

Importance of Creation

- It explains why humans are more valuable than animals...
- ... why we view cannibalism with horror, but need not (& cannot) extend this to meat-eating and vegetable-eating.
- It explains why we have longings for a life beyond this one, and how God can be just even though justice is not always done in this life.

The Nature of Creation Mark Harris, 2014-09-19 It is generally assumed that science and religion are at war Many now claim that science has made religious belief redundant others have turned to a literalist interpretation of biblical creation to reject or revise science others try to resolve Darwin with Genesis The Nature of Creation addresses this complex debate by engaging with both modern science and biblical scholarship together Creation is central to Christian theology and the Bible and has become the chosen battleground for scientists atheists and creationists alike The Nature of Creation presents a sustained historical investigation of what the creation texts of the Bible have to say and how this relates to modern scientific ideas of beginnings The book aims to demonstrate what science and religion can share and how they differ and ought to differ

Creation Regained Albert M. Wolters, 2005-11-10 with a Postscript coauthored by Michael W Goheen In print for two decades and translated into eight languages Albert Wolters's classic formulation of an integrated Christian worldview has been revised and expanded to reach new readers beyond the generation that has already benefited from this clear concise proposal for transcending the false dichotomy between sacred and secular Wolters begins by defining the nature and scope of a worldview distinguishing it from philosophy and theology He then outlines a Reformed analysis of the three basic categories in human history creation fall and redemption arguing that while the fall reaches into every corner of the world Christians are called to participate in Christ's redemption of all creation This Twentieth Anniversary edition features a new concluding chapter coauthored with Michael Goheen that helpfully places the discussion of worldview in a broader narrative and missional context Praise for the first edition This is the best statement I have come across of the reformational Christian worldview It is lucidly written includes a lot of helpful analogies and illustrations and is throughout generous in its spirit Nicholas Wolterstorff Yale University Translates the central insights and categories of the neo Calvinist tradition into fresh nontechnical language and clarifies them with a generous sprinkling of apt illustrations and images Highly recommended to all those desiring a crisp introduction to a Christian worldview in general or the neo Calvinist tradition in particular Christian Scholar's Review Outstanding Deserves a wide readership not only in a specifically academic context among teachers preachers and students but also among the larger group of believers who are concerned with issues involving Christian worldview theology and philosophy Calvin Theological Journal

Creation and Change Douglas F. Kelly, 2017-08-04 Revised and updated edition Authoritative look at the early chapters of Genesis Scholarly but accessible

Creation Care Douglas J. Moo, Jonathan A. Moo, 2018-02-27 What does the Bible say about the natural world

and its place within God's purpose. From Genesis to Revelation the Bible reveals a God whose creative power and loving care embrace all that exists from earth and sky and sea to every creature. Yet the significance of the Bible's extensive teaching about the natural world is easily overlooked by Christians accustomed to focusing only on what the Bible says about God's interaction with human beings.

In *Creation Care*, father and son team Douglas and Jonathan Moo invite readers to open their Bibles afresh to explore a comprehensive biblical theology of creation care as well as a careful analysis of the most up to date scientific data about the state of our world. Following the contours of the biblical storyline they uncover answers to questions such as: What is the purpose of the non-human creation? Can a world with things like predators, parasites, and natural disasters still be the good world described in Genesis 1? What difference does the narrative of the Fall make for humankind's responsibility to rule over other creatures? What difference does Jesus make for our understanding of the natural world? How does our call to care for creation fit within the hope for a new heaven and a new earth? What is unique about Christian creation care compared with other approaches to environmental issues? How does creation care fit within the charge to proclaim the gospel and care for the poor? Rather than merely offering a response to environmental concerns, *Creation Care* invites readers into a joyful vision of the world as God's creation in which they can rediscover who they truly are as creatures called to love and serve the Creator and to delight in all he has made.

_____ Part of the *Biblical Theology for Life* series, this practical and robust book will help you develop an effective and faithful Christian response to the scriptural teaching about the created world.

