Willie Lee ROSE, 1964 **Beyond the Civil War Synthesis** Robert Swierenga, 1975-11-10 A collection of articles in American political history that originally appeared in *Civil War history* Includes bibliographical references and index *Food and Agriculture during the Civil War* R. Douglas Hurt, 2016-01-11 This book provides a perspective into the past that few students and historians of the Civil War have considered agriculture during the Civil War as a key element of power The Civil War revolutionized the agricultural labor system in the South and it had dramatic effects on farm labor in the North relating to technology Agriculture also was an element of power for both sides during the Civil War one that is often overlooked in traditional studies of the conflict R Douglas Hurt argues that

Southerners viewed the agricultural productivity of their region as an element of power that would enable them to win the war while Northern farmers considered their productivity not only an economic benefit to the Union and enhancement of their personal fortunes but also an advantage that would help bring the South back into the Union This study examines the effects of the Civil War on agriculture for both the Union and the Confederacy from 1860 to 1865 emphasizing how agriculture directly related to the war effort in each region for example the efforts made to produce more food for military and civilian populations attempts to limit cotton production cotton as a diplomatic tool the work of women in the fields slavery as a key agricultural resource livestock production experiments to produce cotton tobacco and sugar in the North and the adoption of new implements

Machor,2011-04-01 James L Machor offers a sweeping exploration of how American fiction was received in both public and private spheres in the United States before the Civil War Machor takes four antebellum authors Edgar Allan Poe Herman Melville Catharine Sedgwick and Caroline Chesebro and analyzes how their works were published received and interpreted Drawing on discussions found in book reviews and in private letters and diaries Machor examines how middle class readers of the time engaged with contemporary fiction and how fiction reading evolved as an interpretative practice in nineteenth century America Through careful analysis Machor illuminates how the reading practices of nineteenth century Americans shaped not only the experiences of these writers at the time but also the way the writers were received in the twentieth century What Machor reveals is that these authors were received in ways strikingly different from how they are currently read thereby shedding significant light on their present status in the literary canon in comparison to their critical and popular positions in their own time Machor deftly combines response and reception criticism and theory with work in the history of reading to engage with groundbreaking scholarship in historical hermeneutics In so doing Machor takes us ever closer to understanding the particular and varying reading strategies of historical audiences and how they impacted authors conceptions of their own readership *The Dictionary Catalog of the Vivian G.
