**What it Means to be a Herdsman** Joachim Otto Habeck, 2005 In this book author Joachim Otto Habeck takes the reader to the tundra in the Far North of the Russian Federation describing and interpreting the practice of reindeer

herding on the land His vivid account of the everyday life of Komi reindeer herders and their family members as they interact with their bosses the town the market and oil companies reveals both the reach of their agency and its limitations Through a meticulous analysis of each of these domains Habeck shows how public discourse about reindeer husbandry as a traditional life style derives from outside the Komi reindeer herding communities yet it has powerful effects on the local actors ability to frame their own existence He argues that the concept of tradition despite its many positive connotations places Komi reindeer herders in a golden cage which leaves no space for acknowledging their drive to innovation and flexibility

Reindeer Husbandry and Its Ecological Principles Sven Skjenneberg, 1979 Translation of Norwegian book first published by Universitetsforlaget Oslo 1968 describing current state of reindeer husbandry

**Reindeer Husbandry** Svein Disch Mathiesen, Inger Marie Gaup Eira, Ellen Inga Turi, Anders Oskal, Mikhail Pogodaev, Marina Tonkopeeva, 2022-12-09 This open access book focuses on climate change Indigenous reindeer husbandry and the underlying concept of connecting the traditional knowledge of Indigenous reindeer herders in the Arctic with the latest research findings of the world's leading academics The Arctic and sub Arctic

environment climate and biodiversity are changing in ways unprecedented in the long histories of the north challenging traditional ways of life well being and food security with legitimate concerns for the future of traditional Indigenous livelihoods The book provides a clear and thorough overview of the potential problems caused by a warming climate on reindeer husbandry and how reindeer herders knowledge should be brought to action In particular the predicted impacts of global warming on winter climate and the resilience of the reindeer herding communities are thoroughly discussed

Wildlife Production Systems Robert J. Hudson, K. R. Drew, L. M. Baskin, 1989-06 This book first published in 1989 examines the controversial position of commercial utilisation in relation to wildlife conservation Production of large mammals has earned respectability as an agricultural strategy and its evaluation has been listed as a priority requirement in the World Conservation Strategy However many authorities question whether wildlife production is a viable economic and environmental strategy and suggest that it runs counter to its claimed purpose This book evaluates this controversy by chronicling the changing role of wildlife and by reflecting on the implications of these trends The book should be of interest to people both applauding and deploring the use of wildlife in this economic role

**Young People, Wellbeing and Sustainable Arctic Communities** Florian Stamm, Reetta Toivanen, 2021-10-29 Youth are usually not yet decision makers in politics or in business corporations but the sustainability of Arctic settlements depends on whether or not youth envision such places as offering opportunities for a good future This is the first multidisciplinary volume presenting original research on Arctic youth This edited book presents the results of two research projects on youth wellbeing and senses of place in the Arctic region The contributions are united by their focus on agency Rather than seeing youth as vulnerable and possible victims of decisions by others they illustrate the diverse avenues that youth pursue to achieve a good life in the Arctic The contributions also show which social economic political and legal conditions provide the best frame for youth agency in Arctic settlements Rather than portraying the Arctic as a resource frontier a hotspot for climate change and a place where biodiversity and traditional Indigenous cultures are under threat the book introduces the Arctic as a place for opportunities the realization of life trajectories and young people's images of home Rooted in anthropology the chapters also feature contributions from the fields of sociology geography sustainability science legal studies and political science This book is intended for an audience interested in anthropology political science Arctic urban studies youth studies Arctic social sciences and humanities in general It would attract those working on Arctic sustainability wellbeing in the Arctic Arctic demography and overall wellbeing of youth

**Power and the People** Yulian Konstantinov,2023-09-02 This book discusses state periphery relations from the view point of a reindeer husbandry community in the Russian Far North Murmansk Region The time is the current period of Putin led Russia The analysis is based on the premise that the mode of current top power governance can be described as selective de centralization Below a certain level of state power interests conflicts get resolved in favour of local communities That gains support for the supreme leadership and reproduces a Soviet like reality Termed sovkhoism the latter holds the Soviet state farm sovkhos as creating an ideal socio economic environment When issues are of significant interest to superior power selection favours cavalier bypassing of people friendly concerns At this level power acts in an authoritarian mode favouring the interests of state power structures in conjunction with the upper tiers of the loyal oligarchate It is shown how this governing mode contains significant potential for escalating centre vs periphery tensions The New Arctic Birgitta Evengård,Joan Nymand Larsen,Øyvind Paasche,2015-06-11 In the late 18th century explorers and scientists started venturing into the Arctic in a heroic and sometimes deadly effort to understand and unveil the secrets of the unforgiving and mysterious polar region of the high north Despite that the Arctic was already populated mattered less for the first wave of polar researchers and explorations who nevertheless brought back valuable knowledge Today the focus in Arctic science and discourse has changed to one which includes the peoples and societies and their interaction with the world beyond The image of a static Arctic heralded first by explorers prevailed for a long time but today the eyes of the World see the Arctic very differently Few if any other places on Earth are currently experiencing the kind of dramatic change witnessed in the Arctic According to model forecasts these changes are likely to have profound implications on biophysical and human systems and will accelerate in the decades to come The New Arctic highlights how and in what parts the natural and political system is being transformed We re talking about a region where demography culture and political and economic systems are increasingly diverse although many common interests and aspects remain and with the new Arctic now firmly placed in a global context Settlements range from small predominantly indigenous communities to large industrial cities and all have a link to the surrounding environment be it glaciers or vegetation or the ocean itself The New Arctic contributes to our further understanding of the changing Arctic It offers a range of perspectives which reflect the deep insight of a variety of scientific

