,1927      **G. R. S. Mead and the Gnostic Quest** Clare Goodrick-Clarke,Nicholas Goodrick-Clarke,2005-08-10 George Robert Stowe Mead 1863 1933 was a major translator editor and commentator on Gnostic and hermetic literature and thus a pivotal figure linking the late 19th century esoteric revival to 20th century art literature and psychology As a young convert to the new movement of theosophy he served as private secretary to its co founder Helena Petrovna Blavatsky and after founding the European section of the Theosophical Society edited its London journal Lucifer for many years Mead s initial interest in theosophy and Hinduism soon blossomed into a lifelong and wide ranging engagement with the texts of

Gnosticism neo Platonism and hermeticism His editions and commentaries on previously inaccessible sources became standard works before the First World War and an important source of inspiration to such figures as Jung Ezra Pound Yeats and Robert Duncan A new entry in the Western Masters Series of concise biographies noting key figures in the Western esoteric tradition G R S Mead and the Gnostic Quest introduces Mead s life works and influences combining a substantial biography with a collection of his most important writings *The Voice of the Silence* Helena Petrovna

Blavatsky,2020-09-28 The following pages are derived from The Book of the Golden Precepts one of the works put into the hands of mystic students in the East The knowledge of them is obligatory in that school the teachings of which are accepted by many Theosophists Therefore as I know many of these Precepts by heart the work of translating has been relatively an easy task for me It is well known that in India the methods of psychic development differ with the Gurus teachers or masters not only because of their belonging to different schools of philosophy of which there are six but because every Guru has his own system which he generally keeps very secret But beyond the Himalayas the method in the Esoteric Schools does not differ unless the Guru is simply a Lama but little more learned than those he teaches The work from which I here translate forms part of the same series as that from which the Stanzas of the Book of Dzyan were taken on which the Secret Doctrine is based Together with the great mystic work called Paramartha which the legend of Nagarjuna tells us was delivered to the great Arhat by the Nagas or Serpents in truth a name given to the ancient Initiates the Book of the Golden Precepts claims the same origin Yet its maxims and ideas however noble and original are often found under different forms in Sanskrit works such as the Dnyaneshvari that superb mystic treatise in which Krishna describes to Arjuna in glowing colors the condition of a fully illumined Yogi and again in certain Upanishads This is but natural since most if not all of the greatest Arhats the first followers of Gautama Buddha were Hindus and Aryans not Mongolians especially those who emigrated into Tibet The works left by Aryasanga alone are very numerous Masters Speak Seymour B. Ginsburg,2014-04-01

If you want to pursue in a Western way the path that we follow here at Mirtola you need to study and work with the Gurdjieffian teaching Thus did the guru Madhava Ashish at their first meeting invite American businessman Sy Ginsburg on a spiritual journey that would last 19 years until the guru s death and include both annual visits to Sri Madhava Ashish s Mirtola ashram near Almora in India s Himalayan foothills and a lengthy correspondence Along the way the entrepreneur author would not only be caught up in the teachings of G I Gurdjieff but also in the search for the elusive unitive vision the world viewed from the perspective of the greater Self and not the personality In this remarkable spiritual document the reader shares the search increasingly catching glimpses of the unitive vision as the book draws toward a close that is also an opening out into the vaster dimensions of the human mind Helena Blavatsky Helena Blavatsky,2004-04-07 At the age of 17 rejecting nineteenth century materialism Helena Blavatsky 1831 1891 left her native Russia and traveled through India Tibet Egypt Europe and the Americas seeking out the sources of ancient wisdom as a key to spiritual truth In 1875 in New York she co founded the Theosophical Society for

