literacy related to advertising images with high style and intellect When so much information is conveyed through quickly edited and carefully controlled mass media images Visual Persuasion is a vital book toward understanding the impact on individuals cultures and society of persuasive visual messages Paul Martin Lester Ph D Author of Visual Communication with Messages A smartly reasoned and elegantly written treatment of visual argumentation authored by one of America s most respected authorities on visual communication James Lull The pictures in TV commercials magazine ads and other forms of advertising often convey meanings that cannot be expressed as well or at all through words or music Visual Persuasion is an exploration of these unique aspects of advertising By virtue of their ability to simulate the appearance of the physical world pictures can become surrogate objects of desire or other emotions which ads subsequently associate with products By exploiting viewers assumptions of a direct automatic connection between photography and reality images can serve as proof of advertising claims Because of the implicit nature of visual argumentation and the relative lack of social accountability that images enjoy in comparison with words pictures can be used to make advertising claims that would be unacceptable if they were spelled out verbally Using these characteristics of visual persuasion as a starting point this important book analyzes a variety of commercial political and social issue advertisements A separate chapter examines the role of pictures in cross cultural advertising Visual Persuasion is recommended for upper level undergraduate students and graduate students in communication and media studies It also contains insights that will be valuable to students in courses in cultural studies sociology anthropology and advertising

can a modern society scale back its dependence on gasoline as a motive source Are there genuine alternative power sources Are they the answer to a growing crisis Recent announcements of hybrids like those from Honda Toyota and Ford have really brought attention to this issue Hybrids that use both gasoline engines and electric motors Really though alternative power sources have been around for as long as the automobile has been The battle between and among the steam car the electric and the gas car was fought out in the first couple of decades of the twentieth century This book explores the ins and outs of that battle A struggle from which the gasoline car emerged completely victorious To such an extent that steam cars and electric cars virtually disappeared from the scene for many decades We will look over all three alternatives exploring their advantages and disadvantages We will also look over the obstacles to the steamers and the electrics Barriers that still exist to a certain extent Handicaps that caused their disappearance in the first place

*Flip the Script* Oren Klaff, 2019-08-13 THE BESTSELLING AUTHOR OF PITCH ANYTHING IS BACK TO FLIP YOUR ENTIRE APPROACH TO PERSUASION Is there anything worse than a high pressure salesperson pushing you to say yes then sign on the dotted line before you re ready If there s one lesson Oren Klaff has learned over decades of pitching presenting and closing long shot high stakes deals it s that people are sick of being marketed and sold to Most of all they hate being told what to think The more you push them the more they resist What people love however is coming up with a great idea on their own even if it s the idea you were guiding them to have all along Often the only way to get someone to sign is to make them feel like they re smarter than you That s why Oren is throwing out the old playbook on persuasion Instead he ll show you a new approach that works on this simple insight Everyone trusts their own ideas If rather than pushing your idea on your buyer you can guide them to discover it on their own they ll believe it trust it and get excited about it Then they ll buy in and feel good about the chance to work with you That might sound easier said than done but Oren has taught thousands of people how to do it with a series of simple steps that anyone can follow in any situation And as you ll see in this book Oren has been in a lot of different situations He ll show you how he got a billionaire to take him seriously how he got a venture capital firm to cough up capital and how he made a skeptical Swiss banker see him as an expert in banking He ll even show you how to become so compelling that buyers are even more attracted to you than to your product These days it s not enough to make a great pitch To get attention create trust and close the deal you need to flip the script