True North Mark Liederbach, Seth Bible, 2012. A Christian ethics professor explores the person and work of Jesus Christ in relation to creation, redemption, and the restoration of all things, explaining why creation care involves more than global warming debates.

Creation and Covenant Christopher Roberts, 2008-11-01. Does sexual difference matter for marriage? Are there good theological reasons why the two main characters in a marriage should be a male and a female, or is marriage a more flexible covenant which any two people can keep? *Creation and Covenant* analyzes latent but under-examined beliefs about sexual difference in the theology about marriage which has been dominant for centuries in the Christian west. The book opens by studying patristic theologies of marriage which rested on mostly implicit and often incompatible beliefs about sexual difference. However, Roberts argues that Augustine developed a coherent theology of sexual difference according to a shifting significance from creation to eschaton. Roberts traces how Augustine's theology influenced and was developed by subsequent theologians such as Bernard of Clairvaux, Luther, Barth, and John Paul II. Finally, Roberts engages today's debates about gay marriage. Before becoming an academic, Dr. Roberts was a journalist. On behalf of PBS television, he covered both the Lambeth Conference in England and the World Council of Churches in Zimbabwe. During those years, he was disappointed by both the liberal and conservative arguments on homosexuality. Left-wingers seemed more interested in privacy, autonomy, and experience than in theology, and right-wingers seemed to have lots of prohibitions but little good news. In the final chapters, this book tries to do better, inviting liberals to improve the standard

of their arguments and explaining what is beautiful and persuasive about the traditional case *Creation and Salvation* E. M. Conradie, 2012 Christians trying to save the planet have to relate creation with salvation This volume explores the ways in which classic theologies have approached these tasks Science, Creation and the Bible Richard F. Carlson, Tremper Longman III, 2010-10-04 Physicist Richard Carlson and biblical scholar Tremper Longman address the long standing problem of how to relate scientific description of the beginnings of the universe with the biblical creation passages found in Genesis Experts in their respective fields these two authors provide a way to resolve seeming conflicting descriptions Creation Out of Nothing Paul Copan, William Lane Craig, 2004-06 Addresses the biblical philosophical and scientific bases for the doctrine of creation out of nothing while countering contemporary trends that are assailing this doctrine *Undeniable* Bill Nye, 2014-11-04 From the host of Bill Nye the Science Guy comes an impassioned explanation of how the science of our origins is fundamental to our understanding of the nature of science The New Answers Book 1 Ken Ham, 2008 Christians live in a culture with more questions than ever questions that affect one's acceptance of the Bible as authoritative and trustworthy Now discover easy to understand answers that reach core truths of the Christian faith and apply the biblical worldview to a wide variety of subjects **Why Won't They Listen?** Ken Ham, 2002-07-01 A lot of time and money is spent by Christians who have a passion to spread the gospel Across the globe this effort is paying off as seekers find Christ the source of truth and peace In many cultures though appeals made on behalf of the Christian faith are met with blank stares indifference even mocking hostility Ken Ham one of Christendom's most astute observers of evangelism is convinced that compromise with evolutionary world views has virtually crippled preaching and teaching efforts especially in Western societies In this truly bold book Ham presents an ambitious plan to fulfill the Great Commission A compelling writer and speaker Ham deftly exposes the great flaws of Darwinism and shows how compromise with this philosophy of death is killing the Church By the jungle of tangled views of reality and helps committed Christians see the path to effective evangelism

Mind of God P. C. W. Davies, 1993-03-05 Exploration of whether modern science can provide the key that will unlock all the secrets of existence *The Liturgy of Creation* Michael LeFebvre, 2019-08-06 How were holidays chosen and taught in biblical Israel and what did they have to do with the creation narrative Michael LeFebvre considers the calendars of the Pentateuch arguing that dates were added to Old Testament narratives not as journalistic details but to teach sacred rhythms of labor and worship LeFebvre then applies this insight to the creation week finding that the days of creation also serve a liturgical purpose