the study of occult traditions Many popular ideas of rediscovered ancient wisdom including reincarnation and karma trace their origin to Helena Blavatsky and Theosophy This anthology includes material on her life and travels as well as excerpts from her major works     **Century Path** ,1911     Recycled Lives Julie Chajes,2019-01-02 A sizeable minority of people with no particular connection to Eastern religions now believe in reincarnation The rise in popularity of this belief over the last century and a half is directly traceable to the impact of the nineteenth century s largest and most influential Western esoteric movement the Theosophical Society In Recycled Lives Julie Chajes looks at the rebirth doctrines of the matriarch of Theosophy the controversial occultist Helena Petrovna Blavatsky 1831 1891 Examining her teachings in detail Chajes places them in the context of multiple dimensions of nineteenth century intellectual and cultural life In particular she explores Blavatsky s readings and misreadings of Spiritualist currents scientific theories Platonism and Hindu and Buddhist thought These in turn are set in relief against broader nineteenth century American and European trends The chapters come together to reveal the contours of a modern perspective on reincarnation that is inseparable from the nineteenth century discourses within which it emerged and which has shaped how people in the West tend to view reincarnation today     *To Stake a Claim* J. Andrew Kirk,Kevin J Vanhoozer,2021-04-16 An original international collaboration *To Stake a Claim* researches the relationship between what counted for knowledge in the West how this knowledge has changed over the years and how those changes related to the mission of the church as an evangelizer within Western culture Examining four key areas of study *To Stake a Claim* evaluates the dominant positions in contemporary philosophy regarding truth rationality and pluralism It first analyzes consequences for humanity that holding these positions implies Next it looks at faith religion and revelation in the context of the dominant positions of contemporary philosophy discussed in the first part The third part explores the dominant positions of contemporary theology Finally it summarizes the epistemological problems involved in the process of communicating the gospel within Western culture and evaluates the theological and missiological views of this communication     First Principles of Theosophy C. Jinarajadasa,2014-03 This Is A New Release Of The Original 1922 Edition     Reincarnation Edward Dwight Walker,1888     **The Western Esoteric Traditions** Nicholas Goodrick-Clarke,2008-10-14 Western esotericism has now emerged as an academic study in its own right combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order This introduction to the Western esoteric traditions offers a concise overview of their historical development Nicholas Goodrick Clarke explores these traditions from their roots in Hermeticism Neo Platonism and Gnosticism in the early Christian era up to their reverberations in today s scientific paradigms While the study of Western esotericism is usually confined to the history of ideas Goodrick Clarke examines the phenomenon much more broadly He demonstrates that far from being a strictly intellectual movement the spread of esotericism owes a great deal to geopolitics and globalization In Hellenistic culture for example the empire of Alexander the Great which stretched across Egypt and

Western Asia to provinces in India facilitated a mixing of Eastern and Western cultures As the Greeks absorbed ideas from Egypt Babylon Assyria and Persia they gave rise to the first esoteric movements From the late sixteenth to the eighteenth centuries post Reformation spirituality found expression in theosophy Rosicrucianism and Freemasonry Similarly in the modern era dissatisfaction with the hegemony of science in Western culture and a lack of faith in traditional Christianity led thinkers like Madame Blavatsky to look East for spiritual inspiration Goodrick Clarke further examines Modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of Carl Gustav Jung This book traces the complete history of these movements and is the definitive account of Western esotericism     **At the Feet of the Master** Jiddu Krishnamurti (Alcyone),2009-04 At the Feet of the Master was the first book published by Jiddu Krishnamurti Written when he was 14 under the name Alcyone and published in 1910 it has been translated into 40 languages There has been some debate over whether the author was Krishnamurti or his mentor C W Leadbeater Krishnamurti never said that he wrote the work and in the foreword he says These are not my own words but of the Master who taught me He was referring to Leadbeater s claim that the Master Kuthumi was releasing the instruction to the young boy during the night while he was asleep The book is considered a theosophical classic     The Theosophist ,1899     **An Abridgment by Katharine Hillard of the Secret Doctrine** Helena Petrovna Blavatsky,1907     **A Buddhist Catechism** Henry Steel Olcott,1887
