Reino De La Cantidad Y Los Signos De Los:

El reino de la cantidad y los signos de los tiempos René Guénon, 1997-07-29 En una primera aproximación esta obra podría parecer una crítica radical del mundo moderno cuya concepción del conocimiento parece basarse exclusivamente en la noción de cantidad en el mecanicismo y en la abusiva creación de oposiciones y dualismos Sin embargo la crítica va mucho más allá y se extiende a las categorías epistemológicas y a las concepciones del mundo más universalmente admitidas por la modernidad Una tras otra caen así por su propia base las ciencias exactas y las sociales pierden el brillo de la evidencia cartesiana muchos de nuestros más profundos instrumentos intelectuales y nociones como las de evolución o progreso histórico y psicoanálisis quedan reducidas a un desarrollo fragmentario y excesivamente simple La obra recorre los caminos de las diferentes religiones y procesos iniciáticos da cuenta de las aportaciones de las diversas corrientes ocultistas y espiritualistas y en fin dinamita serenamente los fundamentos de la civilización occidental con la intención de reivindicar un conocimiento tradicional que constituye también la base de esta última pero que en el fondo es algo mucho más complejo y misterioso

El Reino de la cantidad y los signos de los tiempos René Guénon, 1976 The Great Triad René Guénon, 2001 Centered on Taoism this text is also characteristically rich in illuminating cross references to other traditions The ternary in question Heaven Earth and Human is an inescapable feature of all spirituality it possesses the possibility of functioning as an initiatory means of support for inner realization

Obras completas: volumen IV. El reino de la cantidad y los signos de los tiempos (336 páginas) René Guénon, 2023 *Mensajes - Volumen VI* Ekkirala Krishnamacharya, 2022-03-13 Por supuesto que todos nosotros utilizamos los símbolos diariamente Sin símbolos nadie puede vivir su vida diaria Lo que vamos a hacer ahora es entender los aspectos científicos del simbolismo Esto es importante en el sentido de que todas las escrituras sagradas antiguas han resultado ser los textos más importantes de las escuelas esotéricas del mundo Estas escrituras sagradas están llenas de un simbolismo científico que incluye tres o cuatro métodos diferentes de aplicación Si no entramos en las antiguas escrituras sagradas de las diferentes naciones no tenemos ninguna base para nuestros estudios esotéricos modernos Si queremos adentrarnos en las profundidades de la experiencia espiritual debe haber una metodología para abordarla porque el alfabeto que usamos para entender algo es bastante abstracto y no tan concreto o burdo como los símbolos descubiertos por el hombre o los alfabetos

Cultura y fe latinoamericanas Diego Irarrázaval, 1994 The King of the World René Guénon, 2001 This remarkable book grew out of a conference headed by René Guénon the sinologist René Grousset and the neo Thomist Jacques Maritain on questions raised by Ferdinand Ossendowski's thrilling account in his *Men Beast and Gods* of an escape through Central Asia during which he foils enemies and encounters shamans and Mongolian lamas whose marvels he describes The book caused a great sensation especially the closing chapters where Ossendowski recounts legends allegedly entrusted to him concerning the King of the World and his subterranean kingdom Agarthā The present book one of Guénon's most controversial was written in response to this conference and develops the theme of the

King of the World from the point of view of traditional metaphysics Chapters include Western Ideas about Agarththa Shekinah and Metatron The Three Supreme Functions Symbolism of the Grail Melki Tsedeq Luz Abode of Immortality The Supreme Center concealed during the Kali Yuga and The Omphalos and Sacred Stones *Spiritual Authority and Temporal Power* René Guénon, 2001 *Spiritual Authority and Temporal Power* is an analysis of cyclical manifestation and more specifically of the relationship between royal and sacerdotal power In accord with the Hindu doctrine of manvantaras and Plato's depiction of historical degeneration in the Republic Guénon views history here as a series of revolts of lower castes against the higher The kshatriyas warriors revolt against the brahmins priests thus setting the stage for a revolt of the vaishyas loosely the bourgeoisie as in the French revolution and finally the shudras the proletariat as in the Russian revolution which Guénon does not touch upon in this work From one point of view this is a progressive degeneration from another it is entirely lawful given the entropic nature of manifestation itself External historical descent reflects an inner degeneration knowledge the celestial paradise is eclipsed by heroic action the terrestrial paradise which is in turn overrun by the inertia and agitation of the passions Yet the nadir of degeneration is also the point of renewal the dawning of the Heavenly Jerusalem spiritual Knowledge which begins a new cycle of manifestation *Changes, Conflicts and Ideologies in Contemporary Hispanic Culture* Teresa Fernandez Ulloa, 2014-06-02 This book is formed by various chapters studying the manner in which conflicts changes and ideologies appear in contemporary Hispanic discourses The contributions analyze a wide variety of topics related to the manner in which ideological and epistemological changes of the 19th 20th and 21st centuries are reflected in and shape Spanish language literature and other cultural expressions in both Spain and Latin America The 19th century was conducive to various movements of independence while in Europe radical changes of different types and in all contexts of life and knowledge occurred Language was certainly affected by these changes resulting in new terminology and discourse strategies Likewise new schools of thought such as idealism dialectic materialism nihilism and nationalism among others were established in addition to new literary movements such as romanticism evocative of revolution individualism and realism inspired by the social effects of capitalism Scientific and technological advances continued throughout the 20th century when the women's liberation movement consolidated The notion of globalization also appears simultaneously to various crises despotism wars genocide social exclusion and unemployment Together these trends give rise to a vindicating discourse that reaches large audiences via television The classic rhetoric undergoes some changes given the explicit suasion and the absence of delusion provided by other means of communication The 21st century is defined by the flood of information and the overpowering presence of mass communication so much so that the technological impact is clear in all realms of life From the linguistic viewpoint the appearance of anglicisms and technicalities mirrors the impact of post modernity There is now a need to give coherence to a national discourse that both grasps the past and adapts itself to the new available resources with the purpose of conveying an effective and attractive message to a very large audience

Discourse is swift since society does not seem to have time to think but instead seeks to maintain interest in a world filled with stimuli that in turn change constantly Emphasis has been switched to a search for historical images and moments that presumably explain present and future events It is also significant that all this restlessness is discussed and explained via new means such as the world wide web The change in communication habits e mail chats forums SMS and tools computers mobile phones that was initiated in the 20th century has had a net effect on the directness and swiftness of language
