## **Regional Security In The Middle East:**

**Regional Security in the Middle East** Pinar Bilgin, 2011-01-06 This is an accessible yet critical analysis of regional security in the Middle East Using a non realist approach Bilgin provides a comprehensive study of the past present and future of security in the region She also considers the question of identity formation explaining how and why various regional representations came into being and explores the consequences of a particular identity Finally the author presents alternative future scenarios and their implications including a critical security studies perspective on the future of the Middle East as a security community

**Regional Security in the Middle East** Pinar Bilgin, 2004-09-09 This is an accessible yet critical analysis of regional security in the Middle East Using a non realist approach Bilgin provides a comprehensive study of the past present and future of security in the region She also considers the question of identity formation explaining how and why various regional representations came into being and explor

Regional Security in the Middle East , Regional Security in the Middle East Zeev Maoz, 2013-06-17 Middle Eastern politics of the 1990s have been characterized by a drive towards peace Whether this is successful or not will depend on the negotiating process These articles discuss the challenges and provide some practical advice on how risks of failure could be avoided

*Building Regional Security in the Middle East* Emily B. Landau, Tamar Malz, Zeev Maoz, 2004-11-23 Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the Journal of Strategic Studies

*Routledge Handbook on Middle East Security* Anders Jägerskog, Michael Schulz, Ashok Swain, 2019-02-11 Routledge Handbook on Middle East Security provides the first comprehensive look at Middle East security issues that includes both traditional and emerging security threats Taking a broad perspective on security the volume offers both analysis grounded in the hard military and state security discourse but also delves into the soft aspects of security employing a human security perspective As such the volume addresses imminent challenges to security such as the ones relating directly to the war in Syria but also the long term challenges The traditional security problems which are deep seated are at risk of being exacerbated also by a lack of focus on emerging vulnerabilities in the region While taking as a point of departure the prevalent security discourse the volume also goes beyond the traditional focus on military or state security and consider non traditional security challenges This book provides a state of the art review of research on the key challenges for security in the Middle East it will be a key resource for students and

scholars interested in Security Studies International Relations Political Science and Middle Eastern Studies The Future Security Environment in the Middle East Nora Bensahel, Daniel Byman, 2004-03-12 This report identifies several important trends that are shaping regional security It examines traditional security concerns such as energy security and the proliferation of weapons of mass destruction as well as newer challenges posed by political reform economic reform civil military relations leadership change and the information revolution The report concludes by identifying the implications of these trends for U S foreign policy

*Regional and International Powers in the Gulf Security* Alaa Al-Din Arafat, 2020-06-27 This book discusses the threats and challenges facing the Persian Gulf and the future security in the region providing an overview of the major regional and extra regional actors in Gulf security It argues that except for Iran no regional or extra regional actors including the United States China India and Russia have developed a strategy for Persian Gulf security and only Turkey has expressed a willingness to provide security for the region Importantly the major threats to Persian Gulf security are nonconventional rather than external threats to Iranian hegemony or the balance of power In conclusion it predicts that the power struggle in the Persian Gulf in the coming decades will be between Iran and Turkey and not between Iran and Saudi Arabia This book is of interest to diplomats journalists international affairs specialists strategists and scholars of Gulf politics and security and defence studies

**Conflict and Diplomacy in the Middle East** Yannis A. Stivachtis, 2018-11-09 Conflict in the Middle East has the potential not only for destabilizing the region or upsetting the balance of power but also affecting global stability For these reasons the Middle East has been a center of world affairs This volume provides an account of international relations in the contemporary Middle East

*Regional Security in the Middle East* Charles Tripp, 1984 Sikkerhedspolitik i Mellem sten Israel og det pal stinensiske mindretal Saudiarabiens sikkerhedspolitiske forhold Regionens milit re trusler mod Israel Syriens sikkerhedspolitiske forhold Sovjetunionens udenrigspolitik overfor Iran og den Persiske Golf Tilstedev relsen af atomv ben i regionen

**Building Regional Security in the Middle East** Zeev Maoz, Emily B Landau, Tamar Malz, 2003

**The Regional Order in the Gulf Region and the Middle East** Philipp O. Amour, 2020-08-08 This book examines the regional order in the Gulf Region and the wider Middle East focusing on regional rivalries and security alliances The authors analyze the regional system in terms of its general structure as well as the major inter state and non state security alliances The structure of the regional system in the wider Middle East and the shake ups it has experienced explain the ongoing regional rivalry and polarization since 2011 in hotspots such as Syria Yemen and Libya As such the various chapters address regional transition and power dynamics between and among regional great powers and non state militant actors across the Gulf Region and the wider Middle East in terms of the alliance building persistence and disintegration since 2011

