Regional Development Policy and Administration in Italy M. M. Watson, 1970      **Economic Growth and Cohesion**

**Policy Implementation in Italy and Spain** Mattia Casula, 2020-05-20 This book concerns EU Cohesion Policy and the economic convergence of underdeveloped regions in Italy and Spain from the first programming period to the present it investigates the political and institutional factors that determine the success or failure of implementing EU Cohesion Policy at national and sub national level as well as their impact on economic growth On the wave of the American tradition of development studies this book suggests that public policy analysis can be fruitful for understanding economic growth and cohesion if it were to reconstruct domestic public interventions for development and the institutional characteristics of the subjects responsible for pursuing development goals To do so this book derives its theoretical foundations from the traditional debate on the role of state actors in promoting economic development and on the institutional characteristics that the public authorities involved in the process of economic development should display More precisely by adopting an Hirschmanian approach to development it elaborates an original framework to compare different Cohesion Policy implementations and to understand its economic results in different countries using Italy and Spain as pilot studies

Tourism and Politics Peter M. Burns, Marina Novelli, 2007-03-14 Tourism and Politics aims to disseminate ideas on the critical discourse of tourism and tourists as they relate to politics through a series of case studies from around the world written by specialists with an emphasis on linking theory to practice That tourism is a profoundly important economic sector

for most countries and regions of the world is widely accepted even if some of the detail remains controversial However as tourism matures as a subject the theories underpinning it necessarily need to be more sophisticated tourism cannot be simply read as a business proposition with a series of impacts Wider questions of politics power and identity need to be articulated investigated and answered While the making and consuming of tourism takes place within complex political milieux with multiple stakeholders competing for benefit the implications are not fully understood Literature on tourism and politics is surprisingly limited This book will make a substantial contribution to the theoretical framework of tourism
