## **Religion And Politics In The Middle East:**

**Religion and Politics in the Middle East** Robert D. Lee, 2018-04-19 This innovative book analyses the relationship between religion and politics in the Middle East through a comparative study of five countries Egypt Israel Turkey Iran and Saudi Arabia Robert D Lee examines each country in terms of four domains in which state and religion necessarily interact national identity ideology institutions and political culture In each domain he considers contradictory hypotheses some of them asserting that religion is a positive force for political development and others identifying it as an obstacle Among the questions the book confronts Is secularization a necessary prerequisite for democratic development How is it and why is it that religion and politics are so deeply entangled in these five countries And why is it that all five countries differ so markedly in the way they identify themselves and use religion for political purposes The book argues that the nature of religious organization and practice in the Middle East must be understood in the context of individual nation states The second edition is updated throughout and includes an entirely new chapter discussing the political and religious climate in Saudi Arabia Earlier introductory analysis has been condensed to make room for new material and chronologies at the end of each chapter have been added to help students understand the broader context The second edition of *Religion and Politics in the Middle East* is a robust addition to courses on the Middle East

*Religion and Politics in Europe, the Middle East and North Africa* Jeffrey Haynes, 2009-10-16 In the early twenty first century it is now clear that religion is increasingly influential in the political realm in ways which call into question the principles and practices of secularism The Iranian revolution of 1978 9 marked the decisive reappearance of political religion in global politics highlighting a major development which is the subject of this edited volume Addressing a highly salient and timely topic this book examines the consequences of political interactions involving the state and religious actors in Christian Muslim and Judaist contexts Building on research the basic premise of this text is that religious actors including Islamist groups the Roman Catholic and the Orthodox churches pose various challenges for citizenship democracy and secularisation in Europe the Middle East and North Africa MENA The key questions on which the book focuses are Why how and when do religious actors seek to influence political outcomes in these regions Providing a survey of what is happening in relation to the interaction of religion and politics both domestically and internationally this book will be of interest to students and scholars of politics religion European and Middle East studies

**Religious Statecraft** Mohammad Ayatollahi Tabaar, 2018-05-08 Since the 1979 revolution scholars and policy makers alike have tended to see Iranian political actors as religiously driven dedicated to overturning the international order in line with a theologically prescribed outlook This provocative book argues that such views have the link between religious ideology and political order in Iran backwards Religious Statecraft examines the politics of Islam rather than political Islam to achieve a new understanding of Iranian politics and its ideological contradictions Mohammad Ayatollahi Tabaar traces half a century of shifting Islamist doctrines against the backdrop of Iran s factional and international politics demonstrating that religious

narratives in Iran can change rapidly frequently and dramatically in accordance with elites threat perceptions He argues that the Islamists gambit to capture the state depended on attaining a monopoly over the use of religious narratives Tabaar explains how competing political actors strategically develop and deploy Shi a inspired ideologies to gain credibility constrain political rivals and raise mass support He also challenges readers to rethink conventional wisdom regarding the revolution Ayatollah Khomeini the U S embassy hostage crisis the Iran Iraq War the Green Movement nuclear politics and U S Iran relations Based on a micro level analysis of postrevolutionary Iranian media and recently declassified documents as well as theological journals and political memoirs Religious Statecraft constructs a new picture of Iranian politics in which power drives Islamist ideology

**Nation and Religion** Fred Halliday,2014-05-14 This collection of essays offers a general analysis of the Middle East and more focused country by country examples Nationalism and Islamism are re examined to demonstrate their ongoing relevance and relationship to the present day Arab context and identity This is followed by a closer look at Islamist movements in Turkey Iran and Tunisia and how these forces may either come to erode the secular state as in Turkey and Tunisia or bolster the Islamic one in the case of Iran The author also examines the fate of the eight remaining monarchies of the Arab world and the conditions of their emergence consolidation and continuation

Religion, Culture and Politics in Iran Joanna de Groot,2000-08-01 This book offers a new interpretation to the social history of religion in Iran from the 1870s to the 1970s It aims to situate the revolutionary upheavals of 1977 82 in an extensive narrative context of historical developments over the preceding century and to relate the religious elements in that history to other social and cultural issues In the author s analysis Iran s revolution was complex and contingent on a range of factors rather than a simple or inevitable outcome of the nature of the Iranian state or the nature of religion in Iran The focus of the argument is on the human responses of Iranians to their experiences and problems in all their diversity and on the rich variety and complexity of relationships between religion and other aspects of life thought and culture in the daily life of Iranians

**Islam and the Myth of Confrontation** Fred Halliday,1996 The author examines the widely accepted image of confrontation between Islam and the West created largely by the rise of Islamic militancy in the Middle East and the perceived influence of Islam on politics and society Considering the sources of Islamic militancy and the rhetoric of Islamic and anti Muslim leaders he argues that the Middle East is a set of variant societies facing the economic and political problems of the Third World

**Radical Arab Nationalism and Political Islam** Lahouari Addi, 2018-07-01 Radical Arab nationalism emerged in the modern era as a response to European political and cultural domination culminating in a series of military coups in the mid 20th century in Egypt Algeria Syria Iraq Yemen and Libya This movement heralded the dawn of modern independent nations that would close the economic social scientific and military gaps with the West while building a unity of Arab nations But this dream failed In fact radical Arab nationalism became a barrier to civil peace and national cohesion most tragically demonstrated in the case of Syria for two reasons 1 national armies militarized nationalism and its political objectives 2 these nations did not keep pace with the intellectual and political and cultural and social progress of European nations that offered for example freedom of speech and thought It was the failure of radical Arab nationalism Addi contends that made the more recent political Islam so popular But if radical nationalism militarized politics the Islamists politicized religion Today the prevailing medieval interpretation of Islam defended by the Islamists prevents these nations from making progress and achieving the kind of social justice that radical Arab nationalism once promised Will political Islam fail too Can nations ruled by political Islam accommodate modernity Their success or failure Addi writes depends upon this question Striking From The Margins Aziz Al-Azmeh, Nadia Al-Bagdadi, Harith Hasan, Harout Akdedian, 2021-05-18 Since the collapse of the Soviet Union the Arab world has undergone a series of radical transformations One of the most significant is the resurgence of activist and puritanical forms of religion presenting as viable alternatives to existing social cultural and political practices The rise in sectarianism and violence in the name of religion has left scholars searching for adequate conceptual tools that might generate a clearer insight into these interconnected conflicts In Striking from the Margins leading authorities in their field propose new analytical frameworks to facilitate greater understanding of the fragmentation and devolution of the state in the Arab world Challenging the revival of well worn theories in cultural and post colonial studies they provide novel contributions on issues ranging from military formations political violence in urban and rural settings transregional war economies the crystallisation of sect based authorities and the restructuring of tribal networks Placing much needed emphasis on the re emergence of religion this timely and vital volume offers a new critical approach to the study of the volatile and evolving cultural social and political landscapes of the Middle East Religious Minorities in the Middle East Anh Nga Longva, Anne Sofie Roald, 2011-11-11 Focusing on the situation of both Muslim and non Muslim religious minorities
