Politics, Religion, and Society in Latin America Daniel H. Levine,2012 Long assumed to be an unchanging and unquestioned bulwark of established power and privilege religion in Latin America has diversified and flourished while taking on new social and political roles in more open societies How did this change occur Why did churches in the region embrace new ideas about rights sponsor social movements and become advocates for democracy Are further changes on the horizon Daniel Levine explores these issues uniquely situating the Latin American experience in a rich theoretical and comparative context Church and Politics in Latin America Dermot Keogh,1990-06-18 Complex and profound changes have been taking place in the Latin American Catholic Church in the 20th century which have often been misunderstood and misrepresented This is a collection of essays written by scholars working in the fields of history political science sociology law and theology

Religion and Politics in Comparative Perspective Ted Gerard Jelen,Clyde Wilcox,2002-04-01 Religion is resurgent across the globe In many countries religion is a powerful source of political mobilization and in some a potent social cleavage In some religion reinforces the state in others it provides the space for resistance This book contains a series of detailed studies examining religion and politics in specific countries or regions The cases include countries with one dominant religious tradition and others with two or more competing traditions They include Catholicism Protestantism Islam Hinduism Shinto and Buddhism They include states where religion and politics are closely linked and others with at least a low wall of separation between church and state The cases are organized by the type of religious marketplace but allow many other comparisons as well We develop some generalizations from the cases and hope that they will be a fertile source of theorizing for others **The Frontiers of Catholicism** Gene Burns,1994-08-17 Discusses ideological changes in the Catholic Church since the early nineteenth century

The Catholic Church and Politics in Nicaragua and Costa Rica Philip J. Williams,2010-11-23 Unlike most recent studies of the Catholic Church in Latin America Philip J Williams analyzes the Church in two very dissimilar political contexts Nicaragua and Costa Rica Despite the obvious differences Williams argues that in both cases the Church has responded to social change in remarkably similar fashion The efforts of progressive clergy

to promote change in both countries have been largely blocked by Church hierarchy fearful that such change will threaten the Church's influence in society *The Church and Politics in Chile* Brian H. Smith, 2014-07-14 Clarifying the growing role of the Latin American Catholic Church as an agent of social change Brian H. Smith discusses the prophetic function of the Chilean Church during the country's metamorphosis from Conservative to Christian Democratic to Marxist to repressive military regime Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Divined Intervention**

Christopher Wayne Hale, 2020-03-02 *Divined Intervention* provides an innovative institutionalist account for why religion enables political activism in some settings but not others Christopher W. Hale argues that decentralized religious institutions facilitate grassroots collective action and he uses a multimethod approach to test this explanation against several theoretical alternatives Utilizing nationally representative Mexican survey data the book's statistical analyses demonstrate that decentralization by the Catholic Church is positively associated with greater individual political activism across the country Using case studies centered in the Mexican states of Chiapas Yucatán and Morelos the author shows that religious decentralization encourages reciprocal cooperative interactions at a local level This then increases the ability of religion to provide goods and services to its local adherents These processes then prompt the growth of organizational capacities at the grassroots enabling secular political activism Because this theoretical framework is grounded in human behavior it shows how local institutions politically organize at the grassroots level *Divined Intervention* also offers an improved understanding of religion's relationship with political activism a topic of ever increasing significance as religion fuels political engagement across the globe The book further synthesizes seemingly disparate approaches to the study of collective action into a cohesive framework Finally there is some debate as to the impact of ethnic diversity on the provision of public goods and this study helps us understand how local institutional configurations can enable collective action across ethnic boundaries "Ye Shall Know Them by Their Fruits" Jason García Portilla, 2021-12-11 Why are historically Catholic countries and regions generally more corrupt and less competitive than historically Protestant ones How has institutionalization of religion influenced the prosperity of countries in Europe and the Americas This open access book addresses these critical questions by elucidating the hegemonic and emancipatory religious factors leading to these dissimilarities between countries The book features up to date mixed methods from interdisciplinary research contributing to existing studies in the sociology of religion field by demonstrating for the first time the effect of the mutually reinforcing configuration of multiple prosperity triggers religion politics environment It demonstrates the differences in the institutionalization of Roman Catholicism and

Protestantism by applying quantitative and qualitative methods and by performing a qualitative comparative analysis QCA of 65 countries The author also provides a comprehensive survey and results of empirical research on different theories of development focusing on the influence of religion *Textual, Comparative, Sociological, and Cognitive Approaches* Peter Antes, Armin W.
