Brihat Jataka Usha and Shashi, 2024-10-16 There is probably not one subject which is so ill understood which so many people pretend to know and on which so many are prepared to express an opinion as the subject of Astrology The Indian proverb truly says that there is no man who is not a bit of a physician and an astrologer and it is equally true that there is no subject which is so ill understood as these two The fact is that the broad medical and astrological principles are so many that everybody out of necessity learns

a few of these but experiences a difficulty in mastering all of them The Astrology of Seers David Frawley,1992 Astrology of the Seers is a clear yet comprehensive presentation of Vedic astrology and makes this difficult to understand subject clear practical and relevant it reveals the deeper implications of the Vedic system in sections on astrology as a spiritual science astrology and psychology astrology and yoga Of special interest the book explains the cycle of the world ages yugas showing the Vedic view of human history and the connection of our solar system with galactic sources of energy Thirty two example charts of all types are explained including those of many spiritual teachers covering all the main aspects of its philosophy background and practice including chart interpretation and methods of balancing planetary influences such as mantra and gem therapy The present edition has been throughly revised and updated **How to Read Cosmodynes** Doris Chase Doane,2009-08 How to Read Cosmodynes fills an important need in the astrological field Many know of this method of measuring the relative power of the planets signs and houses but few know how to use it in their daily astrological practice Yet it can be the key to seemingly inexplicable factors in an individual horoscope Cosmodyne patterns indicate how delays obstacles and confusion can be avoided They point to where the energy expenditure should be directed how it should be channeled and the associations which will enhance the demonstration of success Once you experiment with the use of cosmodynes you will never give them up Probably you ll wonder how you managed to do without them for so long **A History of Horoscopic Astrology** James H. Holden,2006 This thoroughly researched book is a history of the development of Western horoscopic astrology from its origin among the Babylonians and its subsequent creation in its present form by the Alexandrians down to modern times Special attention is given to background history and to the working conditions and techniques used by astrologers during the last two thousand years Numerous footnotes provide additional information and bibliographic references A separate bibliography lists reference sources of particular importance Two comprehensive indices containing more than 2 800 individual entries enable the reader to locate persons publishers topics and book and periodical titles that are mentioned in the history The book also contains discussions of several questions and topics relating to astrology James Herschel Holden is Research Director of the American Federation of Astrologers and has been especially interested in the history of astrology Essential of Horary Astrology Or Prasna Padavi M. Ramakrishna Bhat,B. P. Nair,1992 This book provides an insight into the importance of astrology viz natal electional and horary as well as deals with other dimensions of this science such as spirituality spiritualism Ayurveda transmigration of souls thought reading dreams temple and its rituals and effects of particular sins The work presents new theories and methods of determining success and defeat in contests and wars with the help of illustrative charts It urges readers to avoid fatalism commonly associated with predictions and explains how one could solve riddles in life and tide over the pessimistic attitude and related psychological problems The author has thrown fresh light on some questions like the name of the author of Prasnamarga line of succession of his pupils and the authorship of the Dasadhyayi The most significant contribution of this work is the clear exposition of the

rules of Astamangala and Devaprasna in addition to Candragupti water divination martial problems Coragrahas Necromancy special importance of Mandi and Dasa of its star Kalacakradasa etc
