Encausse,2022-03-03 Reincarnation is the return of the spiritual Principle in a new fleshly envelope For a human being this envelope is always a human body This return can take place on the same planet where one lived his last existence or on another planet The return to a material body cannot be fixed in advance just as one cannot fix a time for terrestrial life Some human beings spend 3 years on earth and others 90 If one were to say man lives 30 years above the earth one would speak as an amateur of statistics but not as an observer of real laws The length of life on earth is a personal fact so the length of time one spends before returning to earth is also a special fact that depends on many circumstances It must be said at once that before reincarnating on a planet the spiritual being prepares himself for the loss of the memory of his previous existences We will be able to give all the testimonies of the classical authors concerning this fact and symbolized by the immersion in the water of the river Lete which gives oblivion before the return to the earth The reincarnation really has been marked as an esoteric

God Talks With Arjuna Paramahansa Yogananda, 2007 The words of Lord Krishna to Arjuna in the Bhagavad Gita, writes Paramahansa Yogananda, are at once a profound scripture, the science of Yoga, union with God, and a textbook for everyday living. Between Death and Rebirth Rudolf Steiner, 2021-10-28 In an absorbing series of lectures, Rudolf Steiner discloses factors in a person's life on Earth that will influence their experiences in the spiritual world after their death and conversely, factors in the spiritual world that will affect their next life on Earth. Steiner focuses on the period in the afterlife when the individual has been through *kamaloka*, the purgatorial place where the soul is purified. Once the soul has been cleansed of its astral sheath, it becomes open to cosmic influences, expanding into the planetary sphere. Now it can begin preparation for reincarnation for a new human life on Earth. Steiner addresses the vital relationship of the living to the dead, in particular how those on Earth can influence the souls of the dead. He also speaks on themes of Sleep and death, the seven-year life cycles of man, and offers a Christmas gift in the form of a lecture on Christian Rosenkreutz and Gautama Buddha. He ends with a mighty picture of the Mystery of Golgotha: Jesus Christ's death on the cross was only seemingly a death; in reality, it enabled the momentous birth of the Earth Soul. Long out of print, the freshly revised text of the ten lectures in this new edition is complemented with an introduction, notes, and appendices by Professor Frederick Amrine, and also features an index.

Abe and the Wee Folk James S. Reiley, Abe is an extremely precocious child who has been reincarnated from many past lives as a Tibetan Buddhist Master. His mission is to introduce nature spirits, including fairies, gnomes, and fauns, to humanity. To gain credibility, Abe must get highly educated very quickly in mathematics and ecology. He is aided in his quest by many beings in the physical plane and elsewhere. Will he succeed and change minds? This Eastern metaphysical story involving nature spirits opens new worlds of possibilities. Notes: the author has tried to present the reality of the nature spirits that coexist with us and everything we do. It is these beings to which we are indebted for the sustaining management of this world. This includes directed growth of plants, animals, and even all matter that surrounds us.
