Reinventing The Culture Of Womanhood In America And Brazil An Anthropological Perspective:

Reinventing the Culture of Womanhood in America and Brazil Alex Huxley Westfried, 2002 In *Reinventing the Culture of Womanhood in America and Brazil an Anthropological Perspective* Alex Westfried examines the heroic struggle of Brazilian women to restore justice bring a democratic society and gain virtually total independence economically socially sexually and spiritually to their society Brazilian Evangelicalism in the Twenty-First Century Eric Miller, Ronald J. Morgan, 2019-05-09 Over the past fifty years Brazil's evangelical community has increased from five to twenty five percent of the population This volume's authors use statistical overview historical narrative personal anecdote social scientific analysis and theological inquiry to map out this emerging landscape The book's thematic center pivots on the question of how Brazilian evangelicals are exerting their presence and effecting change in the public life of the nation Rather than fixing its focus on the interior life of Brazilian evangelicals and their congregations the book's attention is directed toward social expression the ways in which Brazilian evangelicals are present and active in the common life of the nation Women, Sport, Society Roberta Park, Patricia Vertinsky, 2013-09-13 During the last four decades women's and gender history have become vibrant fields including studies of attitudes regarding the limited physical and other abilities of females as well as studies of the accomplishments of notable female athletes We have become increasingly aware that women have made contributions to physical education dance and sport that go far beyond being teachers athletes and coaches They have created and implemented an astonishing variety of programs intended to serve the needs of large numbers of children and youth sometimes organizing student health services as well as chairing departments of physical education They have worked as directors of sport physical education and dance running playgrounds and recreational facilities and have created and or served as important officers of a variety of sporting organizations This book explores the contributions and achievements of women in a variety of historical and geographical contexts which not surprisingly opens opportunities for additions revisions and counter narratives to accepted histories of physical education and sport science It seeks to broaden our understandings about the backgrounds motivations and achievements of dedicated women working to improve health and bodily practices in a variety of different arenas and for often different purposes This book was previously published as a special issue of the *International Journal of the History of Sport* Mixed Towns, Trapped Communities Daniel Monterescu, 2016-04-22 Modern urban spaces are by definition mixed socio spatial configurations In many ways their enduring success and vitality lie in the richness of their ethnic texture and ongoing exchange of economic goods cultural practices political ideas and social movements This mixture however is rarely harmonious and has often led to violent conflict over land and identity Focusing on mixed towns in Israel Palestine this insightful volume theorizes the relationship between modernity and nationalism and the social dynamics which engender and characterize the growth of urban spaces and the emergence therein of inter communal relations For more than a century Arabs and Jews have been interacting in the workplaces residential areas

commercial enterprises cultural arenas and political theatres of mixed towns Defying prevailing Manichean oppositions these towns both exemplify and resist the forces of nationalist segregation In this interdisciplinary volume a new generation of Israeli and Palestinian scholars come together to explore ways in which these towns have been perceived as utopian or dystopian and whether they are best conceptualized as divided dual or colonial Identifying ethnically mixed towns as a historically specific analytic category this volume calls for further research comparison and debate **Latin America** Juan Manuel Pérez, 2004 This is a general bibliography on Latin America covering a wide variety of subjects from pre Columbian civilizations to Columbus to Castro to the foreign debt to pollution ect This work will not only be of use to the general casual reader on Latin America but also to the more specialized researcher The book contains over 800 topics with over 8 000 titles identified Book Review Index , 2004 Every 3rd issue is a quarterly cumulation **New Books on Women and Feminism** , 2003 **American Book Publishing Record** , 2003 Reinventing Political Culture Jeffrey C. Goldfarb, 2012 The way people think and act politically is not set in stone People can and do change the fundamental cultural contours of their political situation Their political culture does not only restrict imagination and action it is also a resource for political creativity and invention In Reinventing Political Culture this resource is uncovered and explored Analyzed as a tension between the power of culture and the culture of power the concept of political culture is reinvented and applied to understanding the practice of people transforming their own political culture in very different circumstances Three instances of such reinvention are closely examined one historic during the twilight of the Soviet empire one actively in process and actively opposed the Obama revolution and one an apparent distant dream the power of culture and the culture of power that would avoid the clash of civilizations in the Middle East In accessible and engaging prose Goldfarb clearly and forcefully presents students and scholars of sociology comparative politics and cultural studies with an original position on political culture showing how the political cultures of our times pose not only grave dangers but also opportunities for creative alternatives Contesting Development Philip McMichael, 2010-02-17 At a time when the development promise is increasingly in question with dwindling social gains the vision of modernity is losing its legitimacy and coherence This moment is observable through the lens of critical struggles of those who experience disempowerment displacement and development contradictions In this book case studies serve as an effective means of teaching key concepts and theories in the sociology of development This collection of cases all original never previously published and with framing essays by Phillip McMichael has been written with this purpose in mind An important additional feature is that the book as a whole reveals the limiting assumptions of development and suggests alternate conditions of possibility for social existence in the world today In that sense the book pushes the boundaries of thinking about development and makes an important theoretical contribution to the literature **Critical Medical Anthropology** Jennie Gamlin, Sahra Gibbon, Paola M. Sesia, Lina Berrio , 2020-03-12 Critical Medical Anthropology presents inspiring work from scholars doing and engaging with ethnographic research in or

from Latin America addressing themes that are central to contemporary Critical Medical Anthropology CMA This includes issues of inequality embodiment of history indigeneity non communicable diseases gendered violence migration substance abuse reproductive politics and judicialisation as these relate to health The collection of ethnographically informed research including original theoretical contributions reconsiders the broader relevance of CMA perspectives for addressing current global healthcare challenges from and of Latin America It includes work spanning four countries in Latin America Mexico Brazil Guatemala and Peru as well as the trans migratory contexts they connect and are defined by By drawing on diverse social practices it addresses challenges of central relevance to medical anthropology and global health including reproduction and maternal health sex work rare and chronic diseases the pharmaceutical industry and questions of agency political economy identity ethnicity and human rights
