Western Esotericism and the Science of Religion International Association for the History of Religions.

Congress, International Association for the History of Religions, 1998 This volume is based upon papers read during the innovative section Western Esotericism and the Science of Religion organized at the 17th International Congress of the International Association for the History of Religions IAHR in Mexico City August 5 12 1995 The section was created in order to fill a long standing hiatus in the academic study of religions whereas phenomena such as gnosticism and hermetism in antiquity and even the occult sciences of that period have long been recognized as subjects worthy of serious investigation the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research which may be referred to by the generic label western esotericism Preceded by an

introductory essay on the birth of this new discipline in the study of religion the volume provides a sample of current research in the field and devotes special attention to some central methodological questions Shambhala Nicholas

Roerich, 2003 Record of legends and parables of Central Asia and Tibet Conjuring Hope Galina Lindquist, 2006 Notions of magic and healing have been changing over past years and are now understood as reflecting local ideas of power and agency as well as structures of self subjectivity and affect This study focuses on contemporary urban Russia and through exploring social conditions conveys the experience of living that makes magic logical By following people's own interpretations of the work of magic the author succeeds in unraveling the logic of local practice and local understanding of affliction commonly used to diagnose the experiences of illness and misfortune **Voyager from Xanadu** Morris Rossabi, 2010-02-10 In

Voyager from Xanadu a distinguished historian tells the little known story of the life and travels of the first person from

China ever to reach Europe Portraying one of the most remarkable early encounters between East and West Morris Rossabi also brings to life the intriguing and turbulent era of the Mongol Empire and the last Crusades Toward the end of the thirteenth century at about the time Marco Polo arrived in China a Christian monk Rabban Sauma left it embarking on a journey that would prove more momentous than he could have dreamed What began as a religious pilgrimage to the Middle East supported by the Mongol Emperor Khubilai Khan ultimately became an extraordinary diplomatic mission After several years eventful stay in Persia Sauma was dispatched to Europe by Persia s Mongol ruler the Ilkhan The monk s task to persuade the Pope and the Kings of France and England to ally with the Ilkhan and launch a Crusade against their common enemy the Muslim dynasty that controlled the Holy Land The mission was a striking early instance of geopolitics on a modern scale Voyager from Xanadu vividly conjures up the places Sauma visited as he crossed two continents meeting with monarchs and prelates and seeing everything from a battle to a volcanic eruption to countless grisly relics of long dead saints It provides a clear and penetrating analysis of the volatile international situation of the era and its impact on Sauma s embassy And of course Voyager from Xanadu traces the life of an exceptional man from his comfortable youth through his unique adventures to his death far from the land of his birth

Authors of the Impossible Jeffrey J. Kripal,2011-09-16 Outstanding and almost certainly controversial Kripal has promise to revitalize and extend the reach of religious studies Choice Most scholars dismiss research into the paranormal as pseudoscience a frivolous pursuit for the paranoid or gullible Even historians of religion whose work naturally attends to

events beyond the realm of empirical science have shown scant interest in the subject But the history of psychical phenomena Jeffrey J Kripal contends is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion Kripal grounds his study in the work of four major figures in the history of paranormal research psychical researcher Frederic Myers writer and humorist Charles Fort astronomer computer scientist and ufologist Jacques Vallee and philosopher and sociologist Bertrand Russell Through incisive analyses of these thinkers Kripal ushers the reader into a beguiling world somewhere between fact fiction and fraud The cultural history of telepathy teleportation and UFOs a ghostly love story the occult dimensions of science fiction cold war psychic espionage galactic colonialism and the intimate relationship between consciousness and culture all come together in *Authors of the Impossible* a dazzling and profound look at how the paranormal bridges the sacred and the scientific An excellent book engaging witty and thoughtful Christopher Partridge Lancaster University Kripal demands nothing short of a paradigm shift in order to make sense of the odd the anomalous and the inexplicable Catherine L Albanese University of California Santa Barbara Quietly earth shattering Victoria Nelson author of *The Secret Life of Puppets*
