Francis Bacon,1878 **Moguls and Madmen** Jory Farr,2001-07-23 Rock and roll started as a devil s dance and a shout of ecstasy and ever since it has carved its path between those who want to control it and those who want to push it to the edge or over the edge A blend of profile criticism investigative reporting and history Moguls and Madmen is a compelling look at today s often explosive at times out of control music industry It s a collection of stories from the culture s shadow world tales of guns and gangs sex and drugs greed and lawsuits told through the eyes of both the moguls seeking power and money and the artists seeking fame and fortune *Geto Boys' The Geto Boys* Rolf Potts,2016-05-19 At the outset of summer in 1990 a

Houston gangsta rap group called the Geto Boys was poised to debut its self titled third album under the guidance of hip hop guru Rick Rubin What might have been a low profile remix release from a little known corner of the rap universe began to make headlines when the album s distributor refused to work with the group citing its violent and depraved lyrics When The Geto Boys was finally released chain stores refused to stock it concert promoters canceled the group s performances and veteran rock critic Robert Christgau declared the group sick motherfuckers One quarter of a century later the album is considered a hardcore classic having left an immutable influence on gangsta rap horrorcore and the rise of Southern hip hop Charting the rise of the Geto Boys from the earliest days of Houston s rap scene Rolf Potts documents a moment in music history when hip hop was beginning to replace rock as the transgressive sound of American youth In creating an album that was both sonically innovative and unprecedentedly vulgar the Geto Boys were accomplishing something that went beyond music To paraphrase a sentiment from Don DeLillo this group of young men from Houston s Fifth Ward ghetto had figured out the language of being noticed which is in the end the only language America understands **Hostile Aliens,**

**Hollywood and Today's News** Melvin E. Matthews,2007 1950s Cold War era monsters meet 21st century terrorists Matthews provides a thoughtful interpretation of sci fi movies that examines the similarities and differences between the political environment and popular culture of two eras This well researched examination and appreciation of science fiction films includes behind the scenes tales about their production and many quotes from those who produced and starred in the films The book will tantalize not only fans of the science fiction genre but also sociologists film historians and politicians The

author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture This book is the first of its kind studying the pop culture genre in the wake of the September 11th tragedy The alien invaders of the 1950s signified a Russian invasion of America while other films of the genre such as *Invaders from Mars* depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage signifying Communist enslavement If such a film were made now such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts Then the 1954 atomic mutation classic is the spiritual ancestor of the 2002 film *Eight Legged Freaks* Finally several 1950s films depicted the end of the world at a time when Americans expected a nuclear war with Russia *Godzilla* the only 1950s era monster to remain a movie star beyond that era can be fashioned to reflect whatever issues dominate the times nuclear war in the 1950s environmental pollution in the 1970s Conceivably a *Godzilla* for the age of terrorism is soon to be released The immediate pre September 11th era witnessed films presenting galactic threats to mankind s existence *Independence Day* *Armageddon* *Deep Impact* while the early 2000s witnessed the popularity of the *Left Behind* Christian films dramatizing the Tribulation period in the Book of Revelation It seems that whatever the era and whatever the challenges and crises confronting America many entertainment themes remain the same reflecting their respective times and the relevant issues

Melvin E Matthews Jr is a freelance writer and a horror movie aficionado who has been studying the genre for thirty years In this work he shares his personal correspondence with film and television star Beverly Garland and brings together a wealth of detail about the fun and the challenges of the costumes stunts and special effects as well as the actors and producers thoughts on the meaning behind the stories
