Reise Nach Kiribati Abenteuer Zwischen Himmel Und Erde

Jonas Richter

Reise Nach Kiribati Abenteuer Zwischen Himmel Und Erde:

Reise nach Kiribati Erich von Däniken, 1982 **Reise nach Kiribati** Erich von Däniken, 1981 UFOs Karl Svozil, 2023-08-01 Unidentified phenomena in space in the Earth's atmosphere and in waters are too important to leave their exploration to the military and scientific laypersons. Their proper scientific study is important for a variety of reasons: in particular, scientists and the public at large need to know the basic facts to be informed about the way evidence is recorded and to understand the difference between reliable evidence and fiction as well as between plausible explanations and fantasy. With this objective, the book surveys the history of UFO observations, the variety of recorded phenomena, and recounts the efforts of investigative commissions and their published findings. Although wild rumors are demystified in the process, this is not an exercise in rumor bashing. An open and at the same time critical mindset is the key. Many narratives and hypotheses appear implausible relative to our present state of knowledge, but this alone should not lead to their outright exclusion. Thus, the author also pays attention to UFO sightings that have so far eluded explanation in terms of known physics or meteorology. Here, the reader will encounter some of the more speculative but scientifically tenable proposals, for example, relating to sudden zigzag motion without apparent inertia or recognizable propulsion, yet always with a clear guide to their plausibility. Last but not least, the book outlines plans and suggestions for future research capable of revealing the existence and intentions of extraterrestrial intelligences, outer space engineers, or technologies so far known only from science fiction.

Viaje a Kiribati Erich von Däniken, 1981 **Götter-Astronauten** Jonas Richter, 2017 Waren die Götter Astronauten? Diese Position vertritt die Prä-Astronautik oder Paläo-SETI, eine grenzwissenschaftliche Laienforschung. Erich von Däniken ist auf diesem Gebiet der erfolgreichste Autor. Er behauptet, dass Außerirdische vor Urzeiten die Erde besucht und die Entwicklung der Menschheit beeinflusst haben. Sie seien als Götter verehrt worden, und Spuren ihres Wirkens finden sich bis heute werden aber von der Menschheit missverstanden. Das vorliegende Buch beschreibt die weltanschaulichen Grundannahmen, auf denen Dänikens Argumentation beruht. **Deutsche Bibliographie**, 1989 **LIT.**, 1979 **Anzeiger des österreichischen Buchhandels**, 1982 Börsenblatt für den deutschen Buchhandel, 1983 *Subject guide to German books in print*, 1986 **Das Schweizer Buch**, 1983 **Deutsches Bücherverzeichnis**, 1988 Bde 16, 18, 21 and 28 each contain section Verlagsveränderungen im deutschen Buchhandel **National Union Catalog**, 1982 Includes entries for maps and atlases **National Union Catalog**, 1981, 1982 **Oesterreichische Bibliographie**, 1982-08 **Subject Catalog**, 1981 Library of Congress, 1981 **Deutsche Nationalbibliographie und Bibliographie des im Ausland erschienenen deutschsprachigen Schrifttums**, 1982 *Deutsche Nationalbibliographie und Bibliographie des im Ausland erschienenen deutschsprachigen Schrifttums*, 1982 **O.K.**, 1995 **1988**, 2021-06-21 Keine ausführliche Beschreibung für 1988 verfügbar
