Relearning To E Learn Strategies For Electronic Learning And Knowledge:

Relearning to E-learn M. S. Bowles, Marcus Stuart Bowles, 2004 Examines the issue of how people communicate and learn in the electronic environment It explores many of the problems associated with the newness of e learning and the diverse approaches to e learning adopted by the academic government corporate and community sectors Linguistic and Cultural Online Communication Issues in the Global Age St. Amant, Kirk, 2007-03-31 This book provides readers with in depth information on the various linguistic cultural technological legal and other factors that affect interactions in online exchanges It provides information that implements effective decisions related to the uses and designs of online media when interacting with individuals from other cultures Provided by publisher E-Learning: Strategies for Delivering Knowledge in the Digital Age Marc J. Rosenberg, 2000-11-16 Internet and intranet technologies offer tremendous opportunities to bring learning into the mainstream of business E Learning outlines how to develop an organization wide learning strategy based on cutting edge technologies and explains the dramatic strategic organizational and technology issues involved Written for professionals responsible for leading the revolution in workplace learning E Learning takes a broad strategic perspective on corporate learning This wake up call for executives everywhere discusses Requirements for building a viable e learning strategy How online learning will change the nature of training organizations Knowledge management and other new forms of e learning Marc J Rosenberg Ph D Hillsborough NJ is an independent consultant specializing in knowledge management e learning strategy and the reinvention of training Prior to this he was a senior direction and knowledge management field leader for consulting firm DiamondCluster International **E-Learning Practice in Higher Education: A Mixed-Method Comparative Analysis** Sayed Hadi Sadeghi, 2017-09-13 This book investigates e learning practices at American and Australian institutes of higher learning their status quo best practice examples and remaining issues Utilizing a mixed methods approach it combines three studies two using quantitative methods and a third using qualitative methods in order to gauge the status quo of e learning The first study addresses the dominant cultural dimensions revealing that the main explanation for the results may be the fact that most suppliers of the Australian university s e learning system had an East Asian cultural background and predominantly traditional perspectives on learning In Study 2 the findings indicate that the levels of e learning practice at the Australian and US universities surveyed were above average although the American university was ranked higher in terms of e learning practices In turn Study 3 investigates current problems in e learning practice on the basis of four aspects pedagogy culture technology and e practice and determines that cultural sensitivity and effective cultural practices show room for improvement while key technological challenges and issues like faculty policies quality LMS and online support need to be overcome In general the outcomes suggest that it is essential for the Australian university surveyed to further develop and update its e learning system especially in terms of e practice using the same technologies that pioneering countries like America are employing Indeed the combination of adopting patterns successfully

used in other countries and adjusting them to the Australian culture represents the best strategy for educational decision and policy makers This book provides the basis for designing a culture sensitive framework for higher education e learning practice in American and Australian contexts Moreover students and teachers experiences with e learning in a comparative higher education context can help higher education instructors and university managers to understand how e learning relates to and can be integrated with other experiences of learning and teaching
