Public health, suicide, and substance addiction Sheikh Mohd Saleem,Sheikh Shoib,2024-01-02

Coyote Speaks Jacques Rutzky,1998 Coyote Speaks describes the strengths the strategies and the resilience a therapist needs to work successfully with alcoholics and addicts It reports what a therapist sees hears smells and feels in the midst of treating those yet to achieve sobriety those recently sober and those with years of recovery behind them In the Navajo cosmology those possessed by Coyote are neither inherently evil nor morally lacking but like alcoholics and addicts they suffer from a malady of the soul as much as the body The provocative humor of Coyote stories illustrates the mercurial and quixotic nature of the alcoholic and addict in treatment

while evocative case histories from the author's private practice reveal the humanity behind a disease that binds two individuals in a struggle toward honesty, humility and sobriety. *Coyote Speaks* explores the darkness of alcohol and drug addiction, the humility we accept when we acknowledge our limitations as therapists and the redemption we witness as we attend to a disease that is at best treatable. It is about caring enough, sometimes too much, and about knowing when to let go.
