*Reinventing Professionalism* Silvio Waisbord,2013-08-26 Current anxiety about the future of news makes it opportune to revisit the notion of professionalism in journalism Media expert Silvio Waisbord takes this pressing issue as his theme and argues that professional journalism is both a normative and analytical notion It refers to reporting that observes certain ethical standards as well as to collective efforts by journalists to exercise control over the news Professionalism should not be narrowly associated with the normative ideal as it historically developed in the West during the past century Instead it needs to be approached as a valuable concept to throw into sharp relief how journalists define conditions and rules of work within certain settings Professionalization is about the specialization of labor and control of occupational practice These issues are important particularly amidst the combination of political technological and economic trends that have profoundly unsettled the foundations of modern journalism By doing so they have stimulated the reinvention of professionalism This engaging and insightful book critically examines the meanings expectations and critiques of professional journalism in a global context

the common criticisms of identity politics and warns against using concerns about antisemitism as a proxy for antiracism. Dominant voices in society suggest we are talking too much about race. Lentin shows why we actually need to talk about it more and how in doing so we can act to make it matter less. *The Dignity of Labour* Jon Cruddas, 2021-04-08 Does work give our lives purpose meaning and status Or is it a tedious necessity that will soon be abolished by automation leaving humans free to enjoy a life of leisure and basic income In this erudite and highly readable book Jon Cruddas MP argues that it is imperative that the Left rejects the siren call of technological determinism and roots it politics firmly in the workplace Drawing from his experience of his own Dagenham and Rainham constituency he examines the history of Marxist and social democratic thinking about work in order to critique the fatalism of both Blairism and radical left techno utopianism which he contends have more in common than either would like to admit He argues that especially in the context of COVID 19 socialists must embrace an ethical socialist politics based on the dignity and agency of the labour interest This timely book is a brilliant intervention in the highly contentious debate on the future of work as well as an ambitious account of how the left must rediscover its animating purpose or risk irrelevance **Principles** Ray Dalio, 2017-09-19 Dalio shares the unconventional principles that he s developed refined and used over the past forty years to create unique results in both life and business and which any person or organization can adopt to help achieve their goals Amazon com **Listening Publics** Kate Lacey, 2013-05-03 In focusing on the practices politics and ethics of listening this wide ranging book offers an important new perspective on questions of media audiences publics and citizenship Listening is central to modern communication politics and experience but is commonly overlooked and underestimated in a culture fascinated by the spectacle and the politics of voice Listening Publics restores listening to media history and to theories of the public sphere In so doing it opens up profound questions for our understanding of mediated experience public participation and civic engagement Taking a cross national and interdisciplinary approach the book explores how listening publics have been constituted in relation to successive media technologies from the invention of writing to the digital age It asks how new practices of listening associated with sound and audiovisual media transform a public world forged in the age of print Through detailed histories and sophisticated theoretical analysis Listening Publics demonstrates the embodied and critical activity of listening to be a rich concept with which to rethink the practices politics and ethics of media communication
