Religion And Economic Justice:

Religion and Economic Justice Michael Zweig, 1992-08-11 Original essays by distinguished contributors from economics religious ethics and biblical studies *What Does the Lord Require?* Stephen Hart, 1996 From the support given to Reagan and Bush's conservative economic agenda by the Religious Right to the questioning of some features of American capitalism by the Catholic Bishops Christians have been highly visible in the public forum during the last decade In *What Does the Lord Require* Stephen Hart shows that the views on economic issues held by less vocal Christians are also grounded in deeply held religious beliefs For these grass roots Christians Hart writes faith lays the foundation for views that range from staunchly conservative to radical Hart paints a rich portrait of how everyday Christians actually connect their faith to such issues as economic equality government intervention and the rights of private enterprise Drawing on lengthy interviews he makes a comprehensive analysis of forty seven diverse Christians Roman Catholics Pentecostals mainline Protestants Jehovah's Witnesses and others who range from manual laborers to corporate executives from conservatives to socialists The results are sometimes surprising On economic issues Hart shows evangelicals and fundamentalists are at least as liberal as mainline Protestants One Missionary Alliance member for example bases her populist views on the ideas that we are all children of God and God favors the lowly Many traditionalists come to liberalism through the belief that economic life should be governed by an ethical vision not just market forces Modernists on the other hand often desire an unbridled free market out of concern to maximize individual freedom Hart identifies five themes from Christian tradition voluntarism universalism love thisworldliness and otherworldliness that respondents repeatedly draw upon when they think about economic justice issues He shows how these themes are used to support both conservative and liberal views arguing that Christianity is a terrain of debate with no single inherent set of political implications let alone the monolithic conservative ones promoted by the Christian Right In fact he writes the respondents tend to speak in more liberal terms when they articulate the social implications of faith than when they talk about economic issues in purely secular terms Christian faith thus provides many Americans with a vision that can contribute to change in the direction of greater equality community and economic justice Most Americans are members of Christian churches and the last decade has shown the tremendous impact politically active Christians can have In *What Does the Lord Require* Stephen Hart offers a new understanding of how faith shapes the capacity of grass roots Christians to participate in public debate about economic life Economic Justice for All Catholic Church. National Conference of Catholic Bishops, 1986 **Do Justice** Rebecca M. Blank, 1992 For individuals as well as lay study groups this resource presents a much needed blend of theology and economics for all Christians interested in responding practically compassionately and justly to difficult economic realities **Religion and Social Justice** S. Thakur, 1996-10-04 This book is a philosophical examination of the relationship between religion and social justice Its main thesis is that since the primary purpose of religion is the moral and spiritual transformation of human nature it ought not to

be construed as a direct instrument of social justice on earth as it is by Liberation theologians for example as well as by many liberal Christians and Jews Indirectly however religion may well be a pre condition of social justice For it can be argued that without the counteracting effects of the moral and spiritual values prescribed by religion the liberal vision of individual rights and social justice may be self defeating Humanity is best served if this liberal vision is counterbalanced by the completely contrary utopia enshrined in the biblical idea of the kingdom of God and its equivalents in the other great religions of the world

Tax Law, Religion, and Justice Allen Calhoun, 2021-03-08 This book asks why tax policy is both attracted to and repelled by the idea of justice Accepting the invitation of economist Henry Simons to acknowledge that tax justice is a theological concept the work explores theological doctrines of taxation to answer the presenting question The overall message of the book is that taxation is an instrument of justice but only when taxes take into account multiple goods in society the requirements of the government the property rights of society s members and the material needs of the poor It is argued that this answer to the presenting question is a theological and ethical answer in that it derives from the insistence of Christian thinkers that tax policy take into account material human need *necessitas* Without the *necessitas* component of the tax balance tax systems end up honoring only one of the three components of the tax equation and cease to reflect a coherent idea of justice The book will be of interest to academics and researchers working in the areas of tax law economics theology and history

Missional Economics Michael Barram, 2018-05-24 American Christians today says Michael Barram have a significant blind spot when it comes to economic matters in the Bible In this book Barram reads biblical texts related to matters of money wealth and poverty through a missional lens showing how they function to transform our economic reasoning Barram searches for insight into God s purposes for economic justice by exploring what it might look like to think and act in life giving ways in the face of contemporary economic orthodoxies The Bible repeatedly tells us how to treat the poor and marginalized Barram says and faithful Christians cannot but reflect carefully and concretely on such concerns Written in an accessible style this biblically rooted study reflects years of research and teaching on social and economic justice in the Bible and will prove useful for lay readers preachers teachers students and scholars

Jesus, Jobs, and Justice Bettie Collier-Thomas, 2010-02-02

The Negroes must have Jesus. Jobs and Justice declared Nannie Helen Burroughs a nationally known figure among black and white leaders and an architect of the Woman's Convention of the National Baptist Convention. Burroughs made this statement about the black women's agenda in 1958 as she anticipated the collapse of Jim Crow segregation and pondered the fate of African Americans. Following more than half a century of organizing and struggling against racism in American society, sexism in the National Baptist Convention, and the racism and paternalism of white women and the Southern Baptist Convention, Burroughs knew that black Americans would need more than religion to survive and to advance socially, economically, and politically. Jesus, jobs, and justice are the threads that weave through two hundred years of black women's experiences in America. Bettie Collier-Thomas's groundbreaking book gives us a remarkable account of the religious faith, social and political activism, and extraordinary resilience of black women during the centuries of American growth and change. It shows the beginnings of organized religion in slave communities and how the Bible was a source of inspiration; the enslaved saw in their condition a parallel to the suffering and persecution that Jesus had endured. The author makes clear that while religion has been a guiding force in the lives of most African Americans, for black women it has been essential. As co-creators of churches, women were a central factor in their development. *Jesus, Jobs, and Justice* explores the ways in which women had to cope with sexism in black churches as well as racism in mostly white denominations in their efforts to create missionary societies and form women's conventions. It also reveals the hidden story of how issues of sex and sexuality have sometimes created tension and divisions within institutions. Black church women created national organizations such as the National Association of Colored Women, the National League of Colored Republican Women, and the National Council of Negro Women. They worked in the interracial movement in white-led Christian groups such as the YWCA and Church Women United, and in male-dominated organizations such as the NAACP and National Urban League to demand civil rights, equal employment, and educational opportunities, and to protest lynching, segregation, and discrimination. And black women missionaries sacrificed their lives in service to their African sisters, whose destiny they believed was tied to theirs. *Jesus, Jobs, and Justice* restores black women to their rightful place in American and black history and demonstrates their faith in themselves, their race, and their God.
