**East European Accessions Index** ,1957      **Magyar közmondástár** Anna Tóthné Litovkina,2005 Magyar nyelv s irodalom      The Son of the White Horse ,1999      East European Accessions List ,1957      **The Jewellery Of Roman Britain** Dr Catherine Johns,Catherine Johns,2013-02-01 This work provides a survey of the jewellery of Roman Britain Fully illustrated and accessible to both the specialist and amateur enthusiast it surveys the full range of personal ornament worn in Britain during the Roman period the 1st to 4th centuries AD It emphasizes the presence of two distinct cultural and artistic traditions the classical element introduced by the Romans and the indigeneous Celtic background The interaction of these traditions affected all aspects of Romano British life and is illustrated in the jewellery The meaning and significance of personal ornament in a wide range of cultures is discussed including such matters as symbolism and the display of wealth and status The principal types of Romano British jewellery are classified in detail drawing attention to those which can be relatively closely dated The coverage is not restricted to precious metal objects but includes jewellery made of base metals and materials such as bone jet and glass The final chapter is devoted to the techniques of manufacture a subject which has become better understood in recent years as a result of scientific advances The book should appeal to anyone who practices teaches or studies Roman archaeology together with all those with a professional or amateur interest in the history of jewellery and design      **East European Accessions List** Library of Congress. Processing Department,1957      *Gold and Silver Treasures of Ancient Italy* Carlo Carducci,1969      *The Warrior Saints in Byzantine Art and Tradition* Christopher Walter,2016-12-05 Christopher Walter s study of the cult and iconography of Byzantine warrior saints George Demetrius the two Theodores and dozens more is at once encyclopaedic and interpretative and the first comprehensive study of the subject The author delineates their origins and development as a distinctive category of saint showing that in its definitive form this coincides with the apogee of the Byzantine empire in the 10th 11th centuries He establishes a repertory particularly of their commemorations in synaxaries and their representations in art and describes their iconographical types and the functions ascribed to them once enrolled in the celestial army support for the terrestrial army in its offensive campaigns and a new protective role when the Byzantine Empire passed to the defensive The survey highlights the lack of historicity among the Byzantines in their approach to the lives of these saints and their terrestrial careers An epilogue briefly treats the analogous traditions in the cultures of neighbouring peoples Walter draws attention to the development of an echelon of military saints notably in church decoration which provides the surest basis for defining their specificity also to the way in which they were depicted generally young handsome and robust and frequently twinned in pairs so calling attention to the importance of camaraderie among soldiers At the same time this work opens a new perspective on the military history of the Byzantine Empire Its ideology of war consistently followed that of the Israelites protected and favoured by divine intervention there was no occasion to discuss the morality of a just war Consequently when considering Byzantine methods of warfare due attention

should be given to the important role which they attributed to celestial help in their military campaigns      **Sociology in Hungary** Victor Karády,Péter Tibor Nagy,2019-07-29 This book is the first English language study of the social intellectual and institutional history of sociology and the social sciences in Hungary Starting with the emergence of the discipline in the early 20th century Karady and Nagy chart its development throughout various transformations of Hungarian society from the liberal Dual Monarchy through the respective Christian and Stalinist regimes and culminating in the modern scholarly field today Drawing on large scale prosopographical materials the authors use empirically based socio historical analysis to measure the impact of successive and radical regime changes on the country s intellectual life This will be an important and original point of reference for scholars and students of historical sociology and Eastern European intellectual history      *The Balts* Marija Gimbutas,1963      **The Thetford Treasure** Catherine Johns,Timothy W. Potter,1983      **The Politics of Backwardness in Hungary, 1825-1945** Andrew C. Janos,2012-01-20 Why did Hungary a country that shared much of the religious and institutional heritage of western Europe fail to replicate the social and political experiences of the latter in the nineteenth and early twenties centuries The answer the author argues lies not with cultural idiosyncracies or historical accident but with the internal dynamics of the modern world system that stimulated aspirations not easily realizable within the confines of backward economics in peripheral national states The author develops his theme by examining a century of Hungarian economic social and political history During the period under consideration the country witnessed attempts to transplant liberal institutions from the West the corruption of these institutions into a neo corporatist bureaucratic state and finally the rise of diverse Left and Right radical movements as much in protest against this institutional corruption as against the prevailing global division of labor and economic inequality Pointing to significant analogies between the Hungarian past and the plight of the countries of the Third World today this work should be of interest not only to the specialist on East European politics but also to students of development dependency and center periphery relations in the contemporary world