*Regional Security in the Middle East* Pinar Bilgin, 2019-01-31 In this new and fully revised edition Pinar Bilgin provides an accessible yet critical analysis of regional security in the Middle East analysing the significant developments that have taken place in the past years Drawing from a wide range of critical

approaches to security the book offers a comprehensive study of pasts presents and futures of security in the region The book distinguishes itself from previous critical studies on regional security by opening up both region and security Different from those approaches that bracket one or the other this study takes seriously the constitutive relationship between inventing regions and conceptions and practices of security There is not one Middle East but many shaped by the insecurities of those who voice them This book focuses on how present day insecurities have their roots in practices that have throughout history been shaped by geopolitical inventions of security In doing so the book lays the contours of a framework for thinking critically about regional security in this part of the world This second edition of *Regional Security in the Middle East* is a key resource for students and scholars interested in International Relations and Political Science Security Studies and Middle East Studies

**The Oxford Handbook of Comparative Regionalism** Tanja A. Börzel, Thomas Risse, 2016-02-04 The Oxford Handbook of Comparative Regionalism the first of its kind offers a systematic and wide ranging survey of the scholarship on regionalism regionalization and regional governance Unpacking the major debates leading authors of the field synthesize the state of the art provide a guide to the comparative study of regionalism and identify future avenues of research Twenty seven chapters review the theoretical and empirical scholarship with regard to the emergence of regionalism the institutional design of regional organizations and issue specific governance as well as the effects of regionalism and its relationship with processes of regionalization The authors explore theories of cooperation integration and diffusion explaining the rise and the different forms of regionalism The handbook also discusses the state of the art on the world regions North America Latin America Europe Eurasia Asia North Africa and the Middle East and Sub Saharan Africa Various chapters survey the literature on regional governance in major issue areas such as security and peace trade and finance environment migration social and gender policies as well as democracy and human rights Finally the handbook engages in cross regional comparisons with regard to institutional design dispute settlement identities and communities legitimacy and democracy as well as inter and transregionalism

**Middle Eastern Security, the US Pivot and the Rise of ISIS** Toby Dodge, Emile Hokayem, 2014 An IISS International Institute of Strategic Studies publication

**Emerging Security Threats in the Middle East** Ashok Swain, Anders Jägerskog, 2016 Increasingly the Middle East and its growing population face a highly complex and fragile security system The rich deposits of natural resources such as oil and gas suffer from a strained renewable resource base that includes water and arable land This leads to water scarcity desertification and land degradation Increasing population industrialization and urbanization put more and more demand on the food supply Energy insecurity may not be generally associated with the Middle East but the countries in the eastern Mediterranean part have been traditionally vulnerable to it as their fossil fuel endowments have been low Another issue is the large scale temporary labor migration and the large number of forced migrants refugees and internally displaced persons The book analyzes these emerging security challenges in a comprehensive and systematic manner It draws national and regional

security issues into both the global security and human security perspectives      **Regional Security in the Middle East**

the Middle East* Steven Cook, 2021-03-31      *THE Politics of Cybersecurity in the Middle East* James Shires, 2021-12-20  
Cybersecurity is a complex and contested issue in international politics By focusing on the great powers the US the EU  
Russia and China studies in the field often fail to capture the specific politics of cybersecurity in the Middle East especially in  
Egypt and the GCC states For these countries cybersecurity policies and practices are entangled with those of long standing  
allies in the US and Europe and are built on reciprocal flows of data capital technology and expertise At the same time these  
states have authoritarian systems of governance more reminiscent of Russia or China including approaches to digital  
technologies centred on sovereignty and surveillance This book is a pioneering examination of the politics of cybersecurity in  
the Middle East Drawing on new interviews and original fieldwork James Shires shows how the label of cybersecurity is  
repurposed by states companies and other organisations to encompass a variety of concepts including state conflict targeted  
spyware domestic information controls and foreign interference through leaks and disinformation These shifting meanings  
shape key technological systems as well as the social relations underpinning digital development But however the term is  
interpreted it is clear that cybersecurity is an integral aspect of the region s contemporary politics
