- Svete knjige – podloga pravnim sistemima (Deklaracija o nezavisnosti USA 1776., dokumenti Ujedinjenih nacija, Kairska deklaraciji o ljudskim pravima iz 1990.)
- Vjerski propisi u ishrani, higijeni, nazivlju (molitva, bismila, pranje ruku, abdest, vjersko kupanje, brak, nadijevanje imena, naziv mjesta)
- Ništa kao vjera ne odgaja čovjeka  
Svrha vjere i jeste da odgoji čovjeka, da ga neprestanim sjećanjem na Boga i moralnim ponašanjem odvoji od zlih pobuda, od onog što sve vjere nazivaju grijehom. Ako nema «dobra djela», ako nema vjerskog morala, onda nema ni vjere

Russian political and cultural history and fascist tendencies and movements in contemporary Russian society      **Balkan Idols** Vjekoslav Perica, 2002-07-11 Reporting from the heartland of Yugoslavia in the 1970s Washington Post correspondent Dusko Doder described a landscape of Gothic spires Islamic mosques and Byzantine domes A quarter century later this landscape lay in ruins In addition to claiming tens of thousands of lives the former Yugoslavia's four wars ravaged over a thousand religious buildings many purposefully destroyed by Serbs Albanians and Croats alike providing an apt architectural metaphor for the region's recent history Rarely has the human impulse toward monocausality the need for a single explanation been in greater evidence than in Western attempts to make sense of the country's bloody dissolution From Robert Kaplan's controversial *Balkan Ghosts* which identified entrenched ethnic hatreds as the driving force behind Yugoslavia's demise to NATO's dogged pursuit and arrest of Slobodan Milosevic the quest for easy answers has frequently served to obscure the Balkans' complex history Perhaps most surprisingly no book has focused explicitly on the role religion has played in the conflicts that continue to torment southeastern Europe Based on a wide range of South Slav sources and previously unpublished often confidential documents from communist state archives as well as on the author's own on the ground experience *Balkan Idols* explores the political role and influence of Serbian Orthodox Croatian Catholic and Yugoslav Muslim religious organizations over the course of the last century Vjekoslav Perica emphatically rejects the notion that a clash of civilizations has played a central role in fomenting aggression He finds no compelling evidence of an upsurge in religious fervor among the general population Rather he concludes the primary religious players in the conflicts have been activist clergy This activism Perica argues allowed the clergy to assume political power without the accountability faced by democratically elected officials What emerges from Perica's account is a deeply nuanced understanding of the history and troubled future of one of Europe's most volatile regions      **International Order and the Future of World Politics** T. V. Paul, John A. Hall, 1999-07-08 In this volume distinguished scholars from different social science disciplines assess the emerging international order The volume is divided into three main sections In the first theories and strategies of order realism liberalism institutionalism and post positivism are presented In the second the prospects of the major likely contenders for world leadership are analysed The strategic possibilities for the USA Russia China the European Union Japan and India are examined in detail Part III discusses some of the chief challenges to world order with contributors examining the problems posed by globalization nationalism ethnic and religious conflict environmental degradation and the spread of weapons of mass destruction This book offers a comprehensive and interdisciplinary account of the prospects for a peaceful and just international order into the next century      **Architecture Acts with Theaster Gates** Andrew Sant Lucia, Michael Newman, 2016-12-31 This publication documents the School of the Art Institute of Chicago's 2014-2015 William and Stephanie Sick Professorship of Theaster Gates and the course *Architecture Acts* vol 1 taught in collaboration with Michael Newman and Andrew Santa Lucia      **Between Europe and Asia** Mark Bassin, Sergey Glebov, Marlene Laruelle, 2015-06-18

Between Europe and Asia analyzes the origins and development of Eurasianism an intellectual movement that proclaimed the existence of Eurasia a separate civilization coinciding with the former Russian Empire The essays in the volume explore the historical roots the heyday of the movement in the 1920s and the afterlife of the movement in the Soviet and post Soviet periods The first study to offer a multifaceted account of Eurasianism in the twentieth century and to touch on the movement s intellectual entanglements with history politics literature or geography this book also explores Eurasianism s influences beyond Russia The Eurasianists blended their search for a primordial essence of Russian culture with radicalism of Europe s interwar period In reaction to the devastation and dislocation of the wars and revolutions they celebrated the Orthodox Church and the Asian connections of Russian culture while rejecting Western individualism and democracy The movement sought to articulate a non European non Western modernity and to underscore Russia s role in the colonial world As the authors demonstrate Eurasianism was akin to many fascist movements in interwar Europe and became one of the sources of the rhetoric of nationalist mobilization in Vladimir Putin s Russia This book presents the rich history of the concept of Eurasianism and how it developed over time to achieve its present form
