es un anticipo de la novela indigenista que vendrá pocos años más tarde pues refleja ya en este libro la protesta social indígena y su venganza contra su opresor. Tres hilos temáticos conforman esta novela de Juan León Mera: el amor, el indio y la selva. El subtítulo lo advierte y la narración se perfila entre pasiones, huidas, persecuciones y sacrificios. Cumand es una novela fundadora de la narrativa ecuatoriana y es también heredera ejemplar de la tradición romántica latinoamericana. A su manera le da continuidad y la reorganiza. Así, el amor imposible de una india y un blanco se engarza con la figura del buen salvaje. Juntos abren el universo sublime y misterioso de la selva. No falta la intriga, tampoco el asombro. En Cumand están los ecos de esas mujeres imaginadas en *María* de Jorge Isaacs, en *Cecilia Valdés* de Cirilo Villaverde o en *Amalia* de José Mármol. En los cuerpos de esos personajes literarios se proyectaban proyectos biopolíticos y programas civilizatorios. También encontramos un diálogo con los textos de los exploradores a la vez admirados y aterrados frente a la naturaleza americana. Se dialoga además con las crónicas del Nuevo Mundo y las Tradiciones. Esas ingeniosas reconstrucciones del pasado que Ricardo Palma lleva a su cúspide. No son menos interesantes los modos en que Juan León Mera impugna las teorías sobre la inferioridad del indio. Aquí se cuestiona a Buffon, Montesquieu, Robertson, Domingo Faustino Sarmiento o José Ingenieros. A la vez pone en jaque todas aquellas concepciones de origen roussoniano que enarbolaban al indio como un otro deseado. Se cuestiona la idea del indio como estandarte que asegura el sueño colonial de América como un lugar ideal, virgen e impoluto. Queda por decidir si Cumand se ubica a caballo entre una corriente indianista que insiste en una imagen exótica decorativa y folclórica del indio y otra corriente indigenista que lo pone en el centro del escenario, le da voz y se hace eco de su complejo universo cultural. En todo caso, esta novela resuelve muchas de las preguntas que acompañan y acompañan el devenir de Ecuador y de América Latina.

Stone, and Light Gloria Fraser Giffords, 2022-08-23 Over nearly three centuries Jesuit Franciscan and Dominican missionaries built a network of churches throughout the new world of New Spain Since the early twentieth century scholars have studied the colonial architecture of southern New Spain but they have largely ignored the architecture of the north However as this book clearly demonstrates the colonial architecture of Northern New Spain an area that encompasses most of the southwestern United States and much of northern Mexico is strikingly beautiful and rich with meaning After more than two decades of research both in the field and in archives around the world Gloria Fraser Giffords has authored the definitive book on this architecture Giffords has a remarkable eye for detail and for images both grand and diminutive Because so many of the buildings she examines have been destroyed she sleuthed through historical records in several countries and she discovered that the architecture and material culture of northern New Spain reveal the influences of five continents As she examines objects as large as churches or as small as ornamental ceramic tile she illuminates the sometimes subtle sometimes striking influences of the religious social and artistic traditions of Europe from the beginning of the Christian era through the nineteenth century of the Muslim countries ringing the Mediterranean from the seventh through the fifteenth centuries and of Northern New Spain's indigenous peoples whose art influenced the designs of occupying Europeans Sanctuaries of Earth Stone and Light is a pathbreaking book featuring 200 stunning photographs and over 300 illustrations ranging from ceremonial garments to detailed floor plans of the churches

Queen Isabel I of Castile Barbara F. Weissberger, 2008 The Queen who shaped the music literature architecture and painting of late medieval Spain This multidisciplinary volume was inspired by

the quincentenary of the death of Queen Isabel I of Castile early modern Europe's first powerful queen regnant. Comprising work by distinguished art historians, musicologists, historians, and literary scholars from England, Spain, and the United States, it begins with a theoretical examination of medieval queenship itself that argues against the grain of the volume for its inseparability from kingship. Several essays examine the complex ways in which the Queen and her advisers shaped the music, literature, architecture, and painting of fifteenth-century Spain and how these in turn shaped the sovereign's power and persona. Others analyze influences on Isabel's reign from Aragon, Portugal, and northern Europe. A third group deals with issues of periodization, arguing from a variety of perspectives for the modernity of Isabelline culture. The evolving construction of Isabel's image from the mid-fifteenth to the late twentieth century is also studied.

**Forsaken Harvest** Luis G. Cueva, 2020-11-05

This historical monograph examines the decline of the hacienda estates within Jalisco, Mexico, during the early decades of the twentieth century. The book also explores the impact of the land reform program of President Lázaro Cárdenas in transforming the agrarian economic structure of the region. This study contributes to an ongoing lively debate about the hacienda system and the meaning of Cárdenas's reforms. This is an important work because it explores the evolution of a regional socioeconomic system that promoted urban industrial growth at the expense of the rural poor. The model of regional development described is applicable to other areas of Mexico and underdeveloped Third World nations with extensive peasant populations. The research for this investigation has wider implications regarding issues of global hunger and malnutrition.