scholars across many disciplines bringing a wide range of expertise The book speaks to a broad audience including policy makers students and scientific colleagues *The Proposed Nordic Saami Convention* Nigel Bankes, Timo Koivurova, 2013-01-31 In 2005 an expert group representing the governments of Norway Sweden and Finland and the Saami parliaments of these countries agreed upon a draft text of a Nordic Saami Convention Key parts of the text deal with the recognition of Saami land and resource rights More recently the three governments have embarked on negotiations to move from this draft text to a final convention that may be adopted and ratified by all three countries Negotiations commenced in the Spring of 2011 and should be completed within five years This collection of essays explores the national and international dimensions of indigenous property rights and the draft Convention which recognises the Saami as one people divided by international boundaries Part one of the book seeks to provide a global and theoretical context for these developments in the Nordic countries with a series of essays dealing with the moral and legal reasons for recognising indigenous property interests and different conceptualisations of the relationship between indigenous peoples and settler societies including recognition reconciliation and pluralism Part two of the book examines some international legal issues associated with the Convention including the background to the Convention Part three turns to examine aspects of the recognition of Saami property interests in each of the three Nordic states while Part four provides some comparative experiences examining the recognition of indigenous property rights in a number of jurisdictions including Canada Australia and a number of South American states An additional essay considers gender issues in relation to indigenous property rights **International Law Reports** E. Lauterpacht, C. J. Greenwood, 1999-07 Contains the report of the recent arbitration award involving Yemen and the State of Eritrea **Anthropology and Climate Change** Susan A. Crate, Mark Nuttall, 2023-11-30 In this third edition of *Anthropology and Climate Change* Susan Crate and Mark Nuttall offer a collection of chapters that examine how anthropologists work on climate change issues with their collaborators both in academic research and practicing contexts and discuss new developments in contributions to policy and adaptation at different scales Building on the first edition's pioneering focus on anthropology's burgeoning contribution to climate change research policy and action as well as the second edition's focus on transformations and new directions for anthropological work on climate change this new edition reveals the extent to which anthropologists' contributions are considered to be critical by climate scientists policymakers affected communities and other rights holders Drawing on a range of ethnographic and policy issues this book highlights the work of anthropologists in the full range of contexts as scholars educators and practitioners from academic institutions to government bodies international science agencies and foundations working in interdisciplinary research teams and with community research partners The contributions to this new edition showcase important new academic research as well as applied and practicing approaches They emphasize human agency in the archaeological record the rapid development in the last decade of community based and community driven research and disaster research provide rich ethnographic insight into

worldmaking practices interventions and collaborations and discuss how and in what ways anthropologists work in policy areas and engage with regional and global assessments This new edition is essential for established scholars and for students in anthropology and a range of other disciplines including environmental studies as well as for practitioners who engage with anthropological studies of climate change in their work     *Judicial Protection of Economic, Social and Cultural Rights* Bertie G. Ramcharan,2005-08-01 The implementation of economic social and cultural rights is a most pressing item on the international human rights agenda Millions of people go without food health shelter education work social security not because the resources are unavailable to provide for these basic human rights but because societies are badly governed or democracy is lacking or the rule of law is absent or simply because there is a failure of understanding about how to go about the practical implementation of these rights In the discussion of this issue and about the implementation of economic social and cultural rights generally it is sometimes heard that economic social and cultural rights are rights of progressive application not capable of judicial determination This volume seeks to bring together for the first time a collection of documents and case law from different parts of the world which shows the Courts at work in providing judicial protection of economic social and cultural rights One conclusion stands out from these cases the courts do have a role to play in providing judicial protection of these rights as the decisions reproduced in this volume make clear the era of justiciability of economic social and cultural rights has arrived     ,
